Preface

Dasa gives a system whereby we see the results which impact the native in a time period. Each Dasha is controlled by one planet. It is the disposition and relationship of this planet, that the promised events are reflected. The results which a planet promises in its Dasa has to be studied by a careful analysis of the planet.

The Vimshottari Dasha is a 120 year cycle of planetary position based on the position of Moon in one of the lunar mansions called Nakshatras. We have started the book explaining various Dasas. The first basic principles have been explained at length.

In the next part we go in details, discussing the strength of the planet depending upon position of planets, lordship and various rules that modify the strength.

Each Dasa and its predictive aspect are explained in details. It takes into consideration the sign in which the planet is posited. It also explains the effect of directional strength, state of the planet and the divisional strength. This will enable the reader to make an overall assessment of the planet whose Dasa is being analyzed for a native.

The next part dwells with the rules that have to be followed while taking the impact of Sub Period in the major period (Dasa) of the planet. We have in details discussed factors that strengthen or weaken the result which is promised. Further the impact of other vectors, like the transit and strength have been explained.

The predictive aspect for Major and Sub Period of all planets have been dwelled in length. The results in general for all Dasas have been explained not only for Antardasha (Sub Period) but also for Pratyantar (Sub - Sub Period), Sookshma (Sub Sub Sub Period) and Prana Dasa (Sub Sub Sub Sub Period).

To conclude an important chapter has been put which talks of the Avashtas (State) of Planets and their effects. This will be of great help in doing predictions.

This book which is the sixth book in the encyclopedia will be useful for those doing predictions as well as for the research students. A lot of research and also we have tried to cover all aspects that are required to understand the Dasa System.

Introduction

Astrology is the branch of knowledge of certain mysteriously secret relationship between the Celestial bodies and terrestrial life.

Observations prove that trends in human experiences correspond to movement of the Planets in the Solar system. It is a matter of common experience that the ailments of a rheumatic or asthmatic patient are usually aggravated on 11th day of the bright or dark Moon fortnight and the new and full Moon days. Physicians all over the world as well as layman have noticed the changes of developments of labour pain on these days.

Natal astrology is the study of these relationships in regard to human life; it classifies and correlates causes and effects, thus explains the natural laws that connect stellar dynamic causations with the Native's behaviour or the mundane events.

Life is short, Any branch of knowledge is vast, so is astrology- applied astronomy. Judgement on a Nativity is difficult, and therefore it is necessary, that a person interested in astrology should diligently read the writings of others, who have treated rationally this science, or Art of predictions and make it his business to find out the true natural causes of things by experience, to know the certain positions and procession of the planets and constellations, etc., but above all be sincere lover of truth.

There is in life of every man an instant which decides his entire future. Almost always it is chance which has taken the person like the wind does to a leaf, throwing him into a new and unknown situation, where once he has entered in is obliged to obey a superior force. The person does becomes the slave of circumstances, however still free to play things according to his free will, but with in the limits of strengths and weakness of the planetary configuration his birth. Well, the Dasa systems are one such method to give us timely pre-warning for pre-arming, to bring emotional, psychological and attitudinal balances in his life.

A Vedic or Hindu Dasa system is one of the unique methodologies developed by the ancient Seers. The various Dasa studies indicate certain predispositions or tendencies in human life, which some times, are so clear that they become virtual certainties. Experience is the great test, and had not the experience proved to the truth of the deductions of various Dasas methods.

Vimsottari Dasa corresponds to the complete circle of 360 deg, which is three times the span of maximum life- one hundred and twenty years. The Zodiacal circle when divided into twenty-seven constellation each of 13 deg 20 min, and the life span of one hundred and twenty years when divided by nine, gives thirteen years and four months, thus there is a proportion of one deg for each year of life. Further to simplify matters, observe the starry sign where Sun, Jupiter, Saturn and Rahu with mean motion (speed) joins, upon any birth chart, and we have the clue to NAADI predictions.

The Principles of predictions are three- Logic, Sense, and Experience, but the main principles of operations are four -The Planets, the Constellations and the positions of all these in respect of one another, and the Native's backdrop. An astrologer should be thoroughly acquainted with the complete commixtures and distinct virtues or powers of all the Planets and the Stars, and the influences of these on a Nativity, then only it will be possible to declare what will happen by or from such motions of the Heavenly bodies, and by consequence can correctly foretell future events imprinted on the mortals.

While judging the effects due to the planets in the horoscope and their successive combinations in the period, sub-period and sub-sub-period after birth, the general significations of the planets must be taken into account.

In general, it is necessary to take into consideration, when judging the effects of a planet, (1) its natural ruler-ship in the order of the signs; (2) the house (Bhava) occupied by it; (3) the house, or houses, over which it rules in the horoscope.

The judgment concerning any planet is derived from a consideration of its ruler-ship in the signs and the Bhava (houses) occupied by those signs, in addition to the place of the planet itself, its general nature, and its sympathies and antipathies in the natural world and in humans.

For this reason, the Moon is strong in the second and fourth houses; the Sun in the fifth and first; Mars in the first and eighth; Saturn in the tenth and seventh, etc., irrespective of the signs in which they are found; for they have affinity with these several houses by their affinities in the Kalapursha (world-soul), the horoscope of which is of Mesh Lagna (Aries for rising sign), during the whole of Kali Yuga (the present age), i.e., the Dark, or Iron Age.

During the PERIODS of a planet- As the general effects of the horoscope is derived from the configurations and conditions of all the planets, taken as natural signifiers for the whole life, so, in judging of the effects of any period of the life, attention must be paid to the condition (by position and

configuration) of the planet ruling that period as determined by the Dasa calculation, i.e., the dividing of time (the life-period) into its periodical subdivisions i.e. periods, sub-periods, and sub-sub-periods.

Its basis is the Moon longitude at birth. According to the condition of the planets ruling the required period, the life and fortunes of the native will be affected.

During the SUB-PERIOD of a planet- The effects are considered in relation to the general effects due to the planets governing the period in which they fall, and they are subsidiary to the effects promised by the period planet (Lord). Then, if the period-Lord shows good effects, it does so from its position and aspects at birth, and an evil sub-period-Lord cannot counteract its effect wholly, but some good will remain behind. The result is similar when, mutatis mutandis, the Period planet is evil and the Sub-Period-Lord good. But when both agree in nature and point to the same end, then the effects are forcible and decided, either for good or evil, as the case may be.

During the Sub-sub-PERIODS- The effects are taken as subsidiary to the sub-periods of Planets.

(The longest of these periods- Venus is over a period of 6 months 20 days, viz., the sub-sub-period, of the Sub-Period, in the Major Period (Maha Dasa); the shortest sub-sub-period is that of the Sun in its own sub-period and Major period; it lasts only 5 days 9 hours 36 minutes (Say 5 days and 10 hours). Sub-sub-sub-Periods and sub-sub-sub-sub-periods are even of much shorter durations and should be used only when birth time is accurate, and required to time an event especially important or fatality or for rectification of birth time with respect to known events.)

The condition of the **sub-sub-Period-Lord** must be taken into account, and its relations to the sub-period-Lord properly estimated. Its effects may then be accurately known.

A few straightforward rules are necessary in order to bring the above observations into systematic form.

The Generalised RULES TO JUDGE THE PLANETARY PERIODS in brief are as follows:-

1. Consider the positions and affections of the period planet properly, for even a good planet will not bear good fruit during its period, if it be ill affected by sign or position, or afflicted by the majority of malefic planets, or in divisional charts like Navamsa.
2. The sub-period planet must be considered in the same way as the period planet, but in addition thereto its relations with the period planet

must be taken carefully into account; for though the planets have a natural enmity and friendship existing between them, and due to their respective natures, yet when the sub-period planet is in good aspect/relationship to the period planet it will produce good, even though these planets be natural enemies. Similarly, friendly and benefic planets will not produce good fruits, if weak or afflicted, or themselves afflicting (by position) the period planet to which they are related.

3. The effects of the ruling or karaka planets are intensified at such time as the Sun or major planets may be transiting through the signs occupied by them or the signs over which they rule.
4. The sub-sub-period planets are considered in the same manner, in regard to the sub-period planets to which they are related, as these latter are to the period planets. It thus happens that even when the period is a good one, as shown by the position and affections of the period planet, yet there are sub-periods, and again sub-sub-periods, when evils may naturally arise.
5. The general effects of the planets thus related must be taken into account, and their natural relations, as well as their temporary relations in the horoscope, must be well considered. Thus, Saturn and Sun, although natural enemies by sign and exaltation, may be respectively in Libra and Leo, in which case they are in temporary good relations, occupying the third and eleventh signs respectively from one another. Judgment is made accordingly, but it is to be understood that a temporary friendship will not entirely overcome a radical and constitutional enmity.
6. The effects will further have relation to the nature of the house corresponding to the sign occupied by the sub-period planet, in the period under consideration. Thus if the period be that of Sun, and the sub-period be that of Venus, and Venus be in the sign Aquarius, the effects will fall out in relation to the eleventh house affairs; if Venus be in Libra, then seventh house affairs will be affected.
7. The sign, counted from the Ascendant, will give a further element of interpretation. Thus if, in the sub-period of any planet, that planet occupies Leo, and Scorpio and is in ascendant, the effects will fall on the tenth house affairs.
8. The number of the signs counted from the period to the sub-period planet will give the house corresponding thereto, over which the effects will hold sway. Thus:- Sun in Virgo and Venus as sub-period planet in Scorpio will show the third house affairs to be affected.

10. The houses in the horoscope ruled by the planet whose period, sub-period, or inter-period is considered must also be regarded as affecting.
11. Rahu and Ketu (Dragon's Head and Tail) have no houses, but transmit the influence of the signs they are in, and of the planets to which they are conjoined. The Dragon's Head has affinity with the sign Scorpio, and the Dragon's Tail with the sign Taurus.
12. If the inter-periods of the different sub-periods be taken into account, the above "effects" will apply equally well to those also, by counting the sub-period planet as a period planet, and the inter-period planet as a sub-period planet. In this way the prognostics serve for every period of life, from the greatest to the least, allowance being made for the relations of the significators in the minor periods. In all cases the effects due to the Lord of period are of prior importance, the sub-periods-lord and sub-sub-periods-lord following in subsidiary order.
13. During the period and sub-period of a very well disposed planet, nearly all type of benefic result are likely. Similarly, when the sub-period planet under consideration is ill disposed in all respects then the native faces all sort of problems during that period e.g. when Mars is debilitated and badly aspected, then the spouse may suffer or the native may have a car accident or loss of property.
14. During the sub-period of two planets having an exchange of their signs in Birth chart, especial results are possible e.g. when Sun is in Capricorn and Saturn is in Leo, then during each others period or sub-period excellent effects are experienced pertaining to the houses and planets thus related.
15. In the major period, it is the sub-period planet which will be more effective to give results e.g. when Moon and Mars are in conjunction, then in the Moon-Mars period accident, injury, violence and such happening are more likely. But during Mars-Moon period more beneficial effects will be experienced according to the Mars lordship of houses. As Mars work as an motivator for the Moon (mind) thought and actions.

Travelling Direction

In judging of the direction in which a person will travel, when such is shown in the horoscope, or again in the Period., Sub-Period, and sub-sub-* Period, effects, the following rule is usually taken:-

The first house, with its complements twelfth and second, governs the South.

The tenth, with ninth and eleventh, governs the East.

The seventh, with fifth and eighth, governs the West; and

The fourth, with third and fifth, governs the North

Therefore, Mars rules the East; the Moon rules the North; Venus governs the West; and Saturn the South.

Judgment is chiefly to be made from the houses, and next, but subserviently, from the signs occupied by the planets.

In the forthcoming chapters we are attempting to give a clear and concise presentation of the essential facts of Dasa systems, and intricacies of Vimsottari Dasa, as preached by the ancient Seers and from our own experience.

Chapter 01

Various Dasas of Planets

Now let us discuss, the unique feature of Vedic Astrology i.e. the Dasa System of planets and its utility in predictions. A good grasp of Vedic Astrology is essential to make full use of the effects of a Dasa while making predictive analysis. There are different kinds of Dasas pertaining to the various Planets. Dasas are planetary periods and sub-periods that rule very precisely defined periods of one's life in respective Dasas.

The Dasas are of various kinds. Amongst them Vimsottari is the most appropriate for the general population.

But the other Dasas, followed in special cases, are Astottari, Shodasottari, Dwadasottari, Panchottari, Shatabdi, Chaturashiti-sama, Dwisaptati-sama, Shashtihayani, and Shattrishant-sama Dasa.

Our ancients have described these different kinds of Dasas, based on Nakshatras. Some **Maharishis** have made a mention of **Kala** and Chakra Dasa, but they have recognized the Kalachakra Dasa, as supreme.

The other kinds of Dasas, propagated by the Sages, are Char, Sthir, Kendra, Karaka, and **Brahmagraha**. Apart from these the other Dasas are Manduook, Shoola, Yogardha, Driga, Trikona, and Rashi.

Some different form of Dasas is also prevalent such as Panchswara, Yogini, Pinda, Naisargie, Ashtavarga, Sandhya, Pachaka, and Tara Dasa etc.

But all these Dasas are not in common usage.

Vimsottari Dasa

The Vimsottari Dasa is considered to be the most appropriate and the best of all Dasas.

In Kali Yuga the natural lifespan of a human being is generally taken, as 120 years, and while calculating the Life span the months are taken of 30 days and the year consists of 12 months.

The year of 360 days adopted in Vimsottari Dasa of Hindu Astrology is not considered correct and now a day's astrologer recommends the use of English Calendar year of 365 days. This theory is against the spirit, practice and rationale of Vedic Astrology.

Since the Astrology was prevalent in India much earlier than the birth of the Gregorian English Calendar which is only 2012 years old now. According to Mahabharata, in Virat Parva, Chapter, when Arjuna revealed his identity after the completion of 18 year's exile, Duryodhana raised a technical objection that he had not completed full 13 years, basing his calculation on the Solar year of 365 1/4 days. But Bheeshma over ruled the objection, saying that Arjuna has completed full 13 years as per lunar year of 360 days. It clearly shows that Hindu Shastras recognised only Savana year of 360 days for civil and legal purpose. Further, the zodiac is divided into 360 degrees as per Savana year of 360 days. **By Savana day is meant, the period from one rising of the Sun to the next rising. It is sixty ghati or 24 hrs. And 360 such day make one Savana year. Savana time / year is the standard time according to which astrological calculations are made in Vedic Astrology.**

All those who are using the Lahiri Ephemeris, probably have not been observant to take the notice of the "N.B.: The months of Dasas shown in this Ephemeris are of 30 days each and the year is of 360 days", given at the end of Vimsottari Dasa tables.

If the results of Dasa, Sub-periods differ among astrologers, it is due to various values of Ayanamsa, adopted by astrologers according to their pet theories. The Chitra-Paksha Ayanamsa gives very good results, when the Moon value is taken with parallax, since the Moon is the nearest to Earth and most fast moving too.

The old Panchang's, some of them were calculated with Moon parallax taken in to account. The value of Moon with parallax vary due to speed of Moon, which changes from 11 deg 30 min to 15 deg 30 min, the parallax value is 53.32 min for the least speed and 61.91 min for the maximum value, for the middle speed of Moon 13 deg 30 min the parallax value will be 57.77 min.

(It is a common knowledge, that to take an aim, to shot with any weapon, we have to close one eye; the similar theory is to be applied for Moon value also since Moon is closer to Earth, not for distant Planets.)

The Vimsottari Dasa has two versions:-

If the native was born in **Sukla Paksha** (bright half) with the ascendant in the Hora of Sun or in **Krishna Paksha** (dark half) with the ascendant in the Hora of Moon, Dasa should start from **Ardra Nakshatra**.

Chapter 01: Various Dasas of Planets

In the vice versa case, the Dasa should start from Krittika (as is being done presently) i.e. if the native was born in Krishna Paksha (bright half) with the ascendant in the Hora of Sun or in Sukla Paksha (dark half) with the ascendant in the Hora of Moon, Dasa should start from Krittika Nakshatra.

Nowadays the main reason for predictions not coming true is that the Vimsottari Dasa is calculated from Krittika only.

The **Dasa-Phala-Darpan** written by Sri Nivas Sharma / (Pathak) son of Mahadeva Pathak of Jatak Tatva has mentioned all these variations in his book. Some other books also mention these points.

Now the important subject of "Dasa" (periods) and Sub-periods of planets and the influence of planets on the native of the horoscope, is dealt here.

According to the theory of the great sages, the maximum period in stellar measure, or Nakshatra Duration, up to which a man could live is 120 years, provided the planets are favourably situated. This maximum period when converted to solar measure or "**souramana**" works out to 118 years, 2 months and 29 days. The number of years in stellar measure that each of the planets Sun, Moon, Mars, Rahu, Jupiter, Saturn, Mercury, Ketu and Venus would bestow on man is 6, 10, 7, 18, 16, 19, 17, and 20 years respectively.

In the Vimsottari Dasa-Starting from Krittika Nakshatra, the Lords of Dasas are Sun, Moon, Mars, Rahu, Jupiter, Saturn, Mercury, Ketu and Venus in that order.

The process of finding out the period of the planet within which a person was born is easy. Thus, when the Nakshatras from Krittika to the Birth Nakshatra are divided by nine, the remainder will signify the Lord of the commencing Dasa. Counting of stars is in groups of nine. In each group, the 1st and the succeeding stars are governed by Sun, Moon, Mars, Rahu, Jupiter, Saturn, Mercury, Ketu and Venus respectively-

The period in current, at the time of birth, will be of the planet that governs the constellation that will be ruling at the time of birth. The remaining Dasas will be of the Planets in the order given above.

Similar process is to be followed, when the Dasa is commencing from Ardra nakshatra.

Thus for persons born in the following constellations, Dasa period begins with, is that of the planet noted against them.

The following tables will illustrate the both versions of Vimsottari Dasa.

Note: Dasa Phala Darpan of Srinivash Pathak S/o Sri Mahadev Pathak has mentioned both Krittikadi and Adradi versions of Vimsottari Dasa System.

Having ascertained the period of the particular planet that is in current at the time of birth, the next step will be to find out, what portion of that period remained after birth.

To find out the remainder of the Dasa, operating at the time of birth, first find out the expired portion of the Dasa of the concerned Planet. This is done, as follows:-

Multiply the Dasa period of the Planet concerned by the period of the stay of Moon in Birth Nakshatra, that has expired and divide that amount by the total period of the stay of Moon in that Nakshatra. The figures are in years, months etc. so arrived at will be the expired period of the Dasa. When this figure is deducted from the total period of the Dasa, we will get the balance of Dasa at the time of birth.

The balance of Dasa at birth can be directly known from the table named as Balance of Vimsottari Dasa by Longitude of Moon (sidereal in any Ephemeris (INDIAN) or Panchanga or book on Vimsottari Dasa having such tables.

THE SUB-PERIODS CALCULATION - KRITTIKADI

The sub-periods are obtained by multiplying together the years due to the planet ruling the period and sub-period; then, leaving off the last figure in the product, multiply it by 3, and call the result days, the first figure in the product being so many months.

Thus, to find the sub-period due to the Moon in its own period:-

The period of the Moon is ten years:-

$$10 \times 10 = 100 = 10 \text{ months.}$$

There is a zero for the last figure of the product, and therefore the sub-period has no odd days. Take another example:-

Find the sub-period due to Mars in the period of the Sun, the Sun's period being six years, and that of Mars seven years.

$$7 \times 6 = 42 = 4 \text{ months } 6 \text{ days. These are called sub-periods.}$$

(Last fig:- 2 multiplied by 3= 6 days)

They are further divided into Sub-sub-period periods. The rule for determining their duration is as follows:-

1. Divide the months of the sub-period by 4; this will give so many days, hours, etc.
2. Divide the days of the sub-period by 5; this will give so many hours, minutes, etc.

Chapter 01: Various Dasas of Planets

3. The days, hours, and minutes thus produced must be multiplied by the total period (Dasa) of the planet, whose Sub-sub-period period is required.

Example.-Required the Sub-sub-period of Jupiter in the sub-period of Saturn, during the major period (Dasa) of Ketu.

Ketu Period = 7 years

Ketu-Saturn Sub-period = 13 months 9 days

Jupiter Sub-sub-period = required

By Rule one, $13/4 = 3$ days 6 hours

By Rule two. $9/5 = 1$ hour 48 minutes

Total = 3 days 7 hours 48 minutes

Apply Rule three:- This period, is multiplied by 16, the total period of Jupiter whose Sub-sub-period, is required = 1 month 25 days 9 hours 48 minutes, which is Jupiter Sub-sub-period in the sub-period of Saturn during the major period of Ketu or as one would say:

In Ketu Dasa during Saturn sub-period:

The Jupiter sub-sub-period is 1 month 25 days 9 hours and 48 min. as per English calendar of 365 $\frac{1}{4}$ days.

$3 \text{ days} \times 16 = 48 \text{ days} = \text{one month } 18 \text{ days}$

$18 \text{ days} \times 24 = 432 \text{ hrs}$

$7 \text{ hrs} \times 16 = 112 \text{ hrs}$

$48 \text{ min} \times 16 = 768 \text{ min} \text{ divide by } 60 = 12.8 \text{ hrs} = 12 \text{ hrs } 48 \text{ min}$

Now add total hrs ($432+112+12.8 = 556.8 \text{ hrs}$)

$556.8 \text{ hrs divide by } 24 = 23 \text{ days } 4 \text{ hrs } 48 \text{ min}$

Jupiter Sub-sub-period, in the sub-period of Saturn, during the period of Ketu is 1 month 23 days 4 hrs 48 min for the year is of 360 days as per Vedic system)

Astottari DASA

The few sages have recommended the adoption of Astottari Dasa, when Rahu is not present in Ascendant, but in any other Kendra - (1,4,7,10), or Trikona - (5,9) to the Lord of the Ascendant. When Rahu is in other places in the birth Chart, this Astottari Dasa is not applicable to the Native.

The Astottari Dasa has also two versions. When there is a planet placed in the ascendant, the Dasa is counted from Ardra nakshatra, but when there is NO planet in Ascendant, then the Dasa is counted from Krittika Nakshatra.

(Lahiri Indian Ephemeris also gives Balance of Astottari Dasa by longitude of Moon at birth, both from Krittika and Ardra Nakshatra.)

Astottari Dasa by Ardra Nakshatra-

For four Nakshatras starting from Ardra commences the Dasa of Sun,

For next three nakshatra after that i.e. Magha begins the Dasa of Moon,

Four nakshatra after that i.e. from Hasta will give the Dasa of Mars,

Three nakshatra after that i.e. from Anuradha, the Lord of Dasa will be Mercury,

Four nakshatra wherefrom i.e. from Purvasadha will have Saturn as the Dasa Lord,

Three nakshatra thereafter i.e. from Dhanistha, the Lord will be Jupiter,

Rahu will be the Lord of the Dasa next four Nakshatras after that i.e. from U.Bhadrapada, and

Then Venus will take over the lordship of the Dasa of next three Nakshatras from the last one mentioned above i.e. from Krittika.

Astottari Dasa by Krittika Nakshatra-

For four Nakshatras starting from Krittika commences the Dasa of Sun,

For next three nakshatra after that begins the Dasa of Moon,

Four nakshatra after that, will give the Dasa of Mars,

Three nakshatra after that, the Lord of Dasa will be Mercury,

Four nakshatra wherefrom will have Saturn as the Dasa Lord,

Three nakshatra thereafter, the Lord will be Jupiter,

Rahu will be the Lord of the Dasa for next four Nakshatras after that and

Then Venus will take over the lordship of the Dasa of next three Nakshatras.

The Lord of the Dasa at birth will be determined by counting in this order up to the Birth Nakshatra.

The duration of Astottari Dasa for Sun, Moon, Mars, Mercury, Saturn, Jupiter, Rahu and Venus Dasas are 6, 15, 8, 17, 10, 19, 12 and 21 years in respective order.

Note: That in this Dasa system only Eight Planets play the role of Dasa Lords, Ketu having been denied this privilege.

Further the malefic planets are allotted four nakshatra and the benefic planets are allotted only three nakshatras.

The Dasas of the various Planets have been specified above. In the case of malefic Planets the Dasa span of one Nakshatra is $\frac{1}{4}$ of the Dasa of the Planet. It is $\frac{1}{3}^{\text{rd}}$ in the case of benefic. Thus the expired portion of the Dasa is calculated, according to the method, followed for Vimsottari Dasa, by Multiplying the Bhayat, i.e. the expired period of the stay of Moon in the Birth Nakshatra, by the Dasa portion of the Birth Nakshatra and dividing it by Bhabhog, i.e. the total period of the stay of Moon in the Birth Nakshatra. Then the balance of Dasa at birth can also be ascertained.

When Uttarasadha happens to be the Birth Nakshatra, the duration of its first three Padas is taken, as Bhabhog and the Dasa calculations should be done accordingly.

The Dasa and calculations for Abhijit Nakshatra (19 Ghati) are done by taking the 4th Pad (4 Ghati) of Uttarasadha plus the 15th part of the beginning of Sravana. For Sravana the Bhabhog would be the total of its duration in Ghatis minus the 1/15* part of the beginning of Sravana.

Shodsottari Dasa

It will be advisable to adopt the Shodsottari, When the birth is in the day in Krishna Paksha (dark half of the month), or at night in **Sukla** Paksha (bright half).

The Dasa may be adopted, when the Ascendant is in the Hora of Moon with birth in the Krishna Paksha, or, when Ascendant is in the Hora of Sun with birth in the Sukla Paksha.

Count the number of Nakshatras from Pusya to the Birth Nakshatra. Divide this number by 8. The remainder will indicate the Dasas of Sun, Mars, Jupiter, Saturn, Ketu, Moon, Mercury and Venus. The Dasas of the above Planets are of 11, 12, 13, 14, 15, 16, 17 and 18 years. Total 116 years.

Dwisaaptati-sama

This Dasa system is considered suitable in cases, where the Lord of Ascendant is in Ascendant, or in the seventh house.

Another version

When the ascendant lord is in the 7th house and the 7th lord is in the ascendant, which appears to be more logical.

Counting is done from Mula to the Birth Nakshatra and dividing the number by 8, the remainder will determine the Dasa Lords in the following order: Sun, Moon, Mars, Mercury, Jupiter, Venus, Saturn and Rahu.

In this Dasa system all the eight Planets only, (Ketu is not included), which have Dasas of 9 years each. The order of Dasa is in the natural arrangement of planets. Total 72 years.

Kala Dasa

Both day and night consist of 60 Ghatis i.e. 24 hours, morning and evening twilight is of 10 Ghatis i.e. two hours, each.

5 Ghatis before the sight of the semi-disk of the setting Sun and 5 Ghatis after that and 5 Ghatis before and after the rising of Sun, that is 10 Ghatis in the evening and 10 Ghatis in the morning, respectively. The total period of both these **Sandhya** (twilight) is said to be 20 Ghatis.

The 20 Ghatis of the night have been given the name Poorna and the 20 Ghatis of the day have been given the name Mugdha. The Sandhya at the time of sunrise is called Khabda and the Sandhya at the time of sunset is said to be Sudha. Both of these Sandhya are of 10 Ghatis each.

When the birth is in Poorna, or Mugdha, its past Ghatis should be multiplied by 2 and the product should be divided by 15. The figure so arrived at should be Converted into years, months etc.

By multiplying it by the serial number 1,2,3, etc., of Sun and other Planets in their normal order, we will get the Kala Dasa of these Planets.

When the birth is during Sandhya, then its past Ghatis should be multiplied by 4 and the product is divided by 15.

The figure so arrived at is in terms of years, months etc. should be Multiplied by the serial number 1,2,3, etc., of Sun and the other Planets, to obtain the Kala Dasa of all the nine Planets.

Chakra

The Chakra Dasa can be maximum of there types:-

When the birth is at night, the Dasa will commence from Ascendant Rasi.

When the birth is during the day, the Dasa will start from the Rasi, in which the Lord of Ascendant is placed.

When the birth is during twilight of evening, the Dasa will begin from the Rasi of the second Bhava.

The Dasa of each Rasi is 10 years respectively. Since, it is the Dasa system of the 12 Rasis in the Zodiac; it has been named, as Chakra Dasa.

Another version:-

In this Dasa, the planet placed in the ascendant has the first Dasa, thereafter **Dasa of planets** placed in 2nd, 3rd, and 4th house respectively of 12 rasi will commence.

When more than **one** planet is placed in one house, the order of Dasa will be starting from the planet having highest degrees to the lowest, in the descending order.

- The duration of Dasa of planet, will be equal to the Rasi number placed in the concerned house.

Monthly calculation will be in proportion of degrees of the planet in the respective Rasi years. 30 degree is equal to duration of Dasa years of a planet.

Kalachakra

Now let us describe the Kalachakra Dasa.

The basis for Kalachakra Dasa is the Nakshatra Pada or the quarter in which the Moon is placed.

Normally the Kalachakra Dasa should be applied:-

When Venus is strong,

The lord of Navamsa, where the Moon is placed joins or aspect the Moon and,

The lord of such a Navamsa is strongly placed.

However Kalachakra Dasa can be applied with great advantage in most cases and now days there are many versions, which one to follow depends on your experience and choice.

5, 21, 7, 9, 10, 16 and 4 are the numbers representing the Kalachakra period in years respectively of the Seven planets counted from the Sun and are the chief source for ascertaining the benefic and malefic results.

One of the peculiar features of this system is the importance given to Deha and Jiva.

In the Savya order of Nakshatras, the first of the signs indicated by the formula signifies the Deha and the last (or 9th) signifies the Jiva. For Example:-

Take Punarvasu (Savya group) first quarter-

According to the formula, Aries, the first sign is the Deha and Sagittarius the last sign is the Jiva. In regard to Mrigasiras 2 (Apsavya) the Jiva is Gemini and the Deha is Taurus.

When Deha is conjoined by malefic planets there will be much bodily affliction. When Jiva is afflicted, death or a calamity is **shown**. Affliction to Deha or Jiva by more than one malefic planet signifies calamitous happenings. Death can take place in the Dasa of the Rasi corresponding to the afflicted Deha or Jiva.

When benefic occupy Jiva and Deha signs auspicious results may happen. Serious disease or even ultimate death is likely when two or three malefic afflict Deha or Jiva.

According to Classics, when the Sun, Rahu, Mars or Saturn joins either Deha or Jiva, death is certain to occur in the Dasa of the sign of Deha or Jiva.

It is necessary that in the interpretation of the affliction to Jiva or Deha, mind should be intelligently applied, so that a deterministic approach is not taken and a literal interpretation is avoided, only inference to be drawn.

Astrology being a science of tendencies - the interpretation cautions us, that the person's health may be severely affected so that appropriate remedial measures could be resorted to.

Any malefic in Deha Rasi signify disease,

while Jiva afflicted likewise indicates extreme fear and apprehension.

If two malefic afflict- mental suffering,

If three malefic- accidents; and four malefic denote certain death.

If Deha and Jiva are both occupied by a malefic, fear from the rulers, trouble from thieves should be anticipated.

If Sun is the afflictive planet, likelihood of out-break or fear of fire;

if waning Moon is the afflictive planet, fear of drowning or accidents involving water,

Mars causes injury from weapons or dangerous instruments;

Mercury causes inflammation of Vata in body;

Jupiter causes trouble in the stomach;

Venus indicates fire accident;

Saturn afflicting **Jiva-health** problem involving the spleen (**gulma** diseases);

Rahu or Ketu indicates fear of being poisoned or being bitten by venomous insects, or atmospheric pollution, etc.

If Deha and Jiva signs are occupied by Mercury, Jupiter or Venus, one can experience comforts in life, good fortune and redemption from sorrow.

If both benefic and malefic influence Deha and Jiva, mixed results will follow.

In Kala chakra Dasa- By drawing vertical and horizontal lines, prepare 2 Charts, Savya and Apsavya, of 12 Compartments each. From the second

Compartment in each Chart fix the Rasis-Aries, Taurus, Gemini, Cancer, Leo, Virgo, Tula, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces. Then Nakshatras may be incorporated in the manner, indicated hereafter. These Charts, indicative of the 12 Rasis, are called Kala Chakra.

Write Asvini, Bharani and Krittika in the Savya Chakra and Rohini, Mrigasiras, Ardra in the Apsavya. Then incorporate the three following Nakshatras, Punarvasu, Pusya and Aslesa in the Savya and Magha, P.Phalguni and Uttaraphalguni in the Apsavya.

Then incorporate the three following-Hast, Citra and Svati in the Savya and -Visakha, Anuradha and Jyestha in the Apsavya. Then incorporate-Mula, Purvasadha and Uttarasadha in the Savya and

Sravana, Dhanistha and Satabhisaj in the Apsavya. Finally incorporate the last three Nakshatras-Purba bhadrapada, Uttar bhadrapada and Revati in the Savya Chakra.

Now there will be 15 Nakshatras in the Savya and 12 Nakshatras in the Apsavya, (because for the 12 Rasis there are 12 Padas of 3 Nakshatras,- the Navamsas). The Padas of Asvini, Punarvasu, Hast, Mula, Purba bhadrapada, Krittika, Aslesa, Svati, Uttarasadha and Revati of the Savya should be reckoned in the same manner, as the Padas of Asvini.

Now let us know, how the Deha and Jiva should be reckoned in the Padas (quarters) of the Nakshatras.

All those who are born in the 1st Pada of Asvini, Aries is indicative of Deha (body) and Sagittarius is indicative of Jiva (life), the first sub period belongs to Aries-Mars;

The four formulae given for the four Padas of Asvini will also respectively apply to the four Padas of Krittika in the Apsavya-pradakshina triad.

The four formulae given for the four Padas of Mrigasiras should also be used again for the four Padas of Ardra.

Now let us have the description of Apsavya Chakra.

The description of the Deha and Jiva of the Padas of the Apsavya Nakshatras and the Dasa Lords is the same.

The Dasa spans of the Dasa Lords, is described earlier. How the commencement of the Dasa, it's expired and the remaining periods at the birth are to be calculated as follows.

The span of life of a person is determined from the Padas (Amsa) of the Nakshatra at the time of birth, or the time of query and the years allotted to the 9 Signs, commencing from it (the Pad of the Nakshatra).

Some sages are of the view, that the person will enjoy full span of life (Poorna Ayu), When his birth is at the commencement of the Padas, will have middle span of life (Madhya Ayu), When the birth is in the middle of the Padas and short span of life (Alp Ayu), or will face death-like sufferings, When the birth is at the end Qf the Padas of the Nakshatra.

The Sub-period or Sub-period of any of the Planets constituting a Mahadasa is obtained in the manner as stated below.

Ascertain the relevant mnemonically syllable (out of the 9 syllables) composing a formulae whose Sub-period is wanted and find out the owner of the sign indicated by that syllable. Multiply the number of years assigned to this Planet by the numbers of years fixed for the planet whose Mahadasa is under consideration and divide the product by the total number of years constituting the entire Ayu (age) of the formula or Chakra. The quotient in years etc, will represent the sub-period required.

The total number of years denoted by the sum of the nine mnemonically syllables of any formula represents the number in years of Parma Ayu for that formula. Accordingly, the Parma Ayu in years for the Amsa of the 12

signs (12 Rasi amsa) counted from Aries in an Apsavya Chakra will be 100, 85, 83 and 86 repeated thrice while those for the Amsa of the 12 signs (Rasi amsa) counted from Scorpio in a Savya Chakra will be same but in the reverse order, i.e., 86, 83, 85 and 100 repeated thrice.

Whatever effects in respect to the several Major periods are stated, the same should be applied

- i) Asvini, Bharani, Krittika - the three constellations have 12 quarters (Pada).
 - a) Aries, Taurus, Gemini, Cancer - the four navamsa constitute the four quarters of Asvini.
 - b) Leo, Virgo, Libra, and Scorpio - the four Navamsa are in Bharani.
 - c) Sagittarius, Capricorn, Aquarius, Pisces fall in Krittika, this way divide the three constellations into these 12 navamsa.
- ii) From Rohini the three constellations are Rohini, Mrigasiras, Ardra - these three have 12 navamsa.

Counting them in the reverse order from Scorpio - i.e. Scorpio, Libra, Virgo, Leo, Cancer, Gemini, Taurus, Aries, Pisces, Aquarius, Capricorn, Sagittarius divide them in 12 navamsa. Rohini first quarter will be Scorpio, second quarter will be Libra and so on. In this order Ardra fourth quarter will be Sagittarius Navamsa.

In the manner mentioned above in (i) the order of counting is kept for the constellations of Punarvasu, Pusya, Aslesa and the order in (ii) should be adhered for Magha, Purba Phalguni, Uttaraphalguni, again the order of (i) is followed for Hasta, Chitra, Svati and (ii) is followed for Visakha, Anuradha, Jyestha; the same order used in (i) is kept for Mula, Purvasadha, Uttarasadha and the order used in (ii) is followed for Sravana, Dhanistha and Satabhisaj and the same order used in (i) above be kept for Purba bhadrapada, Uttar bhadrapada and Revati.

The years of a sign is the same as the years of its lord.

Sun has 5 years (the sign of Sun is Leo - therefore the period of Leo is of 5 years).

Moon has 21 years (Cancer is ruled by Moon and so the period of Cancer will be of 21 years).

The Years of other planets, which are also of their signs, are given below:-

Mars-Aries-Scorpio	7 years for each
Mercury-Gemini-Virgo	9 years for each
Jupiter-Sagittarius-Pisces	10 years for each
Venus-Taurus-Libra	16 years for each
Saturn-Capricorn-Aquarius	4 years for each

The rule is to predict the effect of the periods of signs in Kalachakra Dasa is according to the (i) sign and (ii) its lord. Therefore in Kalachakra Dasa it is not said that the Dasa is of Mars or Aries but that the Dasa (period) is of Aries-Mars. In the same manner of Scorpio-Mars.

The influence and effect of Mars will be the same in both its signs of Aries and Scorpio but suppose Mars is in Aries and Jupiter etc. benefic planets are also placed in Aries; and in Scorpio, Saturn, Rahu etc. malefic planets are in position then the period of Aries-Mars will be good. But Scorpio-Mars will show ill effects.

Now let us know how the calculations are made, according to the proportion of the Padas of a Nakshatra. The number of Asvini etc., whichever may be the past Nakshatras, should be divided by 3. Thereafter the remainder should be multiplied by 4. To the figure so made available, the Pad of the present Nakshatra should be added. The product will be the Navamsa sign from Aries onwards.

The number of years (Poorna Ayu) are, as under. For the Amsa in Aries 100 years, in Taurus 85 years, in Gemini 83 years, in Cancer 86 years. The number of years will be the same for Signs, situated the 5th and 9th to them.

Multiply the past Ghatis, Pala etc. of the Pad of the Nakshatra, in which a person is born, by the existing Dasa years and divide it by 15. The result will indicate the expired period of the Dasa in years, months etc. By deducting it from the total number of years allotted, we get the balance of Dasa at birth. The Dasa should be taken, as commencing from that Sign.

Multiply the past Ghatis, Pala etc. of the present Pad of the Nakshatra by the number of years and divide the product by the fourth part of Bhabhog. The years etc. so obtained may then be deducted from the total Dasa period. The result will be the balance of Dasa at birth in years, months etc.

The past Kala (minutes) of the Navamsa, in which Moon may be placed, should be multiplied by the years, allotted to the Dasa and the product should be divided by 200. The resulting years etc., will be the expired portion of the Dasa. By deducting them from the total number of years the balance of the Dasa at birth is obtained.

In the Savya Chakra the first Amsa is called Deha and the last Jiva. The reverse is the pattern in the Apsavya Chakra. Therefore the calculations should be based on the Deha etc., in the Savya Chakra, and the basis is Jiva etc., in Apsavya chart.

Movement of Signs in the Kala Chakra

There are three kinds of movements of the Signs in the Kala Chakra, namely Mandooki, Markati and Simhavlokan. The movement of one Sign by jumping over one Sign is known, as Mandooki Movement. Backward movement to the previous Sign is called Markati Movement. The movement of a Sign to the 5th and 9th Rasi is said to be Simhavlokan.

Movement from Virgo to Cancer and from Leo to Gemini is Mandooki Movement. Movement from Leo to Cancer is Markati Movement. Movement from Pisces to Scorpio and from Sagittarius to Aries is called Simhavlokan Movement.

Effects of Dasas of Signs, as a Result of these Movements

The effects of the Dasa of the Rasis with Mandooki Movement in the Savya Chakra are distress to friends, relations, parents and elders and there is likely to be cause of trouble from poison, weapons, thieves and enemies.

In the Mandooki Dasa of the Movement of a Rasi from Leo to Gemini there is the likelihood of the death of the mother, or self, trouble from Government and possibility of brain fever.

The effects of the Dasa of Rasi with Markati Movement in the Savya Chakra are loss of wealth, agricultural products and animals, death of father, or an elderly close relation and feeling of lethargy.

The effects of the Dasa of the Signs with Simhavlokan Movement in the Savya Chakra are possibility of injury from animals, loss of harmony with friends, distress to near relations, drowning in a well, fall from animals, and possibility of harm from poison, weapons and diseases and destruction of residential house or dwelling.

In the Dasa of the Signs with the Mandooki Movement in the Apsavya Chakra the effects will be distress to wife and conditions, loss of children, possibility of feverish conditions and loss of service.

In the Dasa of the Signs with the Markati Movement there may be danger from watery places, loss of position, distress to father, punishment from authority or Government and wandering in the forests;

In the Dasa of the Signs with the Simhavlokan movement there may be loss of status destruction of the dwelling and death of father or close relation etc.

When the movement is from Pisces to Scorpio, the native may suffer from fever;

When the movement is from Virgo to Cancer, there may be loss of brothers and kinsmen;

When the movement is from Leo to Gemini, there may be ill health of the wife;

When the movement is from Cancer to Leo, the native may die;

When the movement is from Sagittarius to Aries, there may be death of uncles and similar relations.

When the Sign is occupied by a malefic planet, adverse conditions may be expected in the Dasa of the Sign.

Favourable effects will be felt in its Dasa, when the Sign is occupied with a benefic.

In the Kala Chakra Dasa favourable and unfavourable effects may be predicted, after taking into account the directions of the Signs and Planets.

When the movement is from Virgo to Cancer, good results are realized in places located in the East and at that time journeys to the places in the North prove fruitful. Unfavourable effects will be felt in places located in the West and the South. It will be advisable not to undertake journeys in those directions in the Dasa of these Signs.

When the movement is from Leo to Gemini, no journey should be undertaken to places, located in the East. However, the journeys to the South-West will prove fruitful in the Dasa of those Signs.

When the movement is from Cancer to Leo, journeys during that period to the South will prove unfavourable and result in loss and the native has to return from the South to the West.

When the movement is from Pisces to Scorpio there will be distress, when the native goes to the North.

When the movement is from Sagittarius to Capricorn, The same would happen, i.e., there will be distress,

When the movement is from Sagittarius to Aries, there may be ill health, imprisonment, or death,

When the movement is from Sagittarius to Scorpio, there may be gains, comforts and property and marriage,

When the movement is from Leo to Cancer, it will not be advisable to undertake journeys to the West during the related period.

Favourable results should be predicted, when the Rasis are occupied with benefic and

Adverse result when the Rasis are occupied with malefic.

When the Deha and Jiva Signs are occupied with two, or all of them, worse results may be expected,

When there is a malefic in Deha Sign, the native suffers ill health; a malefic in a Jiva Sign will make the native very timid.

When the Deha and/or Jiva Rasi are occupied with two malefic, there will be distress, and diseases.

When there are three malefic in the Deha and/or Jiva Rasi, it will cause premature death.

Four malefic in the Deha and Jiva Sign will cause definite death.

Mixed results may be expected, **when** the Deha Rasis and Jiva Rasis are occupied by both benefic and malefic.

In the Dasa of the Signs, owned by malefic, the body and soul will be in distress. The effects will be favourable in the Dasa of the Signs, owned by benefic.

When a malefic Sign is occupied by a benefic Planet, or, When a benefic Sign is occupied by a malefic Planet, the effects will be of a mixed nature.

Effects of Kala Chakra Dasa of the Rasis in Ascendant and other Bhavas.

In the Kala Chakra Dasa of the Rasi in Ascendant the native remains healthy and he spends a life with many kinds of comforts. When the Ascendant Rasi is a benefic one, **the good effects are realized fully.**

When the Ascendant Rasi is a malefic Rasi, there is likelihood of ill health. When a Planet is placed in exaltation or in its own Sign, occupies Ascendant the native is respected by the superiors or government, and acquires wealth.

In the Chakra Dasa of the Sign in Second house the native receives good food, enjoys happiness of wife and children, gains wealth, achieves progress in the educational sphere, becomes a clever communicator and moves in good social order.

When the Rasi be a benefic sign, good effects are realized in full, otherwise the effects would be of a mixed nature.

Happiness from co-born, valour, patience, comforts, acquisition of gold, ornaments and clothes and recognition by the superiors, or government, are the effects in the Kala Chakra Dasa of the Sign in third house.

Char Dasa

Char Dasa relates to twelve houses and correspondingly it pertains to the sign of the twelve houses.

In the Char Dasa system, the number of signs from the sign of the house, up to the lord of the sign will denote the number of years of the Dasa of the said sign. These signs put together in succession from Aries constitute one quarter (Pada). In order to ascertain the period of Char Dasa, the counting of the signs of odd quarters (1, 3), be done in forward order, while for signs of even quarters (2, 4), it should be in reverse order.

Sign are odd and even sign. But here the division in different. The new division is as follows:

The zodiac is divided in four parts of 90° each i.e. 1st, 2nd, 3rd and 4th part thus in the 1st part will the three signs starting from Aries sign.

In the 2nd part will be three signs starting from Cancer sign.

In the 3rd part will be three signs starting from Libra sign.

In the 4th part will be three signs starting from Capricorn sign.

Now 1st & 3rd part signs are odd group of signs. 2nd & 4th part signs are even group signs.

Now let us see the working out of the Dasa years of Scorpio and Aquarius.

When both the Lords of the two Signs- Scorpio and Aquarius, are placed in their own Signs, their Dasa will be of 12 years, otherwise the Dasa will be of the number of years, indicated by the number, counted from that Sign to the Sign, occupied by its Lord.

When one Planet be in his own Sign and the other in any other Sign, the Dasa will be of the number of years counted, from the above first Sign to the other. When the both Lords are in different Signs, the forward or reverse, counting should be in respect of the planet, which is stronger, up to the Sign.

The Sign, which has a Planet, placed in it, is considered more powerful, than the Sign without a Planet in it. When both signs are with Planets in them, the one with more Planets would be considered more powerful. When both Signs are occupied by an equal number of Planets, the strength of the Sign itself should be taken into account.

The principle for considering the strength of the Sign is that the Fixed Sign is considered stronger, than the Movable sign and the Dual Sign is considered more powerful than the Fixed Sign. When there is equality

in the strength of the Signs, then to determine the number of years of Dasa counting should be done up to the Sign with bigger number.

- When one Sign is occupied by a Planet in exaltation, the counting should be done up to that Sign only. In addition, one should be added in the number of years in the case of a Sign, with an exalted Planet, and one should be deducted from the number of years in the case of a Sign with a Planet in debilitation. The prediction should be made after calculating the Dasas in this manner.

When the Sign in Ninth house, Bhava is in an odd Pada, the counting should be from the Sign in the Ascendant onwards. The counting would be in the reverse order, When the Pada is even. The Dasas of Sign have to be fixed, keeping this in view.

Sthir Dasa

Now let us describe the Sthir Dasa.

In this Dasa system 7, 8 and 9 years are the Dasa spans of the Movable, Fixed and Dual Signs.

In this system the Dasa of the 12 Signs begins from the sign where Brahma Planet is placed. The Dasas are counted onwards from the odd Signs and in the reverse order from the even Signs.

Let us know, how the Brahma Planet is picked out in a chart.

From amongst the Lords of sixth, Eighth and twelfth house, the Planet who possesses the greatest strength, and is placed in Ascendant, or in Seventh house with strength, or the one, placed in an odd Sign within sixth Bhava from the Bhava concerned, is called the Brahma Planet.

The Lord of Eighth house in Eighth house is also accepted, as Brahma Planet.

When Saturn, or Rahu/Ketu can not obtain Brahmavatva (qualifications of Brahma Planet). When they do qualify for Brahma Planet, then the planet placed in sixth sign from them or the sign lord of that sixth sign will be Brahma Planet.

When a number of Planets obtain Brahmavatva, the one with the largest number of degrees would become Brahma Planet.

When there is parity in the degrees of such Planets, the most powerful amongst them would become Brahma Planet.

Yogardha Dasa

The spans of Dasas of the Signs in the Yogardha Dasa system are half of the total of the spans of Char and Sthir Dasas.

The Dasa will commence from the Sign of Ascendant, or Seventh house, whichever is stronger.

The order of the Dasas of the 12 Rasis will be counted onwards, When the opening Dasa Sign is an odd one. When it be an even Sign, the Dasas will be in reverse order.

Kendradi Dasa

In this system there are Dasas of Fixed Signs in the Kendra etc. from Ascendant, or from Seventh house, whichever is stronger.

When Ascendant or Seventh house with strength is placed in an odd Sign, in the Kendra etc., Dasa are counted in the onward order. When it be in an even Sign, the counting will be in the backward, or reverse order.

In these also the Dasas would be in the order of comparative strength of the Signs.

The order of Dasas of signs would be the same, as reckoned from the **ATMA Karaka**.

The duration of Dasas of signs would be the same, as they are in the Char Dasa.

In calculating the years of Dasas for Planets, counting is done from the Planet to his own Sign. The years of Dasas would be the number, arrived at by counting up to the Sign of the Planet, which is stronger, or more in number.

When a Planet is owning two Signs, the Dasa years will be equal to the number, which is greater, when counted from the Rasi, occupied by him.

Notes- Under this system Dasas are of two kinds, namely Ascendant Kendradi and ATMA Karaka Kendradi. There is also Kendradi Sign Dasa, or Kendradi Planet Dasa in both the Dasa systems, mentioned above.

Karaka Dasa

The system, under which the first Dasa is of the ATMA Karaka and the subsequent Dasas are of the remaining seven Karakas in their order is known, as Karaka Dasa.

In this system the Dasa years are equal to the number of Signs, counted from Ascendant up to the respective Karaka.

The Karaka are -ATMA, Amatya, Bhratri, Matri, Pitri, Putra, Gnati, Dara karaka.

Manduka Dasa

Under the Manduka Dasa system the Dasa commences from Ascendant, or Seventh house, whichever is stronger for a Male native, but for female native always count from seventh house.

When the Sign of commencement is an odd Sign, the Dasas of 3 Movable, 3 Fixed and 3 Dual Signs will be counted in the onwards order. They will be in the reverse order in the case of an even Sign.

Here Dasa of Rasis which are in the angles are adopted.

In this system the Dasa years will be the same, as in Sthir Dasa. The Dasa years are 7, 8, 9 years according to moveable, fixed or common sign respectively.

In this system every Dasa is of the next 3rd Sign (i.e., jumping over two signs)

Another version :-

The first Dasa should be of sign in ascendant, or second, orthird sign, which ever is stronger.

Shoola Dasa

Some sages have designed the Shoola Dasa for ascertaining the timing of death.

In this system the Dasa commences from Second house, or Eighth house, with-respect-to Ascendant, whichever is stronger?

When the leading Sign is an odd one, the order of the Dasa Signs will be onwards. It will be backwards in the case of an even sign.

The Dasa years in this system are, as adopted for the Sthir Dasa. The Dasa years are 7, 8, 9 years according to moveable, fixed or common sign respectively.

There is a possibility that death occurs in the Dasa of the Maraka Sign, which has greater strength.

Trikona (Trine) Dasa

In this system the first Dasa commences from the strongest amongst the Signs in Trine to the Ascendant (First house, Fifth house and Ninth house).

This system is similar to the Char Dasa.

Here also the Dasas of the Signs adopted, will be in the forward order in the case of odd Signs, and in the reverse order in the case of even Signs. The Dasa years will be similar to that of Char Dasa. It has been

named Trikona because of the commencement of the Dasa is from the Signs in Konas.

Driga (Aspect) Dasa

In this system the order of the Dasas is, as follows:-

From the Ascendant - the Sign, occupying Ninth house, the Signs, receiving a Aspect from the Sign in Ninth house,

The Sign in Tenth, the Rasis, receiving a Aspect from the Sign in Tenth,

Lastly the Sign in Eleventh house and the Signs, receiving a Aspect from the Sign in Eleventh house.

In this system the sequence of Dasa is decided based on Rasi Aspects, hence, it has been named, as Driga (Aspect) Dasa.

Three different processes are adopted for the Movable, Fixed and Dual Signs starting from Ninth house, Tenth and Eleventh house.

According to them, Sign, which receives an Aspect from the Movable Sign, is counted backwards and the Sign, receiving a Aspect from the Fixed Sign, is counted onwards. In the case of the Dual Sign, When it is odd, the counting is onwards and the order is backwards in case of an even Sign, for the Signs, receiving a Aspect.

Ascendantadi Rasi Dasa

Every Nakshatra in this system has Dasas of all the 12 Signs, including Ascendant.

Consequently the Bhayat at birth may be multiplied by 12 and then the product should be divided by Bhabhog. The resultant Sign, degree etc. so available, be added to the longitude of Ascendant. When the sum of the signs is more than 12 signs, subtract 12 signs and balance **sign** is taken.

The Sign, available by above calculation, will start the Dasas of the 12 Signs. (When that Sign is odd, the counting will be onwards. It will be in the reverse order, when the Sign is even)

For finding the balance of Dasa at birth, multiply the expired degree etc., by the Dasa years of the first Dasa Rasi and divide it by 30.

The years etc. so arrived at may be deducted from the Dasa years.

The result will indicate the balance of Dasa at birth in years, months etc.

Panchswara Dasa

Beginning from Akaradhi five Swaras (a, i, u, e, o), write underneath them the Varnas in six rows.

Leave out the letters ia, a and ea, because they are not used in names. When they are found in any name, ga may be substituted for ia, ja for a and da for ea for working out the Dasas and making predictions.

In this manner the Swaras, under which the first Varnas of the name of the native is found, will determine the order of the Dasas of the five Swaras.

The Dasas are of 12 years for all the five Swaras. In the Dasa of every Swaras there will be Sub-period Dasas of all the five Swaras in the same order.

Yogini Dasa

Now we discuss the Yogini Dasa.

There are eight Yogini Dasa, namely Mangla, Pingala, Dhanya, Bhramari, Bhadrika, Ulka, Siddha and Sankata.

The planets- Moon, Sun, Jupiter, Mars, Mercury, Saturn, Venus and Rahu are the respective lords of these.

Add three to the Birth Nakshatra and divide it by eight. The remainder will indicate the Yogini Dasa of Mars, etc., in the serial order. The Dasas are in the order of 1, 2, 3, 4, 5, 6, 7 and 8 years span.

The balance of Dasa at birth should be worked out from the Bhayat and Bhabhog method.

THE EFFECTS OF YOGINI DASA

During the Mangla Dasa of the Moon, there will be calm of mind, all round success in business, enjoying good food, getting wife, children, ornaments, clothes, gems, cattle wealth and land and extending honour to Brahmins.

Before declaring any thing, examine the strength of the Moon in a nativity. In the first ten days of the lunar month, the Moon possesses moderate strength, during the next ten days he is of utmost strength and therefore is considered most auspicious. During the last ten days his strength is on the wane and the effect also begins to decline.

When in a nativity the Sun occupies a bad position, during his Pingala Dasa, he will cause quarrel, sudden displeasure of the Sovereign, discomfort and disease amongst relatives fruitless wandering, painful

mental anguish, and danger from fire to hidden wealth, grain, sons and wife.

When in a nativity the Sun occupied a good position, during his Pingala Dasa, he will cause acquisition of wealth through unkind acts, journeys, authority and disputes; wandering through forests and mountains; great reputation, promotion of business, severity in devotion to duty and happiness.

When Jupiter, Dhanya Dasa is operating, there will be observation of some religious ceremonies, acquisition of children, recognition from the ruler and applauses from great men. The native will get elephants, horses and vehicles; meeting his wife, children and friends and have the pleasure of fulfilling his desires.

Mars, during his Bhramari Dasa in a nativity, will cause the person concerned get wealth through fire, the king, disputes and the like. Money will flow in through administering medicines, falsehood, cheating and several other misdeeds. He will constantly suffer from bilious complaints, blood poisoning and fever; adultery with low women; quarrelling with his own wife, children, relations and elders including the preceptor, and thus be miserable; and he will be busy promoting others fortune.

During the Bhadrika Dasa of Mercury, there will be meeting of friends, personal comforts, reputation praise from the learned, favour from elders, cleverness in speech, service to others, and happiness to wife, children, friends etc., acquisition of fame.

During the Ulka, Dasa of Saturn, the wife and children of the native suffer from gout, rheumatism or such windy ailments; he suffers loss in agriculture, by loose tongue, adultery with wicked women, desertion of servants, living in foreign land; and sudden loss of relatives, lands, happiness and wealth.

During the Siddha Dasa of Venus, the native will get material and facility for his sport and pleasure, good vehicles, cows, gems, ornaments, treasure. He will have the opportunity to enjoy the company of young ladies, intellectual pursuits and voyage etc. He will perform benevolent deeds and receive great honour from the state.

During the Sankata Dasa of Rahu the native should expect trouble from the ruler, thieves, poison, fire and weapons, children falling sick, loss of tranquillity of mind; loss of relatives, slighted by low people, scandal due to a breach of decorum, termination from an office, insulted and kicked, and failure of business enterprise.

Should Rahu be conjoined with a benefic and be posited in an auspicious house his Sankata Dasa will prove not only auspicious but raise the native to affluence like that of a king. All his desires will be fulfilled and he will enjoy happiness in his house. There will be steady accumulation of wealth and he will become quite celebrated.

Pinda, Amsa and Naisargika or Ashtakavarga Dasas.

The Pinda, Amsa and Naisargika Dasa will be corresponding to Pinda-ayu, Amsa-ayu and Naisargika-ayu (Full span 120 years).

The order of Dasas will be, as follows.

The first will be of Ascendant, Sun, or Moon, whoever is stronger.

The subsequent Dasas will be of Planets in Kendra (1,4,7,10) to them, then of Planets in Panaphara (2,5,8,11) Bhavas and lastly in Apoklima (3,6,9,12) Bhavas.

The Dasas and Sub-period of Ascendant and the seven Planets will also be in the same order.

The effects of these Dasas will be in accordance with Ashtakavarga strength.

These Dasas are also called Ashtakavarga Dasas.

Planetary Divisions and Sub-divisions of Life Known as Periods and Sub-periods and their Effects

Naisargika Dasa

The Naisargika (natural) Periods in the case of all beings are those of the Moon, Mars, Mercury, Venus, Jupiter, the Sun and Saturn in the order stated, and their periods are respectively 1,2,9, 20, 18, 20 and 50 years.

If the Naisargika Period and the ordinary planetary Period sub-period happen to run together, such period will be a prosperous one.

According to Yavaneswara, after the closing period, (i.e. after 120 years) is the Naisargika Lagna Period prevails. This is objected to by some. But does somebody lives beyond 120 years in the present days.

Initially determine, whichever of the following three is powerful, the Rising Sign, the Sun and the Moon, his period comes first. Then follow the periods of the planets occupying the Kendra houses, from such powerful rising sign or the Sun or the Moon. Then come the periods of the planets occupying, the Panaphara houses from the same; and lastly come the periods of planets occupying the Apoklima houses.

If there are no planets in kendras from above Period lords, those in cadent house will have their Period and in case there are no planets even in cadent houses from a particular Period, lord the planets in succedant house will have their Period.

If more than one planet is situated in a sign, the planet who has contributed the greatest number of years to life and is strong, will have the Period first. But if the planets be of equal power, the Period of the planet whose period is the longest comes first; and if the planets be of equal power and period, then, the period of the planet, which rises first comes first.

(In other words, the eight periods divide into three distinct groups. Those of the planets occupying the 4 Movable signs form one group; those of the planets Occupying the 4 Fixed signs form another group and those of the planets occupying the 4 Common signs form a third group. Now, if the Lagna, the Sun or the Moon whichever is more powerful than the other two, occupy a Movable sign, the Movable group comes first, the Fixed group comes next and Common group comes last. If it occupies a fixed sign, the Fixed group comes first, the Common group comes next and the Movable group comes last. And if it occupies a Common sign, the Common group comes first, the Movable group comes next and the Fixed group comes, last. The group that comes first is always headed by the powerful Lagna, the Sun or the Moon.)

Calulations of Sub-Periods etc.

The period of the Sub-period (sub-division of planetary period) of the planet occupying the same house as the lord of the Period, is one-half of the Sub-period period of such lord.

The Sub-period periods of the planets occupying the 5th and the 9th houses from the lord of the Period, are, each one-third;

Those of the planets occupying the 7th house from the lord are, each one-seventh; and

Those of the planets, occupying the 4th and the 8th houses from the lord, are, each one-fourth of the Sub-period period of the lord.

The Sub-period periods of the Lagna-Period shall be determined in the same way.

The fractions should all be made to have a common denominator with different numerators. The Period should be divided by the sum of the numerators and the quotient, when multiplied by the several numerators will give the periods of the several Sub-periods.

(Suppose a planet has six years as the period of its Period (main) and there is a planet located with it in the same sign, but not in the stipulated houses, their respective portions will be denoted by the fractions 1/1 and 1/2. Each multiplied by 2, the denominator gives 2 and 1. Hence the main Period lord will have 2/3rd and the sub-period lord 1/3rd of the whole period of the Period lord.

- ii) If there is a planet in the 5th or 9th from the Period lord and there are no planets in the other stipulated houses, the fractions showing the respective shares of Period lord and the other planet would be 1/1 and 1/3 multiplied by denominator 3, the proportion will be 3 and 1 i.e. 3/4th and 1/4* of the total period of the main Period lord.
- iii) If there is planet in the 4th or 8th from the Period lord and none in the other stipulated houses, the proportion will be indicated by fractions 1/1 and 1/4 which means 4 to 1, i.e. 4/5th and 1/5* respectively of the total period of the Period lord.
- iv) If there is a planet located in 7th from the Period lord and none in the other stipulated houses, the proportion as between main and sub period lord will be 1/1 and 1/7 i.e. 7 to 1 or 7/8* and 1/8* respectively.
- v) If there is a planet with the Period lord and also in 5th or 9th from it but none in 4th, 8th or 7th from it, the proportion would be 1/1, 1/2 and 1/3 which gives 6, 3 and 2 out of 11, hence the Period of the three planets, i.e. the main Period, lord, one with Period lord and one in the trine to Period lord would be 6/11*, 3/11th and 2/11th respectively of the total period of the Period lord.
- vi) If a planet is with the Period lord and one in 4th or 8th from it, but none in trine from it then the proportion would be indicated by fractions 1/1, 1/2 and 1/4 i.e. 4, 2 and 1 or 4/7*, 2/7th and 1/7* respectively of the total period of Period lord.
- vii) If a planet is with the Period lord and also one in 7* from it, but none in other stipulated house, the proportion would be denoted by 1/1, 1/2, 1/7 i.e. 14, 7 and 2 or 14/23rd, 7/23rd and 2/23rd of the total period of the main Period lord.
- viii) If there are planets in trines from the Period lord and in none of the other stipulated houses, the proportion would be 1/1, 1/3 and 1/3, i.e. 3, 1, 1 or 3/5*, 1/5* and 1/5* respectively for main Period lord etc.
- ix) If a planet is in one of the trines from the Period lord and also one in 4* or 8* from it, and none in the other stipulated houses, the proportion would be denoted by the fraction 1/1, 1/3, 1/4, or 12, 4 and 3 i.e. 12/19*, 4/19* and 3/19* of the total period of the main Period lord.

- x) If a planet is in trine from the Period lord and also one in T from it, but none in the other stipulated houses, the proportion would be denoted by the fractions $1/1$, $1/3$ and $1/7$ i.e. 21 , 7 and 3 or $21/31$, $7/31$ and $3/31$ of the whole period of the Period lord.
- xi) If planets are in 4^* and 8^* from the Period lord, but none in other stipulated houses, the proportion would be denoted by the fractions $1/1$, $1/4$ and $1/4$ i.e. 4 , 1 and 1 or $4/6^*$, $1/6^*$ and $1/6^*$ respectively for the main Period lord and the other planets.
- xii) If a planet is located in 4^* , 8^* and 7^* from the Period lord, but not in the remaining stipulated houses, the proportion of sub-periods would be indicated by fractions $1/1$, $1/4$ and $1/7$, i.e. 28 , 7 and 4 i.e. $28/39$, $7/39$ and $4/39$ respectively for the Period lord and the other planets.
- xiii) If a planet is with the main Period lord and also one in each of the trines, the proportion of the sub-periods would be denoted by the fractions $1/1$, $1/2$, $1/3$ and $1/3$ i.e. 6 , 3 , 2 and 2 , or $6/13$, $3/13$, $2/13$ and $1/13$ respectively for the Period lord and others. In this manner the sub-periods of the main Period lord and the sub-periods lord should be worked out for remaining positions of planets in relation to the Period lord.)

The Period of the most powerful planet occupying at the time of birth the exaltation degree of its exaltation sign, is known as Sampoorna. The Period of a weak planet occupying the depression degree of its depression sign is known as Rikta. The Period of a planet occupying an inimical Navamsa and also the debilitation degree of its depression sign is known as Anishta.

The Period of a planet which quitting the exaltation degree moves towards the depression sign is known as Avarohini- Such Period periods produce evil.; while so moving, if the planet occupy a friendly or an exaltation Navamsa, his Period is known as Madhyama. Again, the Period of a planet which quitting the depression degree moves towards its exaltation sign is known as Arohini- Such Period periods produce prosperity.; while so moving, if the planet occupy an inimical or a depression Navamsa, his Period is known as Adhama.

(Arohini Periods and Madhyama Periods produce prosperity and Avarohini Periods and Adhama Periods produce evil. A planet which occupies a neutral sign or Navamsa produce neither good nor evil.)

7. The Period of a planet, which occupies a depression or an inimical Navamsa, when in a good position-.(that is, when the planet occupies his own house, a friendly house or his Moolatrikona or exaltation house), is known as Misraphala. Similarly, the Period of a planet which occupies an inimical or depression sign and is in his own Navamsa, in a friendly

Navamsa or a Moolatrikona or exaltation Navamsa, or if he occupies a Vargottam place is also known as Misraphala.

The several names of the Periods indicate by their meaning, the nature of the planetary periods.

(E.g. The name **Sampoorna** indicates vast prosperity. Poorna indicates prosperity. Adhama indicates misery or destruction and very little prosperity. **Rikta** indicates misery and poverty. And Misraphala indicates a mixture of both good and evil.)

According as the rising Drekkana is the first, second or third, the Lagna Period is known as Adhama, Madhyama or **Uttama** if the rising sign be a common sign; Uttama, Madhyama or Adhama, if the rising sign be a movable sign; and Adhama, Uttama or Madhyama, if the rising sign be a fixed sign.

(In other words, if the rising sign be one of the common signs, Gemini, Virgo, Sagittarius and Pisces, the Lagna Period is known as Adhama if the rising Drekkana be the 1st, Madhyama if it be the 2nd, and Uttama or Pujita if it be the 3rd. Again, if the rising sign be one of the movable signs, Aries, Cancer, Libra and Capricorn, the Lagna Period is known as Uttama if the rising Drekkana be the 1st, Madhyama if it be the 2nd, and Adhama if it be the 3rd. Lastly, if the rising sign be one of the fixed signs, Taurus, Leo, Scorpio, and Aquarius, the Lagna Period is known as Adhama or Asubha if the rising Drekkana be the 1st, Uttama or **Ishta** if it be the 2nd, and Madhyama or **Sama** if it be the 3rd. These names indicate, as already stated, the nature of the Period.)

(E.g., Adhama indicates misery, Madhyama a mixture of both good and evil, and Uttama indicates prosperity.)

If the lord of the Period or one of his friendly planets occupy the Lagna, or if the Lagna belong to the **Varga** '(division) of the lord of the Period, or if a benefic planet occupy the Lagna, or if the lord of the Period occupy the 3rd, 6th, 10th, 11th, 5*, 9* or the 7th house from the Lagna, such. Period will be a prosperous one.

Again, when the Moon occupies a sign friendly to the lord of the Period or the exaltation sign of the lord of the Period and sub-period or the 3rd, 6th, 10th, 11th, 5*, 9* or the 7th house from the sign occupied by the lord of the Period, she will bring on prosperity; otherwise, she will produce misery.

If, at the time of commencement of the Period of a planet, the Moon occupy sign Cancer, the native will become rich, will live in comfort and will be respected; if, at the time, the Moon occupy sign Aries or sign Scorpio, his wife will become unchaste; if the Moon occupy either sign Gemini or sign Virgo, the person will become learned, get friends and become rich; if the Moon occupy sign Leo; the person will work in forests, on roads and

near houses; if the Moon occupy sign Taurus or sign Libra, he will eat sumptuous meals; if she occupy sign Capricorn or sign Aquarius, he will get a bad woman; and if the Moon occupy sign Sagittarius or sign Pisces, the person will become rich, happy and respected.

In the Period of the **Sun**, a person will acquire wealth by dealing in perfumes or nails, tusks of elephants and the like animals, in tiger skin and the like, in gold, by acts of cruelty, by means of roads, by the king and by battle. He will become cruel, courageous, persevering, renowned and valorous, will get into trouble through his wife, son, money, enemy, weapons, fire or the king; and he will become liberal in gifts and addicted to sinful deeds, he will quarrel with his servants and will become afflicted with pain in his chest and belly and the like diseases.

In the Period of the **Moon**, the person will derive benefits from dealing in or by means of the mantras, the Brahmins, the productions of sugar-cane, milk, ghee, and the like, cloth, flower, play, *Sesamum* seeds and food; he will be of patient nature, he will respect virtuous Brahmins and the God Almighty; he will get daughters and will acquire an increase of wisdom, wealth and renown.

The person will indulge in sleep and idleness, will lose his wisdom, wealth and renown and will quarrel with powerful men and with kinsmen.

In the Period of **Mars**, the person will acquire wealth, by fighting with his enemies, through his brother, the king, lands, woollen goods and goats.

He will hate his sons, friend's wife, and brothers and will dislike learned men and men of importance; he will suffer from diseases caused by or connected with thirst, blood, fever, bile, loss of limbs or sexual intercourse with other women. He will associate with men doing wicked deeds; he will become vicious, harsh in speech and cruel.

In the Period of **Mercury**, the person will acquire wealth by doing acts of message and through friends, preceptors and Brahmins. His praises will be sung by learned men. He will become famous and will get brass and the like, mixed metals, gold, horses, lands, popularity, comfort and ease. He will be skilled in the art of ridiculing others and serving under other men. He will get an increase of wisdom and successfully do deeds of virtue.

He will suffer from harsh words, will suffer from grief, imprisonment, mental agony and diseases arising from an affection of the three datum—Vata. (wind), pita (bile), and Sleshma (phlegm).

In the Period of **Jupiter**, the person will acquire wealth by acts of worship, by his learning, valour, ingenuity, bright personal appearance military fame, by acts of generosity, mantras, diplomacy, the king and the

Vedas. He will have an increase of gold etc., horses, Birth of male children, elephants and cloths, and will acquire the friendship of good kings.

He will learn things requiring much ingenuity will suffer from foot during journey and pain in the ear and will quarrel with wicked men.

In the Period of **Venus**, the person will enjoy sweet music, various pleasures, perfumes, sumptuous meals, alcohol, fine cloths, women, and precious stones. He will be of fine appearance, valorous, and will enjoy every substance provoking sexual passion, will become learned in the Yoga and Shastras, will obtain the object of his desire, will acquire friends, will become skilled in trade and in agriculture and will get hidden treasures and wealth.

He will quarrel with crowds of people, with the king, hunters and wicked men and he will suffer grief from his own friends.

In the Period of **Saturn**, the person will get asses, camels, load carriages, birds, buffaloes and old women, will rule over hamlets, villages or towns, and will thereby become renowned and will get grain of inferior quality.

He will suffer difficulties from phlegmatic and windy complaints; from jealousy, anger, distraction of mind, and dirty habits. He will be idle, suffer from grief and be much troubled. His servants, sons, daughters and wife will exercise authority over him and his organs will become defective.

If the Period be a benefic one, the good effects will come to pass; if it be a malefic one, the bad effects will come to pass. If it be of a mixed nature, both effects will come to pass. The effects for the Lagna Period are the same as the effects for the Period of the lord of the rising sign.

In the benefic Dasa periods of the planets, a person will acquire the several metals assigned to the planets, and in the malefic Dasa periods of the planets, he will lose them. Again, in the Period of a planet, a person's occupation will be that mentioned for the planet. The effects described for the 12 houses from the ascendant, for the 12 signs from Aries, for planetary aspects, and for all yogas, excepting Nabhasa yogas, (The effects of the Nabhasa yogas will be felt throughout life) will occur in the Period of the planet which is most powerful among the yoga planets.

In the Period of a particular planet, the person's complexion will be that due to the elementary principles presided over by the planet and the complexion will be accompanied by certain other qualities due to the elementary principles of earth, water, fire, air and akas and discernible by their respective organs of sense, viz., the nose, the tongue, the eyes/the body and the ears.

In Brihat Samhita it is stated in detail regarding the complexion due to elements of each of the seven planets:

The complexion discernible in-shining teeth, skin, nails and hairs of the body and of the head will be attended with prosperity; it is caused by the element of earth; it makes the person happy, rich and virtuous."

"The complexion which is glossy, white, clear, green and agreeable to look at is caused by the element of water; it will make all creatures possessing it happy and successful in all their attempts and will produce wealth, comfort, luxury and prosperity,"

"The complexion which is fearful, unbearable, of the colour of the lotus, gold or fire, and indicating strength, power and valour, is caused by element of fire, and it brings success to a person and enables him to gain his desired object."

"The complexion, which is dirty, not glossy black, has bad smell. It is caused by the element of air; it will cause to the person death or imprisonment, disease, ruin and loss of wealth."

"The complexion which is of the colour of crystal, noble, clear and indicating wealth and generosity, is caused by the element of ether; it gives a person all that he desires."

Now, suppose the Period to be that of Mars; his element is fire; the complexion caused by the elementary principle of fire described above will be the complexion of a person in the Period of Mars and so for the other planets.

Again, the property of earth is smell, discernible by the nose; that of water is taste discernible by the tongue; that of fire or light is shape or appearance discernible by the eyes; that of air is touch discernible by the body; and that of akas is sound discernible by the ears.

Suppose the Period to be that of Venus; his element is water; the quality belonging to water is taste discernible by the tongue. Therefore, in the Period of Venus, the person will eat juicy meals according to his desire,

In the Period of Jupiter (akas-sound), the person's speech will be Sweet and agreeable to the ear;

In the period of Mercury (earth-smell), the person's body will be with an agreeable odour;

In that of Mars (fire-shape), he will be of an agreeable appearance; and

In that of Saturn (air-touch), he will be of soft body.

From a careful observation of these qualities and also the effects of the Period and Sub-period, the particular Period of a person may also be determined.

In the benefic Period of a planet, the good effects are caused immediately by the Divine Soul living within the body and assuming for the time being a benefic nature. When a person is found to enjoy the good effects described for a planetary Period, it may be concluded that such Period is going on at the time. As regards the effects described for planets which might be powerless, these are experienced by a person either in his dream or in mental imagination only.

If the effects of a planet be found to be benefic, under one type of yoga and malefic in respect to the same point under another yoga, (if under one yoga, a planet is declared to bring wealth and under another to destroy it.) Neither of the effects will occur; if two or more yogas give a character, one a different character to one and the same planet, the former will take effect. But if, to two distinct planets, conflicting effects have been assigned, both will come to pass in their respective Period periods.

Sandhya Dasa

Sandhya is the Dawdasamsa Ayu of the Full Ayu (maximum possible life-span i.e. 120 years) of various signs (Rasi), not of planets.

In Sandhya Dasa the Dasa of all the Signs from Ascendant onwards is of $1/12^*$ years of Full Ayu.

The first Dasa of ten years will be of the planet in the ascendant, than next Dasa will be of the planet in second house and so on.

Pachaka Dasa of Sandhya Dasa

Multiply the Dasa years of Sandhya Dasa by six and dividing the product by 31, the resultant years, months etc., so arrived, at may be put in 1st column of a Table i.e. Lagna.

Thereafter, half of these years, months etc. may be written in the next three columns (i.e. 2ⁿ-, 3rd & 4th houses). The remaining eight compartments, (i.e. 5th house onwards) be filled in by one third value, of the resultant years, months of 1st column (Lagna) etc.

- . In this manner Pachaka Dasa in Sandhya Dasa of every Bhava can be worked out and predictions may be made from it.

Tara Dasa

Tara Dasa is similar to Vimsottari Dasa.

In this Dasa Janma, Sampat etc. in respective order total 9 Taras replace the planets Sun, Moon, Mars etc., placed in Angles or centre.

The effects of Tara Dasa will be according to similar to their names.

This Dasa is applied in those cases only, where there are Planets placed in Kendra in a birth chart. When there is more number of Planets, the first Dasa will belong to the strongest amongst them.

Chapter 02

Vimsottari Dasa System of Predictions

CONSIDERATIONS IN JUDGING PLANETARY PERIODS

The Mahadasa or Major Periods originate two types of Effects- firstly of general nature and second is of pronounced nature which corresponds to the natural characteristics and acquired position (in the horoscope) by the planets.

In judging the effects due to the planets in a chart, and their successive combinations in their periods, sub-periods, and inter-periods, one has not only to consider the dignities and debilities of planets for deducing favourable or unfavourable results, but has also to consider the age, position, and sex of the native, for the significations of planets are expressed according to the age and the status of an individual and living environs.

Planets are said to be in dignity, when they are in exaltation and Mooltrikona (Joy of Western Astrologers), in their own signs, having a mutual reception in their own signs, in a friendly sign, in conjunction with or aspected by a benefic, in conjunction with the ruler of the Ascendant, the ninth or tenth house or with the period planet, in friendly temporal relations, in angles, trines, or the eleventh house from the rising sign or signifier.

Malefic are dignified by their location in the third, sixth, or eleventh house.

Planets are said to be in debility, when they are in their fall, in an unfriendly sign, in conjunction with or aspected by a malefic, as lords of the third, sixth, eighth, and eleventh houses either from the rising sign or signifier, or aspected by the rulers of evil houses.

Benefic as rulers of angles are said to be in debility.

The Effects of the Periods of the planets are ascertained on the basis of the strength of the planets.

Timing of Giving Effects

The planet in the first Drekkana, gives Effects in the beginning of the Period,

In the second Drekkana, in the middle of the Period and

In the third Drekkana, in the concluding part of the Period.

The Effects of the retrograde planets be considered in the reverse order.

Thus - the consequential effects of planets that of natural characteristic and placement in the horoscope, be felt in the three different segments of the Dasa.

If the planets are posited between 00 and 100, the effects be considered in the first segment (part) of the Dasa (1/3rd Dasa) and,

Between 10 deg and 20 deg, in the second (middle) segment and between 20° and 30° in the third (last) segment of the Dasa.

However, if the planet is in retrogression, including the Dasa of Rahu and Ketu, the results of the first segment of the Dasa will be felt and the result of planet in the first Drekkana will be considered.

Generalized rules

Planets in conjunction with the Sun are called Kopistta. They signify • sinful conduct, disgraceful life, and loss of wife, brother, and wealth, trouble from children, eye trouble and danger from fire, the king, and thieves.

It must not, however, be supposed that the planets in the periods ruled by them would produce uniform good or bad results for there are within that period sub-periods of planets which may be productive of good or bad results, according to their position in the chart, as well as according to their position from the period planet taken as the rising planet. The same reasoning prevails in judging the effects of inter-period planets under a sub-period.

As a general rule, the good and evil effects of the significations of the various houses in the chart depend on the nature of the planets occupying them. The significations of houses occupied by benefic are increased, while, when occupied by malefic they are destroyed or nullified.

The planets aspecting their own houses increase the signification of those houses, as well as the planets who have mutual reception in their houses.

The principal sources of happiness or misery to an individual would be generally from want of money, increase of enemies, death and danger to wife, children, friends and relations, and troubles from loss of

lands, conveyances, bad food, neglect of his own community, hatred of rulers, litigation, brothers, cousins, venereal complaints, bad company, thieves and fires unsuccessful cultivation, expulsion from ones own country and house, foreign residence and public disgrace, and bodily weakness, sickness, and loathsomeness.

Evil planets, or good planets in evil Amsa or Vargas, produce physical and mental trouble. Benefic produce good, planets in exaltation, in their own houses, Moolatrikona, and beneficial conjunctions and aspects, produce good results.

It is not possible to spell out exhaustively the effects of Major periods and Sub-periods of planets in as much as that their operation differs in nature in individual horoscopes. But a **general reference data** can be prepared and we shall study a few of the important effects of various Major periods and Sub-periods given in ancient books.

Rules for Delineation of Major periods:-

The learned after computing the Dasas have arrived at after observations over a period of time their good or bad effects in the lives of the natives, similarly, longevity can also be predicted. These are summerized below:

1. The Sub-period of the Lord of the 9* in the Dasa of the Lord of the 5* is most auspicious.
2. The Dasa of the Lord of the 9* associated with that of the 5* grants progeny and "Raja (authority); similarly the Dasa of the Lord of the 4* conjoined with that of the 10* is auspicious in the same way.
3. The Dasa of the planet associated with the Lord of the 5* or 9* is also auspicious.
4. The Dasa of the planet conjoined with a malefic is bad; if the same is conjoined with a benefic, it is good and promotes wealth.
5. The Sages say that the Dasa of the Lord of the Lagna (Ascendant) associated with that of the 5* or 9th gives Raja (power to rule).
6. The Dasa of the Lords of the 5* and the 9* or those of the 10* and the 5* when they conjoin or that of the 4* and the 9* when they conjoin confers power and prosperity.
7. The Dasa of the Lord of the 10* occupying the 9* house confers fame, prosperity and happiness; the result is the same in the Dasa of this Lord of the 10* associated with that of the 4*.
8. The Dasas of the Lords of the 6* and that of the 7th become auspicious if they occupy the 10* house or associate with its Lord..

9. If the same planet owns the 2nd and the 7* houses (Maraka houses) and occupies the 4* house or is associated with its Lord then the Dasa of that planet will also be auspicious.

Note: In Aries Ascendant Chart Venus owns the 2nd and 7* and in the case of Libra Ascendant, Mars owns these houses.

10. If the Lord of the 6th, 8* or the 12* associates with that of the 5* their Dasa has also been said to be auspicious by the learned.
11. If the Lord of the 4* is in the 10* and that of the 10* is in the 4* then their Dasas are said to be auspicious by the learned.
12. Lords of the 4th, 10*, 5* and the 9* wherever are together in anyone house, and the planet associating with them, his Dasa is also said to be auspicious.
13. If the Lords of the 5* and the 10* occupy the 4th, their Dasas are said to be auspicious conferring power and authority.
14. The Dasas of the planets, which are associated with or aspected by the Lords of the 5* and the 10* confer power and authority,
15. The Dasas of the Lord of the 5* occupying the 10* or that of the 10* in his own house (10th) confer wealth and power.

The Dasa of a planet, (who is ruling at a given time), treat this house occupied by that planet as the Lagna, further, find out the house counted from this Lagna, that the Sub-period Lord is occupying. Also assess the strength of these two planets obtained through their association with or aspect by other planets. If these two planets are not mutually be in 6/ 8* house or aspect, the resulting effect will be happy. Otherwise evil effect will emanate according to the strength of the planet.

The Dasa-periods and the sub-periods of the planets owning Kendra's and trines will prove auspicious, while those of the planets owning the 2nd, 3rd and the 11* houses will be of moderate effects. The Dasas, etc., of planets owning the 6th, the 8th and the 12* Bhavas will always prove adverse to the native. These results should be declared in the respective Dasas and Sub-periods of planets after an examination of the lord of the Dasa and the Bhava occupied by him.

Should the Sub-period Lord occupy the 12th, 6* or the 8* place from that of the lord of the Dasa, he then becomes hostile to the Dasa-lord. The planet in the 11th, the 2nd, 3rd, 4*, 5th, 9* or the 10* house from the Dasa-Lord is said to be greatly beneficial to the native. The planet occupying the 7* place from the Dasa Lord and the one associating with him are also found to be favourable.

When the Dasa Lord is inauspicious and the Sub-period Lord is auspicious and is not associated with the same, the result will be adverse. When the Sub-period Lord is a benefic and is associated with the Dasa Lord, the result will be mixed. The Sub-period Lord, even if the Sub-period Lord be a Yogkaraka planet will become more hostile and distressing, should he not be associating with the Dasa Lord. When the Dasa Lord is powerful enough to cause both Yoga and death, he will give the effects of the Yoga first in his own Sub-period.

When the entire period over which the aforesaid Yogkaraka rules be completely auspicious and the Sub-periods of the various malefic planets be accordingly favourable, the Yogkaraka planet puts off the causing of death to the person concerned. Such a Dasa Lord will never give mixed results; when he does so, the Dasa will only prove entirely fruitless. This is what the wise say.

Jupiter and Venus in their mutual Dasa and Sub-periods bestow upon the native kingship or the position of a minister, much wealth and happiness through wife and children. The man concerned will devote his energies in the performance of sacrifices, birth of children, marriage celebrations and other similar auspicious functions provided these two planets are strong and occupy good houses and are also associated with and aspected by auspicious planets.

The same above two planets when occupy Bhavas which are quincunx (150°) i.e. 6 & 8 to each other or are mutually placed in the 2nd and the 12th; or if they two be aspected by or associated with the lords of these houses; or if they themselves be the owners of these houses and be at the same time aspected by or in association with malefic, and are weak in Bhava position, etc., they will, during their Dasa period cause separation from wife and sons, displeasure of a highly learned persons, trouble through intrigues with females, royal displeasure and fear of epileptic attacks.

When **Venus and Saturn** occupy their exaltation, own-house or Vargottam amsa and are strong and equally powerful to cause Yoga, they will, in their mutual Dasas and Sub-periods make the man concerned a beggar seeking alms and a powerless being, even though he be born a king or a multimillionaire. If however, one of the two is strong and the other weak, the stronger one will cause the Yoga.

When both of them be weak and be so mutually placed that one occupies the 12th, the 8* or the 6* from the other or happens to own such places; or be associated with the lords of these houses, they tend to be auspicious and grant wealth and happiness to the man concerned. When one of them is the lord of an auspicious Bhava and the other of an

unfavourable one, even then, both of them will produce good results. Should they both be malefic they will prove extremely favourable to the native.

When **Saturn and the Sun** occupy their own or exalted Rasis or be in the corresponding Navamsa or Kendra or Trine positions or be owners of these houses, they will bestow upon the native royal favour, wealth and the like in the Sun's Sub-period of Saturn's Dasa; and happiness, wealth and victory in Saturn's Sub-period of the Sun's Dasa. Should these two planets be (both) malefic they become productive of distress for the native.

When **Mars and Jupiter** are, in the same manner, strong and occupy favourable Bhavas and possess the aspect or company of a strong benefic planet, they cause Rajyoga to the man concerned, they become instrumental in bringing joy, all kinds of enjoyments and pleasure, sons living long life, marriage and other pleasant ceremonies. If otherwise, they will exhibit contrary results.

Jupiter and Mercury, When similarly strong, will enable the native for good actions, grant great learning, he will be clever in trading and possessed of Wife, children and happiness. Venus and Mercury, Jupiter and the Moon, the Moon and Venus, Jupiter and the Sun, the Sun and Mars, the Sun and Mercury, each of these pairs will promote effects akin to those indicated for Jupiter and Mercury.

Necessary consideration should also be given to the effects which may arise due to the transit of the planets during their course through the several houses counted from the Moon sign at Birth, (Radix Moon) and the combined effects alone should be pronounced.

RESULTS OF MAJOR PERIODS ACCORDING TO SRI RAMANUJACHARYA

The person becomes unfortunate during Saturn's Major Period Venus Sub-period or Venus Major Period Saturn's Sub-period

For persons born in Sagittarius and Pisces Ascendants, Venus and Saturn give rise to Yoga in the Major Periods of Saturn and Venus respectively.

Death may be caused by the lords of the 6th, 8* and the 12* houses in the course of the Major Period of the 8* lord who occupies the 6th, the 8* or the 12*.

If the lords of the 10* and the 3rd are in conjunction with, or aspect each other, the native will be deprived of fortune in the Major Period of the 10* lord and he will enjoy fortunate results in the Major Period of the 3rd lord.

If the 5th, the 7* and the 9* lords are in their own houses, they give rise to dips in Ganga during their periods and sub-periods.

A person gets wealth by his own exertions in the Major Period of a planet occupying the Ascendant or the 7* house. He will also acquire much wealth by his own efforts in the Major Period of the 9* lord occupying the 7* house.

The native's father will die in the sub-period of Rahu, Ketu, Saturn or the Sun within the Major Period of Rahu.

Father's death may be predicted iathe sub-period of Mars, Saturn, the Sun or Rahu in the Major Period of Ketu.

Father's death will happen in the sub-periods of Rahu, Ketu, Saturn or the Sun in the Major Period of Mars.

Father will die in the sub-period of Rahu, Mars, the Sun or Ketu in the Major Period of Saturn.

Father's death will certainly happen just before the end of Mars Major Period and the beginning of Rahu Major Period.

Astrologers say that one's father will die in the sub-period of Rahu in the Major Period of a malefic planet.

Venus confers Raja Yoga in his Major Period if he is in conjunction with Jupiter in Scorpio.

When the Sun and Mercury are in conjunction with or aspect each other highly favourable results will be caused in the Major Period of Mercury while Sun's Major Period will be ordinary.

When the Moon and Mars are in conjunction, or aspect each other, fortunate result will be experienced in the Moon's Major Period while the Major Period of Mars will be quite ordinary.

When Jupiter and Saturn join together or aspect each other Saturn's Major Period will prove very fortunate while Jupiter's Major Period will be ordinary.

When Jupiter and Mars are in conjunction or aspect each other, Mars Major Period will be very fortunate and Jupiter's Major Period will be ordinary.

When Jupiter and the Moon join together, the Moon's Major Period will prove highly prosperous while Jupiter's Major Period will be ordinary.

Notes- These interesting combinations enable us to predict the relatively good and bad nature of the results of Major Periods of different planets in conjunction or mutual aspect. These combinations can be summarised as follows:-

Two planets in conjunction or or in mutual aspect	Major Period in which highly benefic results will happen	Major Period in which ordinary results will happen
1. Venus and Jupiter in conjunction in Scorpio	Venus	...
2. The Sun and Mercury	Mercury	The Sun
3. The Moon and Mars	The Moon	Mars
4. Jupiter and Saturn	Saturn	Jupiter
5. Jupiter and Mars	Mars	Jupiter
6. Jupiter and the Moon	Moon	Jupiter

It will be seen from the above that Jupiter will produce only ordinary results in any of his combinations with Mars, the Moon and Saturn.

This is however a general principle and it stands to be modified if Jupiter becomes a Yoghakara or has some special distinction by way of exaltation or situation in the Ascendant, or the 10* or 2nd or the 11* or the 9* house.

The above tabulation will also enable us to anticipate that in the course of the Major Period of the planets which are supposed to give ordinary results, beneficial results will happen within the sub-periods of those whose major periods are supposed to prove highly fortunate. Thus if you take Jupiter and Saturn, then Saturn's Sub-period in Jupiter's Major Period will be highly fortunate.

The combinations of the Moon and Mars, Jupiter and Mars, and Jupiter and the Moon go under the special distinction of **Chandramangalayoga**, **Gurumangalayoga** and **Gajakesariyoga** respectively and out of the two planets causing each Yoga; one becomes capable of producing much more favourable results than the other.

It will be seen that only "ordinary results" will happen in the Major Period of the other planet and not unfortunate results.

Rahu will confer Raja Yoga and much fame in his Major Period if he joins a quadrant or a trine.

If Jupiter, Mercury and Venus join together or are in mutual aspect, the native becomes very wealthy, famous and fortunate.

The native will earn much wealth in Venus Major Period if Venus is in conjunction with or aspected by Mercury or Jupiter.

The native becomes bereft of wealth in the Major Period of Jupiter and mixed results will be produced in the Major Period of Mercury.

• **Notes-** Rahu when occupying a Kendra (quadrant) or Trikona (trine) is supposed to give rise to Raja Yoga in his Major Period.

If Jupiter, Mercury and Venus are in mutual conjunction, or aspect, one becomes fortunate and wealthy.

All these three planets are benefic (Mercury becomes benefic here as he will be with the other two benefic) but only one of the three in combination can really enable the native to acquire wealth in his Major Period.

If Venus is in conjunction with or aspected by Mercury or Jupiter, then:-

- a) Venus confers wealth in his Major Period.
- b) Jupiter causes loss of wealth in his Major Period and
- c) Mercury produces mixed results in his Major Period.

Each of these three planets to produce the results ascribed above, they must conjoin together or aspect each other.

If Venus and Jupiter make up the combination the latter gives evil results and if Venus and Mercury cause the combination, the latter produces mixed results.

If the Sun and other planets combine together, the Sun confers fame and wealth in his Major Period while the other planets give ordinary results.

Of the several planets who are in conjunction with or aspected by Rahu, the strongest one gives the results indicated by it.

When Rahu, the Sun and Saturn are in the 3rd, Rahu gives rise to courage and fortune in his Major Period.

Learned says that during the Major Period of Rahu one becomes timid if Mercury is in the 3rd house.

Notes- If planets are in conjunction with the Sun, they become astangata or combust. Combustion occurs when the planets are very near the Sun. Otherwise it cannot be called combustion.

If the Sun and other planets join together the Sun confers fame and fortune in his Major Period while ordinary results will be given by the other planets.

For example Jupiter, Venus and Saturn are in conjunction with Rahu. Of these three let us assume that Jupiter is the most powerful and he owns the 5th house and occupies the 9th house. Then Jupiter alone will be able to produce in his Major Period results of his indication, viz.,

children and fortune. The indications of the other two planets become more or less defunct.

Sri Mahadeva Pathak in JATAKA TATVA has given these rules for interpretation of PERIOD of planets in simple and lucid language

1. A planet gives the result due to its position in a House, Sign, Aspect, conjunction, means of living ascribed to it, etc. during its Period and Sub-period.
2. If the planet is very powerful or is in his highest exaltation degrees, during its Period, shall give health, wealth, etc. It is called Sampoorna.
3. If the planet is weak or in his fall, during its Period, it is called Rikta or empty and would give loss of wealth, etc.
4. If a planet is some what powerful and exalted, during his Period, he would be effective and may bring some wealth.
5. If a planet is in his extreme fall, or debilitated in Navamsa or inimical Navamsa; his Period is called Anishta and would cause loss of wealth, and health etc.
6. If a planet is proceeding towards his fall, his Period is called Avarohi or descending and gives troubles and difficulties. If this planet during the said passage is occupying a friendly, exalted or own Navamsa shall be fruitful and the period would be middling, neither very good nor very bad.
7. The Period would be AAROHA, if the planet is proceeding in the direction of his exaltation. The results would be auspicious; This same would be Adhama or worst if during his passage he occupies a debilitated or inimical Navamsa, He would cause very little good.
8. During the Period of a planet occupying his exaltation sign, Own house or a friend's house, but in his debilitated or inimical Navamsa, the 1st half of the native's life shall be good and the latter would be mixed
9. During the Period of a planet occupying his friend's house, exaltation house, Own house, MoOltrikona, a Vargottam Navamsa or own Varga, the results shall be favourable and encouraging.
10. During the Period of a planet that is set, posited in an inimical or debilitated Navamsa, the native would pass through many troubles and untoward happenings.
11. During the Avarohi and Adhama Period of a planet, the native would pass through great difficulties.
12. When the Period of a planet is AAROHA and Madhya, the native would experience many auspicious results.

13. In the case of the Period of a planet that is associated with or aspected by a benefic, that has got more rays and is occupying a Kendra or a Trine house, the native would find, it most auspicious and if the planet be occupying otherwise it shall be most troublesome.

14. The nature of the Ascendant Period shall correspond with the Decanate occupied by the Ascendant.

In the case of movable sign it is Uttama, Madyama and Adhama according as the Ascending Decanate is 1st, 2nd or 3rd one. In the case of a dual sign, this order is reversed. In a fixed sign it shall be bad, good or mixed, if the Ascending Decanate be the 1st, 2nd or 3rd respectively.

15. If the Period belongs to a retrograde planet, the native would suffer fall in position, loss of honour and happiness, etc.

16. If a planet is occupying a house other than the three Dushtana (6, 8, 12), the desires and aspirations of the native shall be fulfilled,

17. If the lord of the Period is inimical to that of the Ascendant, there is possibility the native becoming irrational and danger from the sovereign.

18. The Period of a planet if associated with Rahu, shall give untoward effects.

19. If the lord of the Ascendant is in the 8* house, the native shall face much trouble and many hardships during his period.

20. During the Period and Sub-Period of a malefic planet, the native shall undergo loss through enemies and meet great danger.

21. The Period of a very friendly planet where **Ishta** prevails shall be best; that of a very inimical planet shall prove unfavourable; that of a neutral one shall be ordinary.

22. The Period of the Lord of the Ascendant shall bring power and wealth to the native.

23. The Period of the lord of the 2nd house shall give trouble but wealth also.

24. The Period of the lord of the 3rd house shall generally prove unfavourable.

25. During the Period of the lord of the 4th house, the native shall be fortunate and acquire good houses, etc.

26. During the Period of the lord of the 5* house, the native shall be blessed with good education and wealth.

27. During the Period of the lord of the 6* house, there shall be danger from enemies.

28. During the Period of the lord of the 7th house, the native would pass through much sorrow.
29. During the Period of the lord of the 8* house, death of the native may be predicted.
30. During the Period of the lord of the 9* house, the native shall perform acts of charity, religious duties, etc.
31. During the Period of the lord of the 10* house, the native shall receive much wealth by serving the ruler.
32. During the Period of the lord of the 11* house, native shall gain every where.
33. During the Period of the lord of the 12* house, the native shall suffer loss of wealth and pass through much trouble.
34. During the Period of a planet that possesses Digbala, the native would participate in a big undertaking bring for himself favour and fortune corresponding with the nature of the planet.
35. During the Period and Sub-period of planets placed in 6 and 8 house to each other, the native shall pass through great danger and anxiety.
36. During the Period of the ATMA karaka, the native may suffer the loss of position/Status and that of wealth.
37. During the Period of a malefic and the Sub-Period of a benefic, the native would pass through some trouble at first and then followed by good fortune.
38. During the Period of a benefic and in the Sub-Period of a benefic, the native shall enjoy great happiness.
39. During the Period of a benefic and in the Sub-Period of a malefic, the native shall find the 1st half of his life full of happiness, and the last full of fear.
40. During the beginning of a new Period or Sub-Period, the position and strength of the various planets and that of the Ascendant at that time should be correctly assessed.
41. If in this nativity (referred to above) the lord of Period be a benefic or occupy an Upachaya position (3rd, 11*, 10* and 6th) with respect to the Ascendant, his Period would be the best.
42. If the Ascendant is in a friendly Varga of the Period Lord or in the Varga of a benefic, the Period shall prove auspicious.
43. With the beginning of a Period or Sub-Period if the Moon enters her own house, the native would get honour, wealth and happiness; if she enters Leo. The native would be above want; if she passes through a

house of Mars, the native would frequently quarrel and be in debt; if through a house of Mercury, the gain shall be of learning and wealth; if through a house of Jupiter, the native shall experience happiness through agriculture, recognition and wealth; if through a house of Venus, the native gets a good wife, honour, fame and wealth. Transit of Moon through a house of Saturn would engage the native in the service of others.

44. If Moon at the time of beginning of a Period is powerful and is posited in other than the 6*, 8* or 12* house, the period will come out to be the best.
45. If Moon is in the exaltation sign of the Period Lord, friendly sign or her own sign and occupy an Upachaya, Trine or the 7* place from the Sign occupied by the Period Lord, he would give good results and in any other position it would be otherwise.
46. Mark the Sign occupied by Moon at the time of entry of a Period and the particular house signified by this Sign in the nativity. The Moon's presence in it, whether good or bad, shall be with reference to that house only.
47. In the course of the Period of a malefic associated with an inimical planet and in a malefic planet's Sub Period, the native would certainly pass through some calamity.
48. At the beginning of the Period of a malefic planet, if there is a planet possessing greatest strength in every way and is in benefic Varga, aspected by benefic or by a friend, the Calamity will not befall but shall be warded off.
49. Counted from the Moon or the Ascendant, if at the beginning of a Period, the Period Lord occupy during his transit an Upachaya house, a friendly house, his exaltation or his Mooltrikona sign, he would produce in full the effects obtained from the benefic dots and would show only in a small degree the evil effects resulting from the malefic dots (under Ashtakavarga System) otherwise, the evil effects due to malefic dots would be fully revealed, while those due to the benefic dots, only in a small degree. Even here prediction could be made proportionately.

Assessment of strength of Planets-

- A) The planets that are strong and benefic according to all the following eight benefic factors will yield good and beneficial results in their Periods.
The Eight Benefic Factors are:-
 - a) The planet that is a Natural Benefic (Naisargika-Suban)

- b) The lord of the Nakshatra which happens to be a propitious Nakshatra as reckoned from the Birth Nakshatra (i.e. Subha Nakshatrathipathi).
 - c) The planet that happens to be the lord of the sign occupied by a benefic bhava according to placement ,(i.e. the Subha Athipathiya Planet).
 - d) The planet that is posited in a benefic rasi.
 - e) The planet that is strong in Varga Athipatiyam (i.e. the planet that has several Vargas or that is in the same rasi in the several Varga charts of the Divisional charts).
 - f) The planet that is in its Aarohana-Gathi (i.e. the planet that is moving from its **Parama-Debilitation** point to its **Parama-Ucha Point** (i.e. the planet whose Ucha Bala is on the increase)
 - g) The planet that is in Vakra (i.e. the planet that is in its retrogression or backward motion).
 - h) The planet that is in its Parama-ucha Position i.e. the planet that is in its exaltation point in its exaltation rasi.
- B) The planets that are malefic according to all the following eight malefic factors will yield bad and unpropitious results in their Periods:

The Eight Malefic Factors are:

- a) The planet that is a Natural Malefic (Naisargika Asabhan).
- b) The lord of the Nakshatra which happens to be an unpropitious Nakshatra as reckoned from the birth Nakshatra (i.e. Asubha Nakshatrathipathi).
- c) The lords of the signs in which the sixth, the eighth and the twelfth bhavas are posited (i.e. the lords of the signs which include or comprise the sixth, eighth and the twelfth bhavas).
- d) The planet that are in their inimical signs, or in their Debilitation (i.e. Debilitation) signs.
- e) The planets that are in their **Asthamanam** (i.e. heliacal setting or immersion or combustion or cazini).
- f) The malefic planet that is in Kendra's (i.e. square or cardinal bhavas from the Lagna Bhava) and in Trines (i.e. in 5/9 or Trikona bhavas from the Lagna Bhava).
- g) The planet that has Athicharam (i.e. the planet that is moving with a speed which is much greater than its normal or average speed).

- h) The planet that is in its Parama-Debilitation position (i.e. the planet that is in its debilitation point in its debilitation rasi).

The planet which happens to be a malefic according to these Eight Malefic Factors renders malefic the lord of the Nakshatra in which it is at birth-time and the lords of the rasi, occupied by it in the Rasi and Navamsa charts.

The planet which happens to be benefic according to the Eight Benefic Factors renders benefic the lord of the Nakshatra in which it is at birth time and the lords of the rasi occupied by it in the Birth and Navamsa charts.

The Eight Kinds of Benefic referred to above when they are strong and the lords of the Navamsas and the Nakshatras in which they are at the time of birth when they are also strong will yield very good results during their Periods or Major periods.

The Eight Kinds of Malefic referred to above when they are strong and the lords of the Navamsas and the Nakshatras in which they are at the time of birth, when they are also strong, produce misery, sorrow, and all kinds of sufferings and worry during their Periods or Major Periods.

The Periods (Major periods) and their Sub-Period or sub-period Period (sub-periods) have to be first of all determined and then only, the events in them should be predicted in the order of Periods, sub-periods and sub-sub-periods etc.

How to Determining Life Events of a Native.

The lord of the Period,

The planets in combination with him,

The planets those were aspected by him,

The lord of the Rasi occupied by the Period Lord in the Rasi Chart,

The lord of the Rasi occupied by the Period Lord in the Navamsa Chart,

The lord of the Trimsamsa of the Period Lord,

The lord of the ninth bhava,

The planets that are in Trines from the Lagna,

All these above items of planets will yield yoga (or good or bad results) in their sub-periods.

Rahu and Ketu will yield the results of these the planets in whose Rasi they are.

The strength (i.e. Shada Bala strengths), of these planets must first be ascertained.

If the lord of the sub-period is posited in his own rasi, in his friendly rasi, in his exaltation rasi, and in a Trine rasi (i.e. 5 or 9) he will yield results which are pertaining to or appropriate to his own bhava, to the bhava in which he is situated and also to the rasi occupied by him in Transit (i.e. Star course). If he is a malefic, he will yield malefic and unfavourable results; if he is of a Mixed nature (i.e. a combination of benefic and malefic natures), he will yield results of a mixed nature (i.e. of a mixture of propitious and unpropitious results).

But a Period Lord, will not in his own Sub-Period, yield results in harmony with, or appropriate to his nature, but he will yield results which, are in consonance with, or which are a continuation of, the results of the previous Sub-Period. If, however, he yields his own appropriate results in his own sub-Period on the contrary, he will not yield his own appropriate results in the other Sub-Period of his Period, through the other Sub-Period Lords.

This will happen only when the Period Lord only is very powerful, while the other Sub-Period Lords are powerless.

When the Period Lord is benefic, if the Sub-Period Lord is malefic, the Sub-Period Lord will not produce his appropriate effects in his sub-Period, but on the other hand. He will keep quiet. If the Period Lord is in the midst of malefic, the Period Lord, in some cases will yield unfavourable results to some degree. If, in the same way, a malefic Period Lord is in the midst of benefic, he (the malefic Period Lord) will yield favourable results to some degree.

If the Period Lord is a Maraka (i.e. a death-inflicting or Mrithyu Planet or death-causing planet) and at the same time is a benefic, the Sub-Period Lord who happens to be lord of the eighth bhava from the Birth Lagna, will be invested with the authority to inflict death. If the lord of the eighth bhava is also a Maraka or an Mrithyu Planet there will be no actual death in that Period. If the Period Lord, though he is a benefic, is in the midst of malefic, he will be indifferent and will not produce favourable results. If the Period Lord, though he is a malefic, is in the midst, of benefic, he will not produce unfavourable results on a large scale. All, that has been said here about the Period Lord, is equally applicable to Sub-Period Lord,

Note: Innumerable and diverse are the results, since equally innumerable are the qualities or the characteristics of planets.

Death inflicting or Maraka periods:-

A few Yogas based on the main ruling periods and Sub-period of the Lords of the 8th, 6th and 12th which are said to be death inflicting or Maraka periods, when they occupy their own house/ sign or other planets are posited in their house/ sign are:-

- 1) During the ruling period of the Lord of the 12th the Sub-period of the Lord of the 2nd is a Maraka; that of the Lord of the 2nd, the Sub-period of the Lord of the 12th is a Maraka.
- 2) During the ruling period of the Lord of the 12th the Sub-period of the planets associated with or aspected by the Lord of the 2nd can be most fatal.
- 3) During the ruling period of the Lord of the 2nd the Sub-period of the planets posited in the 12th or aspected by its (12th) Lord can be powerful Maraka.
- 4) During the ruling period of the Lord of the 12th, malefic posited in the 12th can be Maraka* in their Sub-period.
- 5) If malefic occupy the 2nd conjoined with the Lord of the 12th then they can be Maraka during its ruling period and their Sub-period.
- 6) If malefic occupy the 12th then during their ruling periods the Sub-period of the malefic related to the Lord of the 2nd can prove fatal.
- 7) During the ruling period of the Lord of the 8th its own Sub-period can be Maraka. Death will also be caused in the sub-period of the Lord of the 8th within the Period of the Lord of the 6th.
- 8) During the ruling period of the Lord of the 8th the Sub-period of the malefic occupying the 6th can prove fatal.
- 9) During the ruling period of the Lord of the 6th the Sub-period of the planets occupying the 8th can prove fatal.
- 10) During the ruling period of the Lord of the 8th the Sub-period of the planets aspected by it can be Maraka.
- 11) During the ruling period of the Lord of the 8th the Sub-period of the planets conjoined with the Lord of the 6th can be fatal.
- 12) During the ruling period of the malefic planet occupying the 8th the Sub-period of the Lord of the 6th can be fatal.
- 13) During the ruling period of a malefic in the 6th the Sub-period of the Lord of the 8th will be fatal.
- 14) During the ruling period of a malefic in the 6th house the Sub-period of the Lord of the 8th occupying the 8th will cause death.

- 15) In the Period of the Lord of the 6* the Sub-period of the Lord of the 8* will be fatal.
- 16) During the ruling period of the malefic posited in the 8* house the Sub-period of the malefic posited in the 6* will be fatal.

The principles involved above in the position of the Lords of the 6th, 8* and the 12* houses or other planets occupying them are summarized as under:

- A) Main Ruling Period of the Lord of the 8th:
 - i) Sub-period of the Lord of the 8*;
 - ii) Sub-period of the malefic occupying the 6th;
 - iii) Sub-period of the planets associating with the Lord of the 6th;
 - iv) of the planets aspected by the Lord of the 8*.
- B) Main Ruling Period of the Malefic occupying the 8th:
 - i) Sub-period of the Lord of the 6*;
 - ii) Sub-period of the planets occupying the 6*.
- C) Main Ruling Period of the Lord of the 6*:
 - i) Sub-period of the Lord of the 8th;
 - ii) Sub-period of the planets occupying the 8th.
- D) Main Ruling Period of the Malefic occupying the 6th:
 - i) Sub-period of the Lord of the 8th;
 - ii) Sub-period of the Lord of the 8* in the 8*.
- E) Main Ruling Period of the Lord of the 12th:
 - i) Sub-period of the Lord of the 2nd;
 - ii) Sub-period of the planets associated with the Lord of the 2nd;
 - iii) Sub-period of the planets aspected by the Lord of the 2nd;
 - iv) Sub-period of the malefic occupying the 12*;
 - v) Sub-period of the planets conjunct with the Lord of the 12* occupying the 2nd.
- F) Main Ruling Period of the Malefic occupying the 12th:
 - Sub-period of the malefic related to the Lord of the 2nd.

G) Main Ruling Period of the Lord of the 2nd:

Sub-period of the Lord of the 12*;

sub-period of the planets occupying the 12th or aspected by its Lord.

- 17) If Mercury and Venus conjoin in the 5* house, they become most fatal in each other's Main Ruling Period and Sub During the Period of Mercury and Sub of Venus or Vice-Versa. Do take into account their ownership of the house.
- 18) If Mars has evil Lordship and is posited in the 5th, it will cause death in its own Ruling Period. Evil Lordship stands for owning the 6*, 8* or 12th, Krooradhi-patya.
- 19) Even when Saturn owns favourable houses, it becomes a powerful Maraka by association of other Maraka.
- 20) Learned Astrologers believe that the Period of the Lord of the 8* who is posited in the Lagna proves fatal.
- 21) When the Sons (two or three) of a native pass through Rahu Period simultaneously he (native) will die during this period.

These Yogas will show different effects in the lives of the natives according as their span of life is short, medium or full. In case of the 1st it may prove fatal; in that of second the native may pass through serious illness, enmity and loss of wealth and when in case of the third (full span of life) they may cause some Arisht only.

Jataka Chandrika has made these principles very clear in the following few sentences:

1. Lord of the 2nd or the 7* is a Maraka;
2. Malefic occupying these two houses;
3. Malefic associating with their Lords;
4. Benefic associating with their Lords;
5. Lords of the 7th and the 8th;
6. Lord of the 3rd or the 8th conjoined with that of the 2nd or the 7th;
7. Saturn in association with a Maraka;
8. Lord of the 6* or the 8* whether or not associated with a Maraka;
9. The least powerful planet in the chart.

Highlights of the Periods of the Lords of Different Houses

Let us now consider the effects of the periods of the lords of various houses in the horoscope.

- In a birth chart when, the Ascendant possesses maximum strength, the native during the Dasa of its lord, rises to a status of eminence in the world and is happily placed in life. He is physically strong and possesses a charming personality. His prosperity grows with the growing in age like that of the waxing Moon.

If the lord of the Ascendant is badly situated the native will, during the Dasa of that planet be imprisoned. He will lead a life incognito, suffer from fear, disease and mental anxiety, participate in funeral rites, suffer loss of status and other misfortunes.

1st lord. During the Major period of the lord of Lagna who is strong and well placed, the person will rise to eminence, will be happy, be physically strong, and his popularity and influence will increase.

If First lord is weak, badly placed and afflicted, the person will suffer from Bad health, mental anxiety, fear, loss of position, disgrace and misery. He will lead the life of an incognito and may even be imprisoned. The native will have all misfortunes and impediments in his affairs and there will be quarrels in the family. He may have to perform obsequies of his relatives.

Lord of Ascendant Period effects (from classics)

(The Events during the Period of the Lord of the First Bhava),

- 1) If the lord of the Birth Lagna (i.e. the Birth Ascendant Lord or simply Lord of Ascendant) has the eight kinds of strength referred to as eight benefic factors earlier, will, during his Period, produce enduring authoritative powers, grace and fortune, reputation, health, wealth, happiness, authority and influence to the Native; and the Native will also be honoured and revered by his relatives and members of his family. The Native will have all these good effects, increasing slowly just like waxing Moon.
- 2) If the Lord of Ascendant, devoid of strength, is posited in an inimical rasi or in his debilitation rasi, or is in heliacal setting, the Native will during his Period, be an unknown or insignificant person and poor servant or labourer: he will be wicked, powerless, vicious, and worried in his mind with many cares and anxieties. If this planet is in the twelfth Amsa from the Lagnamsa (i.e. in the twelfth rasi in the Navamsa chart from the Lagna in the Navamsa chart), the native will be always

moving from place to place. During the sub-period of this planet the Native will be dirty, indecent, unhappy, penurious and beggar.

- 3) If the Lord of Ascendant is posited in the second bhava in conjunction with the lord of the second bhava, the Native will, during the Period of the Lord of Ascendant, acquire much wealth, will have rich and delicious food and drink served to him in gold and silver plates and cups. If the planet that is in combination with the Lord of Ascendant, is Jupiter, gold vessels are indicated, if it is Venus, silver vessel is indicated; and if it is any other planet, the vessel will be made of a metal that is ruled over by the planet. The Native's family and wealth will prosper. He will be successful in everything. His words will be valued everywhere. He will witness dramas, cinemas and pleasing and captivating shows. Even if the Lord of Ascendant is in conjunction with the lord of second house, if Lord of Ascendant is situated in the sixth, eighth and twelfth rasi from the Dhanamsa, (i.e. the lord of second house Amsa), that is if the Lord of Ascendant is in the Navamsa chart in the sixth, eighth or twelfth rasi from the rasi in the Navamsa chart itself occupied by the Dhanathipathi, (the lord of second house) all the effects referred to above will be reversed during the Period of the Lord of Ascendant; the Native will then have a very little gain; he will sometimes lose the chance of having gain and he will have happiness sometimes and unhappiness at other times or both mixed up together.

Note- While giving hereafter the **Phala** or effects of the Period of the lord of a particular bhava or house occupying any other bhava, the author always takes the lord of the other bhava to be in his bhava itself along with the lord of that particular bhava.

For instance, when he speaks of the lord of the first bhava being in the second bhava, he takes that the lord of the second bhava is in the second bhava itself in combination with the lord of the first bhava whose Period effects are under consideration. He does not give the effects of the Period of the lord of a particular bhava posited in another bhava without the combination of the lord of that another bhava or with the aspect of the lord of that another bhava.

- 4) If the Lord of Ascendant, possessed of strength is posited in the third-bhava in conjunction with the lord of the third bhava, the Native will have a brother born in the Period of Lord of Ascendant, will have wealth through his brother, will be strong minded and resolute, will read Puranas and other religious works, will derive pleasure from musical performances, comic scenes and humorous and witty speeches and reports and will have ear ornaments in the Period of Lord of Ascendant. The Native will either enjoy all these on a moderate scale in this Period, if the Lord of Ascendant is in the sixth, eighth and twelfth signs in the

Navamsa Chart from the rasi occupied by the lord of the third-bhava in the Navamsa chart or may have sometimes quarrel or misunderstandings with his brothers in this Period; or all these events and good effects may deteriorate or decrease to some extent.

- 5) If the Lord of Ascendant is posited in the fourth bhava in conjunction with the lord of the fourth bhava, the Native will be possessed of good vehicles (conveyances), apparel, cattle, good lands and gardens, will have happiness and pleasures of being in or having new house, will have the honour of being respected by his relatives and friends, will enjoy the pleasant company of his friends, pundits, learned (savants, literary persons) and good people in the Period of Lord of Ascendant.
- 6) If, however the Lord of Ascendant is posited in the sixth, eight and twelfth signs in the Navamsa chart from the rasi occupied by the lord of the fourth bhava in Navamsa chart, the good effects described above will be of a moderate degree (or on a small scale) in the Period of the Lord of Ascendant, the Native will have quarrels or misunderstandings with his mother will have a fall from a vehicles (conveyance), will incur some loss from his lands and gardens, etc., and will experience some pleasures or pain alternately or conjointly in this Period.
- 7) If Lord of Ascendant is posited in fifth bhava in conjunction with the lord of the fifth bhava, he will, during his Period, cause to the Native king's or dignified person's favour, happiness of mind and much regard and respect among friends and relatives. The Native will have a Child, will be either a king himself or a minister to a king will be a devoted to religious worship and will have Gods grace and father's affection, and blessings, will have authority over many villages and. will enter Government service in this Period.
- 8) If however the Lord of Ascendant is posited in the Navamsa chart in the sixth, eight and twelfth signs from the rasi occupied by the lord of the fifth bhava in the Navamsa chart, the good effects described above will all be on a small scale, the Native will have displeasure of his dignified person or boss to some degree or on some occasions, will have misunderstanding with his father and sons, will have some interruption or respite in his religious worship, and will have Government displeasure, bad name in administrative affairs of the Government and insult in public body or meeting. He will also be engaged in fruitless religious meditation and chanting of mantras or hymns.
- 9) If the Lord of Ascendant is posited in the sixth bhava in combination with the lord of the sixth bhava, the Native will experience, in his Period, troubles from ulcers, wounds, sickness and debt, troubles from

the Government, or from superiors by way of misunderstanding or litigation with them, from defeat and disgrace in a war or a quarrel and from incised and cut wound caused with instruments. He may have loss of limbs or bodily deformity, malady and penury in the Period of the Lord of Ascendant.

- 10) If (in the above yoga), the lord of the sixth bhava is in his Debilitation Amsa (in the Amsa chart) and if the Lord of Ascendant is in his Ucha Amsa (in the Amsa chart), the Native will have no infirmity, will be strong in body and mind and will be employed as a commander-in-chief or as an air-chief or as an admiral, will score success in a war or battle or a quarrel. If the Lord of Ascendant is posited in the Navamsa chart in the sixth, eighth and twelfth signs from the rasi occupied by the lord of the sixth bhava in the Navamsa chart, the Native's enemy will score a victory over the Native, and the results described above will not at all happen actually but there will be only a mere talk or likelihood of the occurrence of the above mentioned good results.
- 11) If the Lord of Ascendant is posited in the seventh bhava in conjunction with the lord of the seventh bhava, the Native will have journey, pilgrimage and celebrations or occurrence of auspicious events during his journey or in his family during the Period and sub-Period of the Lord of Ascendant. He will be married or have consummation ceremony with his wife, or will have coitus with other women, or will have the pleasures of garland of fine flowers, sandal paste, perfumes etc. He will tour*to a very distant place if the seventh bhava is in a movable rasi, in his own country if it is a fixed rasi, and will reside in a foreign land if it is in a dual rasi. If the Lord of Ascendant is devoid of power, the Native will be simply wandering without any benefits whatsoever.
- 12) If, (in the above mentioned yoga), the Lagnathipathi is posited in the Navamsa chart in the sixth, eighth and twelfth signs from the rasi occupied by the lord of the seventh bhava in the Navamsa chart, the Native will not go to any place and will not stay there even if he goes there, will have no danger of death or will have no auspicious occurrences etc. his wife will be opposed to him, he will have interruptions to sexual intercourse, or to conjugal happiness or to auspicious happenings in his family etc.
- 13) If the Lord of Ascendant is posited in the eighth bhava in combination with the lord of the eighth bhava, the Native will stroll in poverty, will have serious diseases, will always be doing sinful, wicked deeds, will run into debt over head and ears and will attempt to begin to do mean things or to pursue undignified person and unworthy occupations during the Period of the Lord of Ascendant.

- 14) If, however, (in the above mentioned yoga), the Lord of Ascendant is situated in the Navamsa chart in the sixth, eighth, or twelfth rasi from the rasi occupied by the lord of the eighth bhava in the Navamsa chart, the effects described above will be of a moderate degree and the Native will have no attacks of serious disease; if the lord of the eighth bhava is powerless, the Native will not contract debt or disease, will do sinful or wicked deeds covertly and will discharge his debts or will be relieved of debts. These favourable events should be predicted taking also into account the nature of the Nakshatras.
- 15) If the Lord of Ascendant, is posited in the ninth bhava in combination with the lord of the ninth-bhava, the Native's patrimony will prosper, he will flourish in virtuous ways, will be devoted to father and deities, will serve his father well, will become famous through the acquisition of large wealth and will do charity in laudable ways.
- 16) If, however, (in the above mentioned yoga) the Lord of Ascendant is situated in the Navamsa chart in the sixth, eighth or twelfth rasi from the rasi occupied by the lord of the ninth bhava in the Navamsa chart, the Native will have no ancestral property, there will be no cordiality or harmony between the Native and his father; they will be diametrically opposed to each other, the Native will have no liking for virtuous ways and deeds and will be associated with sceptics or combatants. During the Period of Lord of Ascendant, his patrimony will dwindle away. If the same Lord of Ascendant is however, in his exaltation degree in his exaltation rasi in conjunction with the lord of the ninth-bhava, the Native will acquire enormous wealth, will spend much money on charitable deeds and will certainly build or renovate Siva or Vaishnava temples etc.
- 17) If the Lord of Ascendant is posited in the tenth bhava in conjunction with the lord of the tenth bhava, the Native, during his (Lord of Ascendant's) Period, will acquire name and fame, will be much interested in his family traditions and occupations, will perform yogas, will inherit a kingdom, will attain a good status, will successfully carry out his orders, will be a theist, will be religious and orthodox, will be powerful and capable in administrative affairs of the Government and will rise in the ladder of official position.
- 18) If, however, the Lord of Ascendant is posited in the Navamsa chart in the sixth, eighth or twelfth rasi from the rasi occupied by the lord of the tenth bhava in the Navamsa chart, the Native will acquire ill reputation, notoriety, disgrace and a name for incapacity in his official functions; his orders will be disobeyed or countermanded and he will not be interested in his daily deeds or duties or ablutions. During the

Period of the Lord of Ascendant, the Native will secretly commit sinful deeds.

- 19) If the Lord of Ascendant is posited in the eleventh bhava in combination with the lord of the eleventh bhava, the Native will have profit in trade, will acquire the wealth from his elder brother and will get profits in several ways and means, which have to be ascertained from the nature of the planets causing this yoga.

If, however, the Lord of Ascendant is posited in the Navamsa chart in the sixth, eighth or twelfth rasi from the rasi occupied by the lord of the eleventh bhava in the Navamsa chart, the Native will have gains on a very small scale, will have a small degree of pleasure and happiness, and will have misunderstandings with his elder brother; if the Lord of Ascendant and the lord of the eleventh bhava are enemies of each other, the Native will daily have interruptions to his gain and profits.

- 20) If the Lord of Ascendant is situated in the twelfth bhava in combination with the lord of the twelfth bhava, the Native will be afflicted by poverty, will be poor, will spend away his patrimony, will reside in foreign lands, and will live there a miserable, unhappy and travelling life, engaged in fruitless undertakings. He will however have some favourable effects and results, if the Lord of Ascendant is in his own rasi in the twelfth bhava.
- 21) Thus, one should predict the effects of the combination of the Lord of Ascendant with the lords of the twelve (i.e. properly speaking the eleven bhavas except the Lagna bhava). The astrologer should include also the effects of the signs in which he is in the Rasi chart and Amsa chart and also of the Trimsamsa in which he is placed. He should also include the effects of the several planets that are with or that aspect the Lord of Ascendant, He should also take into account the strength of the planets. He should also consider the benefic or the malefic nature of the several bhavas in which the Lord of Ascendant is and also of the lords of the several bhavas in which the Lord of Ascendant is.
- 22) The effects or results must be determined with reference to the following eight factors viz,

the Nature of the rasi,

the nature of the Lagna bhava,

the nature of the karaka or karaka planet,

the nature of the planet,

the nature of the planets in association with the planet,

the nature of the planets that aspect the planet,
 Parivarthanai (i.e. Mutual exchange or reception between two
 planets) and
 yoga (or combination or configuration) of planets causing Raja
 yoga.

Note:

- a) By "rasi" here, Author probably means the rasi in which the Lord of Ascendant is, not Moon sign.
- b) By the "Karaka planet" means the Karaka planet for the bhava in which the lord of Ascendant here (or in general the lord of the bhava under consideration) is.
- c) By "the nature of the planet" means the planet, here Lord of Ascendant (or in general, the lord of the bhava) whose Period effects are under consideration.

Dasa of the lord of the 2nd house

During the progress of the Dasa of the lord of the 2nd house success or acquisition to family, birth of noble daughters, good meals, and income through giving lectures, eloquence in speech and the approbation of the audience in the assembly thereof may be predicted.

Should the lord of the 2nd house be in a similar position, the native, during the Dasa of the said planet, will behave foolishly in an assembly, nor be true to his word or his family, will receive bad news, write unpleasant letters, suffer from eye sore, indulge in foul speech, spend wastefully and incur the wrath of the government.

2nd lord. During the Major period of the lord of 2nd who is strong and well placed, there will be general prosperity in the family, enjoyment of good food, increased income and accumulation of wealth, eloquence of speech and respect for one's words, approbation by the public, good connections and helps from opposite sex, etc.

If the lord of 2nd is weak, badly placed or afflicted, during his periods there will be financial loss, loss of property, quarrels in the family, heavy expenditure and fall in income. The native will behave stupidly, and is foul tongued and speak falsehoods. He will suffer from eye disease and wrath of superiors and elders.

The Period of the Lord of the Second Bhava (from classics)

- 1) If the lord of the second bhava is strong in the second bhava, the Native will acquire reputation as a rich man. If Lord of Ascendant is weak, the Native will conceal or save his wealth, but will not enjoy it or

spend it. This will happen during this period (i.e., the period of the lord of the second bhava). If the Lord of Ascendant is strong, the Native will enjoy some comforts from his wealth, but he will mostly preserve his wealth very carefully, his words will be always effective and will be respected; he will thrive in his education, and his family will grow in number and in prosperity.

If the Lord of 2nd house is in the sixth, eighth and twelfth amsa (i.e. in other words if the rasi in which the Lord of 2nd house is in the Navamsa Chart is the sixth, eighth, or twelfth rasi from the rasi in which he is in the Rasi Chart) the Native will either earn merely a name as a rich man (without actual riches) or will lose his wealth (if he acquires wealth actually); the Native will have danger of Mrithyu or death and his Wife and his wife's relatives will suffer from diseases and misfortune.

- 2) When the lord of the second bhava is in the third bhava, in conjunction with the lord of the third bhava, the wealth already saved by the Native, will grow in amount and value, and his brother will get wealth and the administration of his family will be undertaken and managed by his brother. The Native will get some profits in some places through his knowledge of musical art. If the lord of the second bhava is weak, the Native will have a very little gain. If the lord of the second bhava is in the eighth house etc., (i.e., 6th, 8* & 12*), amsa (i.e., 6th, 8* & 12th Rasis in the Navamsa Chart from the rasi occupied by the lord of the third bhava in the Navamsa Chart), the native's the death will be in bad conditions.
- 3) If the lord of the second-bhava is in the fourth bhava, in combination with the lord of the fourth bhava, the Native will acquire money through lands, education and conveyances; he will inherit the property of his maternal grand-father, and will also obtain treasure-trove in some places. If the lord of the second bhava is in Navamsa Chart in the sixth, eighth and twelfth amsa (i.e., Rasis) from the lord of the fourth bhava in the Navamsa Chart, the above mentioned good effects will not happen; if the lord of the fourth bhava is weak, the Native will have a little profit.
- 4) If the lord of the second bhava is in the fifth bhava in combination with the lord of the fifth bhava, the Native will get wealth in this Period through a dignified person or a king or a deity or a religious institution or son or father. If the lord of the second-bhava is in the Navamsa Chart in the sixth, eighth or twelfth amsa (i.e. rasi from the occupied by the lord of the fifth bhava in the Navamsa Chart, these effects will not be realised. If the lord of the second or the fifth bhava is weak, the Native will have a very little gain in the Period.

If Venus is in association with Rahu or Saturn or Mars, the Native will obtain wealth in the period through a dignified person with whom his wife will have copulation. If the lord of the Lagna or Lagna Navamsa is in association with the lord of the second bhava, the Native will get wealth through the ways and means controlled by this lord of Lagna or Lagna Navamsa.

- 5) If the lord of the second bhava is posited in the sixth bhava in combination with the lord of the sixth bhava and if the lord of the second bhava is strong the Native's maternal uncle will be famous, wealthy and influential. The Native's enemy may be said to be a rich person. If the Native has a normal yoga for general acquisition of wealth (i.e. as seen from the yoga of the other planets) he will get wealth. He will get wealth through medical practice or theft, or litigation. If the lord of the sixth bhava is weak, the Native will have a very little profit. If the lord of the second bhava is in the Navamsa Chart in the twelfth etc. in amsa (i.e. 6*, 8* & 12* rasi from the rasi occupied by the lord of the sixth bhava in the Navamsa Chart), there will not be even, this very little profit.
- 6) If the lord of the second bhava is posited in the seventh bhava in combination with the lord of the seventh bhava, the Native's father-in-law will acquire wealth, or the Native will himself acquire wealth through his father-in-law. The Native will live in a foreign place with his family, will get wealth in a foreign place, and will have death during the period favourable for death (i.e. in other words, will have death during the period of the lord of the second bhava, if his longevity as determined from other considerations bearing on the length of life falls within the period of the lord of the second-bhava).
If the lord of the seventh bhava is weak or if the lord of the second bhava is in Navamsa Chart in the sixth, eighth and twelfth amsa (i.e. Rasis from the Amsa i.e. rasi occupied by the lord of the seventh bhava in the Navamsa Chart, the effects mentioned above will not be produced. If there is no yoga, as mentioned above, there will not be any acquisition of wealth etc., as stated above in the Period.
- 7) If the lord of the second bhava is posited in the eighth bhava, in conjunction with the lord of the eighth bhava, the Native indebtedness will grow in magnitude or his wife will die or his wife will commit crimes or misdeeds, he will be unhappy mentally, and he will always have loss and expenditure. If the lord of the second bhava is in the Navamsa Chart in the sixth, eighth or twelfth rasi from the rasi occupied by the lord of the eighth bhava in the Navamsa Chart, the above mentioned effects will not happen and the result will be of a contrary nature, If the lord of the eighth bhava is weak, the Native will lead a

useless life in a foreign place and will eat food served in funeral ceremonies.

- 8) If the lord of the second bhava is posited in the ninth bhava in combination with the lord of the ninth bhava, the Native may acquire very large wealth, his father will be very fortunate and the Native will get wealth on the score of charity. If the lord of the ninth bhava is weak, the profits will be very little.

If the lord of the second bhava is in Navamsa Chart in the twelfth amsa etc. (i.e. 6th, 8th or 12th) amsa i.e. Rasis from the rasi occupied by the lord of the ninth bhava in the Navamsa Chart, there will not be even these small profits (i.e. the good effects described above).

- 9) If the lord of the second bhava is posited in the tenth bhava in combination with the lord of the tenth bhava, and if the birth-Lagna is associated with Raja-yoga, the Native will acquire wealth through king or Government, will get money levied as reward, will have king's favour and silk apparels etc. and will earn money from trade. If the lord of the second bhava is weak, there will be a little gain, or there will be an acquisition of wealth from charity or gifts in some places. If the lord of the tenth bhava is weak, the Native will earn money through immoral and mean deeds or occupation. If the lord of the second bhava is in the Navamsa Chart in the sixth, eighth or twelfth amsa (i.e. rasi from the amsa i.e., rasi occupied by the lord of the tenth bhava in the Navamsa Chart), these results will not happen; but the Native will make attempts to get an occupation in mean or low surroundings.
- 10) If the lord of the second bhava is posited in the eleventh bhava in combination with the Lord of 11^{*} house (i.e. the lord of the eleventh bhava), the Native will get the wealth of his elder brother and will have profits in his avocations. He will have, during the period of the lord of the second bhava, profits which will be determined by the nature of the bhava-lordship owned by the planets which are in combination with the Lord of 2nd house or by the nature of the planets, which own the rasi in which the Lord of 2nd house is in the Navamsa Chart. If the lord of the second bhava is in the Navamsa Chart in the sixth, eighth or twelfth amsa (i.e. rasi from the amsa i.e. rasi occupied by the Lord of 11^{*} house in the Navamsa Chart, there will be no good effects described above. If the lord of the eleventh bhava is weak, here will be a very little gain).
- 11) If the lord of the second bhava is posited in the twelfth bhava in combination with the Lord of 12^{*} house (i.e. the lord of the twelfth bhava), the Native will incur expenditure in ways which will be determined by the nature of the bhava lordship owned by the planets

which are associated with them (i.e. with the Lord of 2nd house and Lord of 12* house). If there is no association of other planets with them, the ways and means of expenditure must be determined from the nature of Lord of 12* house only. If the lords of the twelfth and second bhavas are weak, the expenditure will be on a small scale. If the lord of the second bhava is in the Navamsa Chart in the 6*, 8*, or twelfth amsa-rasi from the amsa-rasi occupied by the lord of the twelfth bhava (i.e., with reference to the positions of these two planets in the Amsa Chart), there will be no actual expenditure, but there will be only a threat of expenditure, there will be trouble or disease in the family or to the wife or there will be mental worry or derangement or aberration of mind to the Native.

- 12) If the lord of the second bhava is posited in the first bhava in combination with the lord of the first bhava, there will be a growth of family; the Native's words will be respected and valued; the Native will expend money in good and virtuous ways; he will feed many people in charity and will acquire a name and fame as a rich philanthropist. If the Lord of 2nd house is weak, the Native will earn only a small amount of money. If the Lord of 2nd house is in the Navamsa Chart in the sixth, eighth or twelfth amsa-rasi from the Amsa of the lord of the first bhava in Navamsa Chart the Native will be miserly, foolhardy and turbulent.
- 13) The lord of the second bhava will, during his period, cause effects, which will be in harmony with the nature of things controlled by, or significations attributed to or characteristics ascribed to-
 - 1) the planets which are in conjunction with the Lord of 2nd house or which aspect the Lord of 2nd house,
 - 2) the lord of the rasi or of amsa or of the Trimsamsa of the Lord of 2nd house, and
 - 3) the bhava owned by the planet which aspects, Or is with, the Lord of 2nd house.

Dasa of lord of the 3rd house

During the Dasa of a strong lord of the 3rd house, the native should expect help and cooperation from brothers, hearing of agreeable news, chance to show his valour, leadership in army and attainment of honour. He will receive support from the public and his noble qualities will be appreciated.

When the lord of the 3rd house occupies an evil house the native expects the demise of his brother during the Dasa of the planet. He will be widely condemned for all his enterprises and there will be trouble through

secret tricks of internal enemies, humiliation, discomfiture and loss of pride thereby.

3rd lord. During the periods of the lord of 3rd who is strong and well placed there will be fraternal well being, help to or from brothers, receipt of good news, gain of good servants, fame, and exhibition of one's talent and valour. The person will be honoured, he receives help from people and will be praised for his good qualities.

If the lord of 3rd is weak, Badly placed or afflicted, his brothers will be ill or die. He will lose courage, take to evil counsels, have trouble from servants, associate with low class and wicked people, suffer through the machinations of enemies, be humiliated and suffer discomfort and loss of position.

The Period of the Lord of the Third Bhava (from classics)

- 1) If the lord of the third bhava is posited in the fourth bhava in combination with the lord of the fourth bhava, the brother of the Native will become famous in the period of the lord of the third bhava, The Native will acquire wealth and vehicles (i.e. conveyances), will become capable in the administration of the affairs of his village and will derive benefits from education and from his lands. If the lord of the fourth bhava is weak, the mother of the Native will sometimes have sickness and distress; the Native will have damage caused to his crops and fields; and he will have interruptions in his education. If the lord of the third bhava is weak, the Native will have some set-back through the lord of third bhava, he will have partition disturbing the crops and fields and he will construct a new house. He will experience a fall from his vehicles in the period and sub-period of the planet that is weak. If the lord of the third bhava is in the Navamsa-Chart in the sixth, eighth or twelfth amsa-rasi from the amsa of the lord of the fourth bhava in the Navamsa-Chart, the Native will have no vehicle-yoga (i.e. he will have no vehicles); there will be disputes about the use of vehicles and ceremonies and the Native will mostly have no comforts or happiness.
- 2) If the lord of the third bhava, possessed of strength, is in the fifth bhava in combination with the lord of the fifth bhava, the Native will either become a dignified person or a great man or will become one, who has been patronised by some one, or his brother will be patronised by some great man. The native may sometimes acquire wealth or have fortune through the grace of a deity. If the lord of the third bhava is very weak, the Native will have the occupation of a cook and he will sometimes earn money through music. If the lord of the third bhava is (moderately) weak, the Native will have a little gain. If the lord of the third bhava is very strong, the Native will get wealth through a king

(or a Government). If the lord of the third bhava is, in the Navamsa-Chart, in the sixth, eighth or twelfth amsa-rasi from the amsa of the lord of the fifth bhava in the Navamsa-Chart, the Native will have unhappiness and disappointments on account of his undertakings becoming futile; if however, the lord of the third bhava is in Trikona or Kendra-amsa in the Navamsa-Chart, the Native will have acquisition of wealth and comforts. The effects should be determined with reference to the significations of the planets and bhavas associated with the third bhava, fifth bhava and their lords.

- 3) If the lord of the third bhava is posited in the sixth bhava in conjunction with the lord of the sixth bhava, the Native's brother will become his enemy during the period of the lord of the third bhava or the Native's brother will become sickly or will suffer from enlargement of spleen (*Gulma Roham*). If the lord of the third bhava is there in association with a benefic yoga (i.e. having the aspect or combination of a benefic planet), the Native will have employment in a military department or will have an appointment carrying an official seal and will get wealth through his maternal uncle. His maternal uncle will be happy during the period of the lord of the third bhava. If the lord of the third bhava is situated in the Navamsa-Chart in the sixth, eighth or twelfth amsa-rasi from the amsa of the lord of the sixth bhava in the Navamsa-Chart, the Native will have neither enemies nor friends, and he will not enjoy the results mentioned above.

If the lord of the third bhava is weak, the Native's disease will certainly increase in its intensity. If there is an association of the lords of the eighth and twelfth bhava with the lord of the third bhava (in the sixth bhava in conjunction with the lord of the sixth bhava), the period of the lord of the third bhava will produce yoga (i.e. good fortune) and the Native during this period, will have the good fortune of being in possession of wealth, vehicle and wearing appurtenances. If the lord of the third bhava is in combination with only the lord of the sixth bhava, the Native will suffer from ear-disease, he will have ear-trouble or ear operation according to the nature of the planet. All these and similar effects with other combinations, must be added as effects, to the results to be produced during the period of the lord of third bhava.

- 4) If the lord of the third bhava is situated in the seventh bhava in combination with the lord of the seventh-bhava, the Native's brother will go to a far-off land during the period of the lord the third bhava. If the lord of the seventh bhava is associated with a benefic planet the Native's brother will be happy on account of his residence in a foreign land. If the lord of the seventh bhava is weak in a movable rasi, the

Native's brother will have either unhappiness or death in foreign land. The Native will, at that time, enjoy happiness through his father-in-law, or will have his wife-side people prosperous or will have a second wife.

If the lord of the third bhava is associated with more planets, the astrologer must include also the effects ascribed to these planets. If the lord of the third bhava is in the Navamsa Chart, in the sixth, eighth or twelfth amsa-rasi from the amsa-rasi of the lord of the seventh bhava in the Navamsa-Chart, death or foreign travel etc. will not happen in the period of the lord of the seventh bhava; also but, if he is in the Trikona or Kendra amsa or in the gains (11th house) amsa in the Navamsa-Chart the Native will have the results described above. If the lord of the third bhava is weak and if the lord of the seventh bhava also is weak, the Native's brother will be begging in the foreign lands ruled over by the planets, will be always disposed to wandering, and will be always inclined to lead a bad life. If the seventh bhava is in a watery rasi, the Native will have pilgrimages etc.

- 5) If the lord of the third bhava is posited in the eighth bhava in combination with the lord of the eighth bhava, the Native's brother will have ear-disease or his ear will undergo an operation, and the Native's brother will suffer disgrace through his enemy. These effects can also be read as happening to the Native also. If the lord of the third bhava happens to be the lord of the eighth bhava also, the same effects can be predicted, and the Native will have to face the death or enmity of his brother and he will also lead a bad life. If there is an association of the lord of the sixth or twelfth bhava, the Native will acquire wealth. If the lord of the third bhava is aspected by, or is in combination with benefic or is in the eighth etc. amsa; the above mentioned results will happen; if he is however in Trikona or Kendra amsa, contrary effects will be produced.
- 6) If the lord of the third bhava is posited in the ninth bhava in combination with the lord of the ninth bhava, the Native's brother will become wealthy during that period (i.e. the period of the lord of the third bhava); the Native's father's wealth (i.e. patrimony) will grow in magnitude and the Native's charity will be augmented. If the lord of the ninth bhava is weak, the Native will have misunderstandings with his father. If the lord of the third bhava is, in the Navamsa-Chart, in the sixth, eighth or twelfth amsa-rasi from the amsa rasi or the lord of the ninth bhava in the Navamsa-Chart, results contrary to the results mentioned above should be predicted. If the lord of the third bhava is weak, the Native will have a little wealth; if the lord of the third bhava is associated with a benefic, that period (i.e. the Period of the lord of

the third bhava) will increase his wealth. If, however, the lord of the third bhava is associated with a malefic, the Native's wealth will decrease and the Native's father will suffer from sickness.

- 7) If the lord of the third bhava is situated in the tenth bhava in combination with the lord of the tenth bhava, the daily ablutionary rites will be interrupted, and there will sometimes be impediments to Yagna or sacrificial rites. If the lord of the third bhava is associated with a malefic, the Native will acquire notoriety or ill-reputation, his brother will follow a mean and undignified person occupation and will do despicable and repulsive deeds. If the lord of the third bhava is associated with a benefic, his brother will be engaged in Government duties.
- 8) If the lord of the third bhava is posited, in the eleventh bhava (presumably in combination with the lord of the eleventh bhava), the Native's elder and younger brothers will certainly be very fortunate and prosperous during that Period (i.e. the Period of the lord of the third bhava). The elder brother will have a very good yoga or a very good fortune even from his early age. There will be much gain in business or trade which will go on flourishing very well. The nature of the goods or commodities concerned in the said business or trade should be determined with reference to the nature of the planets and the rasi concerned. If the lord of the third bhava is weak, there will be a little gain and the yoga will be of a moderate nature. If the lord of the third bhava is in the sixth, eighth and twelfth amsa (in the Navamsa Chart), the Native's younger brother will be poor; while his elder brother will be happy. If the lord of the third bhava is situated in a female rasi in combination with female planets, these results must be predicted for the Native's sisters.
- 9) If the lord of the third bhava is posited in the twelfth bhava in combination with the lord of the twelfth bhava and is also weak, the Native's after-born (i.e. younger brothers and sisters) will die in that Period (i.e. the Period of the lord of the third bhava). There will be the fear of enemies. There will be ear-disease; Ear-ornaments will be sold away. The Native will be in a vacillating or wavering mood. These results should be predicted in the Period and sub-periods. If the rasi concerned (i.e. the rasi in which the twelfth bhava with the two lords is) is a movable rasi, the Native's brother will be in a foreign land; if that rasi is a fixed rasi, he will be in a contiguous place. These all to be predicted, if there is an association of other planets effects, attributable to those planets.
- 10) If the lord of the third bhava is posited in the Lagna-bhava in combination with the lord of the first bhava and is also strong, the Native will have increasing yoga (i.e. will be prospering), will be happy

through his musical attainments will be victorious over enemies, will be bold and will have ear rings and ear-ornaments set with precious gems. If the lord of the Lagna-bhava is posited in a female rasi in conjunction with female planets and is also weak, the Native will be or will play the role of a Dev-Dasi or dancing girl and will earn money through this profession; if the Lord of Ascendant is in association with bad or malefic planets, even this profession will be conducted in a despicable manner. If the lord of the third bhava is in the Navamsa-Chart, in the sixth, eighth, or twelfth amsa-rasi from the amsa-rasi of the Lagnathipathi in the Navamsa-Chart, the Native will be engaged in fruitless or unprofitable undertakings requiring much labour but yielding a very small profit.

- 11) If the lord of the third bhava is posited in the second bhava in combination with the lord of the second bhava, the Native's brother will die and the Native's mother will fall ill. If the lord of the third bhava is in his own house with strength (Perhaps when Saturn is having the adjacent Rasis) it may happen that the Native will have to shoulder the burden of maintaining that (i.e. brother's) family; there will be acquisition of wealth to his brother in that Period (i.e. the Period of the lord of the third bhava); if however the lord of the third bhava is weak contrary results should be predicted; if however the lord of the third bhava is situated in the sixth, eighth or twelfth amsa, these Contrary results will not occur, <
- 12) When a particular bhava is under scrutiny, the Position and association of the lords of the other bhavas, must also be added to the effects of the other bhavas and of their lords and must take into account, also the effects of the planets which are aspecting or are in combination with, the such planets.-
 - 1) the planets that are situated in the sixth, eighth and twelfth Rasis from that bhava,
 - 2) the planets that are in the sixth, eighth and twelfth amsa from that bhava or from the lord of that bhava,
 - 3) the planets that are in the Drekkana or Trimsamsa of the lords of the sixth, eighth or twelfth Rasis from that bhava or from the lord of that bhava-all these will produce bad or inauspicious results in their Periods and sub-periods on account of their aspect or combination.
 - 4) If these planets are situated in Trikona or Kendras from that bhava or the lord of that bhava, they will produce good or auspicious results.

Thus, we must ascertain the effects of a Period and include them in the sub-periods of the Period.

Dasa of the lord of the 4th house

Helping relations, promotion of agriculture, company of females, acquisition of vehicles, land, new home, wealth, higher status may all be expected by the native during the progress of the Dasa of the lord of the 4* house.

When the lord of the 4* house is badly posited, he will, during his Dasa, cause distress to the mother (of the native), sickness to his close friends, danger to his lands and property, loss of cattle etc., and danger from water.

4th lord. When the period of the lord of 4* who is strong and well placed progresses, there will be help from relatives and friends, association with famous and learned men, income from agricultural operations, purchase of landed property, house, vehicles, etc. The native will have a higher status in society and if in service, will get a promotion. There will be perfect harmony in domestic affairs, mother's health and affairs will be moving smoothly, educational pursuits will be accomplished and will have enjoyments in short journey and pleasure trips realised.

If the 4* lord is weak, badly placed and afflicted, during its periods, mother will fall ill. There will be domestic quarrels and unhappiness, loss of ancestral property, danger of accidents from vehicles and cattle, removal from the house, wickedness and loss of friends, association with wicked people and loss thereby, quarrels and misunderstandings with relatives, etc. There will be scandals and false accusations against the person.

The Period of the Lord of the Fourth Bhava (from classics)

- 1) If the lord of the fourth bhava is situated in Kendra or Trine or in his Own house with strength, the Native will have education, gain and happiness through lands etc.; agriculture will be profitable to him; he will construct a new house, sink a new well, will plant fruit-bearing trees etc, will have vehicles or conveyances and happiness through mother and will be initiated into learning. If the karaka planet of these several kinds of results or significations is also strong, the Native will have the scope of attaining the signification on a commendable scale.

If however, the lord of the fourth bhava is weak, contrary results must be predicted and the Native's endeavours in these directions will be unproductive of favourable results; if the lord of the fourth bhava has sovereignty over unpropitious bhava also, every result will be of a mixed nature. The effects or signification of the planets that are the

lords of the benefic amsa or benefic Trimsamsa in which the lord of the fourth bhava is situated, should be taken into account and added as results are bound to happen in that Period (i.e. the Period of the lord of the fourth bhava) or in his sub-period.

- 2) If the lord of the fourth bhava is posited in the fifth bhava in combination with the lord of the fifth bhava, or if these planets are in mutual reception (i.e. occupy each other's Rasis), the Native will achieve good reputation in Government; will acquire wealth through education and lands in his father's birth-place; his house will abound in grains and cows; and he will, above all, have the friendship of a dignified person or lord. If the lord of the fifth bhava is strong, the Native will have children in his days of fortune, his children will prosper and he will command much happiness and comfort through his father; if, however, the lord of the fifth bhava is weak, the Native will be poor, but happy in his father's house. If the lord of the fourth bhava is very strong and if the karaka planet also is strong, the Native will certainly have a vehicle (conveyance) which is bedecked or embedded with golden materials and which is a presentation to him by the Government. The nature of the vehicle must be described with reference to the character of the planet or the rasi producing this vehicle-yoga. If the rasi or planet is in movable, the vehicle will be a very costly one, if it is fixed, the vehicle will be a palanquin and if it is dual, the vehicle will be of other kinds. If the lord of the fourth bhava is, in the Navamsa- Chart, in the sixth, eighth or twelfth amsa-rasi from the lord of the fifth bhava in the Navamsa Chart, there will be a set-back to the combination and the vehicle will be one that has been purchased; if the Lord of Ascendant is weak and is posited in a bad bhava, the Native will be in exile as the result of king's wrath, or will have the presentation of a damaged or used transport etc. in a king's court or council. If both the lords of the fourth and fifth bhavas are weak, the Native will get no fortune on account of his enemies even though he has approached the authority, will have no vehicles, will derive no benefits through his witchcraft and he will be unprofitably engaged in sorcery. These results must be predicted during the Period of the lord of the fourth bhava.
- 3) If the lord of the fourth bhava is posited in the sixth bhava in combination with the lord of the sixth bhava and if the karaka-planet also is strong, the Native will, during the Period of the lord of the fourth bhava, have an increased yield from his lands; his mother will be happy; he will also be happy; his assets will prosper; he will thrive well in his education; his vehicles also will thrive well and his maternal uncle will have much happiness. If these planets are weak, the results will be contrary to the results mentioned above, the Native will have a fall from a vehicle,

his mother will become unhealthy, his property etc, will have to be sold away and there will be litigation about lands and interruption in education etc. If they are in the Navamsa-Chart in the sixth, eighth and twelfth amsa from each other, these bad effects will be on a small scale.

- 4) If the lord of the fourth bhava is situated in the seventh bhava in combination with the lord of the seventh bhava, the Native, during that Period (i.e., the Period of the lord of the fourth bhava) will have happiness and comfort in some places in a foreign land, the distances of which must be determined as above (i.e. with reference to the movable or fixed or dual nature of the Rasis); these will happen only if the karaka-planets are powerful, otherwise death may happen (to the Native); there will be no death, if they are in the eighth etc. amsa (i.e. the sixth, eighth or twelfth amsa) from each other in the Navamsa-Chart.
- 5) If the lord of the fourth bhava is posited in the eighth bhava in combination with the lord of the eighth bhava, the Native will experience loss of or damage to lands, vehicles, assets etc; his mother will have sickness; he will have interruptions in education and his house etc will be subject to encumbrances. If these planets are in the eighth etc. amsa (i.e. in the sixth, eighth or twelfth amsa) from each other in the Navamsa Chart these bad effects (i.e. Dosha or evil effects) will certainly be on a small scale. If they are in the same amsa or in their own amsa, then the strength of their amsa, and their associations with planets should be determined and good or bad effects should be predicted accordingly, whether the benefic or malefic planets are more powerful.
- 6) If the lord of the fourth bhava is posited in the ninth bhava in combination with the lord of the ninth bhava and if the karaka-planets also are strong and when the time for realisation approaches,(i.e. in transit)-
 - 1) if Venus is very strong, the Native will enjoy comforts of vehicles or conveyances,
 - 2) if Mars is very strong, the Native will have profits through lands etc,
 - 3) if Mercury is very strong, the Native will have happiness and comforts from education,
 - 4) and if the Moon is very powerful, the Native will get his mother's property and wealth;

thus the results must be divined in every way. If these planets (i.e. the lords of the fourth and the ninth) are strong in their Trikona or Kendra

amsa in the Navamsa Chart, the results must be predicted on a greater scale. If they are in the eighth etc. (i.e. the sixth, eighth or the twelfth) amsa from each other in Navamsa Chart or if they are weak, the results will be on a very small scale.

- 7) If the lord of the fourth bhava is posited in the tenth bhava in combination with the lord of the tenth bhava and in association with benefic planets, the Native will become a king or an emperor or a minister, or an important person or one who is honoured and respected by the authority. If the karaka-planets are strong, the Native will have prospering vehicles or conveyances or wealth. The results will occur in that Period and bhuktis (i.e. in the Period of the lord of the fourth bhava and his and their sub-period). If the strength of the planet (i.e. of the lord of the fourth bhava) is a little less, the effects also will be a little less. Yagna, ceremonials or rites etc. should be predicted with reference to Jupiter. In some places, the Native may have some promotions in employment or some profits in his business or trade. If the lord of the fourth bhava has also the lordship over the eleventh bhava (i.e., as in the cases of Venus for Cancer Lagna or Mars in the case of Capricorn Lagna) there will be an acquisition of wealth through trade. If the planet is weak the results (i.e. good results) will be on a very little scale. If the planet is situated in the eighth etc. amsa (i.e. the lord of the fourth bhava) is in the Navamsa Chart in the sixth, eighth or twelfth rasi from the amsa-rasi of the lord of the tenth bhava in the Navamsa Chart, there will not be even this result on a very little scale.
- 8) If the lord of the fourth bhava is posited in the eleventh bhava in combination with the lord of the eleventh bhava, the Native will get profits easily and comfortably. If there is an association of benefic (i.e. with the lord of the fourth bhava, the profits will be on a larger scale. The Native will always have gains through things or persons of the colour of the planets concerned. If the planets are weak, the Native will have a little gain. If the planets (i.e., the lords of the fourth and eleventh bhavas) are in the eighth etc., amsa (i.e. in the sixth, eighth and twelfth Rasis from each other in the Navamsa Chart) and are also in combination with or are aspected by malefic, the results (i.e. good results) will not occur. During that Period (i.e., the Period of the lord of the fourth bhava), the Native's elder brother will have happiness and comforts and if there is a yoga for realisation, the Native will acquire wealth etc. through his elder brother.
- 9) If the lord of the fourth bhava is posited in the twelfth bhava in combination with the lord of the twelfth bhava, and if the karaka-planets are weak, that Period (i.e. the Period of the lord of the fourth

bhava) will do harm to the mother of the Native, to his assets and fields, to his education by causing interruptions and will cause unhappiness and mental worry to himself and diseases to his animals or damage to vehicles etc. If the lord of the fourth bhava is in the eighth etc., amsa (i.e., in the sixth, eighth and twelfth Rasis in the Navamsa Chart from the amsa-rasi of the lord of the twelfth bhava in the Navamsa Chart), the Native will have a little happiness and comfort; if he is in his exaltation or own house, the Native will have happiness and comfort; if he is in combination with malefic, the results will be bad and if he is in combination with benefic, the result will be good and the Native will have sickness sometimes in the Period or sub-periods of malefic.

- 10) If the lord of the fourth bhava is posited in the Lagna-bhava in combination with Lord of Ascendant or with the **Lagna-Amsa** Lord and if the Lagna Rasi-Lord is friendly to him (i.e. the lord of the fourth bhava), if the benefic Bhava lords are friendly to him (i.e., the lord of the fourth bhava) and if the karaka-planets are strong, the Native will have vehicles or conveyances etc.

If the Sun is situated in his exaltation or **rasi-amsa**, the Native will have much knowledge of his own self or Soul (i.e., ATMA Gñanam) and his father will be happy, healthy and physically strong.

If the Moon is situated likewise (i.e. in his exaltation or rasi-amsa), the Native will enjoy the pleasures of good meals etc.

If Mars is situated likewise, the Native will acquire lands, house, gardens or monuments and will achieve success in literary controversies or discussion or dissertations.

If Mercury is situated likewise, the Native will have high education and attainments and his maternal uncle will be happy and prosperous.

If Jupiter is likewise situated, the Native will be pure in heart and mind will be honest.

If Venus is situated likewise, the Native will have vehicles or conveyances, comfort and happiness, will get ornaments and silk apparels etc. and will have a delicious food with good fruits.

- If Saturn is situated likewise, the Native will be cunning and will be addicted to double-dealing etc.

If all the planets are strong, the above-mentioned results would happen, if they are weak, these results also will happen on a small scale.

If the planets are in the eighth etc., amsa from each other in the Navamsa Chart the results will be on a small scale. If the planets are powerless, the results will be very little. Everything must be predicted with wisdom.

- 11) If the lord of the fourth bhava is situated in the second bhava in combination with the lord of the second bhava and is also situated in his exaltation or friendly etc. amsa, the Native will have the above mentioned happiness and good results in that Period (i.e. the Period of the lord of the fourth bhava), his family will be happy, he will have happiness through his wife, he will always be cheerful and comfortable and his words will be valued and respected certainly in that Period. If there is an association of malefic, these results will be less; if the planet (i.e., the lord of the fourth bhava) is weak, the results will be the same (i.e. will be less).
- 12) If the lord of the fourth bhava is posited in the third bhava in combination with the lord of the third bhava and if the karaka-planets are strong, " the Native will have a very little result everywhere; if the lord of the fourth bhava is weak the Native will certainly have loss of his lands etc. If the lord of the fourth bhava is in his exaltation or in AAROHA or in his own house or is associated with benefic or is in the same amsa, the results pertaining to education, Vehicles (conveyances), lands etc. and the results mentioned above will occur on a small scale.
- 13) If the planet (i.e. the lord of the fourth bhava) is in the twelfth bhava from a particular bhava, the Native will have good and bad results (in respect of that particular bhava). If he is in the sixth, eighth, and twelfth amsa, the Native will have unpropitious results and will have also profits. When the planet has strength derived from the eight factors (mentioned previously), the results will be auspicious and when the strength derived from these eight factors is less, the results also will be less favourable.

Thus, the results of the Period should first be determined and then results of the several sub-period should be predicted with reference to the 'nature and significations of the planets that are in combination with or that aspect the lord of the fourth bhava.

Dasa of the lord of the 5th house,

During the ripening of the Dasa of the lord of the 5* house, the native will be blessed with the birth of a son, pleasure in the company of relations or the post of an adviser or minister of the ruler. He himself will enjoy all kinds of delicacies and feed others in plenty. His meritorious acts will earn him approbation of the noble and virtuous people.

Should the lord of the 5* house be weak, the native will lose a son during his Dasa. He will suffer from mental aberration, deception, tiresome journeys and roaming about, ailments of the stomach, wrath of the ruler and physical weakness.

5th lord. During the period of the lord of 5* who is strong and well placed, there will be birth of children and merriment in the family. The native will be famous, may get appointed as a counsellor or adviser to the State or become a minister. He will do virtuous deeds, become popular and be happy.

If the lord of 5* is weak, badly placed or afflicted, there will be wickedness or death of children, aberration of mind through deception, scandals, wanderings, diseases of the stomach, etc. He will do wicked acts and will despise elders, superiors, learned men and preceptors. He will behave unwisely, lose reputation and become materialistic.

The Period of the Lord of the Fifth Bhava (from classics)

- 1) If the lord of the fifth bhava is posited in his own house or in his own Navamsa or in his own exaltation rasi with strength, the Native will be blessed with many children during his Period, If there is an association of benefic planets with him, the Native will be a dignified person or will have many children. If the fifth bhava-lord is in the Navamsa Chart, in the eighth rasi or amsa from the Lagna-Navamsa or from the Lagna-Navamsa Lord, in the Navamsa-Chart the Native's children will become his enemies during its Period. During the period when the Native is bound to have good results, he will have happiness and favourable results through his children.
- 2) If the lord of the fifth bhava is posited in the sixth bhava in combination with the lord of the sixth bhava, the Native's maternal uncle will have very good yoga (i.e. will be very prosperous), during that period (i.e. the period of the lord of the fifth bhava) the native will be famous and influential with the Government, will have happiness through the king and his minister; if, however, the lord of the fifth bhava is in the Navamsa-Chart in the eighth etc (i.e. 6th, 8* or the 12th) amsa rasi from the lord of the sixth bhava in the Navamsa-Chart, the benefic yoga will be destroyed and bad effects and king's disfavour and displeasure etc., will be the result. If the lord of the fifth bhava is weak the results will be a little favourable, and if he is powerful, the results will be favourable as set forth above.
- 3) If the lord of the fifth bhava is posited in the seventh bhava in combination with the lord of the seventh bhava and an benefic, the Native's son will go to a foreign land during the period of the fifth

bhava-Lord and the Native will acquire wealth through this son; and during this period, the father-in-law of the Native will attain dignity and power, a marriage will take place in the Native's family, the Native's son will pass through a beneficial ceremony. The Native will attend a feast to Brahmins etc. will have divine grace and will attend pleasant and happy functions and recreations. If the lord of the fifth bhava is weak and is in the same amsa or rasi in the Navamsa Chart, there will be danger or sickness to his children. If the lord of the fifth bhava is, in the Navamsa-Chart, in the eighth etc. amsa (i.e. sixth, eighth or twelfth) amsa-rasi from the lord of the seventh bhava in the Navamsa-Chart this result will not happen.

- 4) If the lord of the fifth bhava is in the eighth bhava in combination with the lord of the eighth bhava, the Native's children will have danger to their lives. The Native will beget children that will die soon, will incur the displeasure of dignified person or the enmity of his father or his guardian-deity or his mantras will become spoiled or ineffective. If the lord of the fifth bhava is weak and is associated with malefic, these effects will not happen. If the lord of the fifth bhava is posited in the twelfth, eighth or sixth amsa or rasi in the Navamsa-Chart in conjunction with benefic, the unpropitious effects will be minimised.
- 5) If the lord of the fifth bhava is posited in the ninth bhava in combination with the ninth bhava-lord and if the lord of the first bhava is weak, the Native will derive happiness and comfort in his youth through his father and his father's wealth will increase. During the period of the lord of the fifth bhava, the Native will achieve the position and dignity of a dignified person and his father will certainly have the favour of his king and his minister and the public or the Native will earn wealth through the help of a entrepreneur and will finally acquire and enjoy very much wealth through his son. If the lord of the firth bhava is posited in the eighth etc. amsa (i.e. sixth, eighth and twelfth amsa-Rasis in the Navamsa Charts), the Native will have these results in a small scale but, if the lord of the fifth bhava is powerless, these good results will not occur. If the lord of the fifth bhava is strong, the Native will sometimes acquire a fortune through divine help (As the 5th house indicates God's grace).

If the lord of the fifth bhava is Mars or is situated in Mar's rasi, the Native will have fortunate results or wealth through his village deity,

If the lord of the fifth bhava is the Sun or is situated in the Sun's rasi, the Native will be employed in a temple as a clerk,

If the lord of the fifth bhava is the Moon or is in the Moon's rasi, the Native will be a treasurer, financial consultant,

If the lord of the fifth bhava is Mercury or is posited in Mercury's rasi, the Native will be an official in a court of law,

If the lord of the fifth bhava is Jupiter or is situated in Jupiter's rasi, the Native will be the head of a charitable institution,

If the lord of the fifth bhava is Venus or is in the rasi of Venus, the Native will have dancing girls in his hotels, and

If the lord of the fifth bhava is Saturn or is in Saturn's rasi, the Native will be employed administrator as one who is charged with the duty or power of inflicting punishment.

Thus, one should predict events with reference to the nature or characteristics of planets with the help of his intelligence and experience.

If the planet in question is Jupiter, the Native will earn money through his employment and if this planet is Venus, the source of his income will be music or dance or art. Thus the source or income should be determined intelligently with reference to the qualities of the planets.

6) If the lord of the fifth bhava is posited in the tenth bhava in combination with the lord of the tenth bhava or is situated in the Lagna or is in conjunction with the lord of the Lagna or is in the **Lagna-Navamsa** in the Navamsa-Chart, the Native will surely acquire a high status during the period and sub-period of the lord of the fifth bhava and will ascend a good authoritative post; if the lord of the fifth bhava in such position is exalted and has a varga position, the Native or his son will have influence over many countries. If however, the Lord of Ascendant, in such a yoga is powerless, the native will have an ascetic yoga and will become the head of a mutt.

If the Lord of Ascendant, in such a yoga, is posited in the eleventh bhava with his strength, the Native will become a rich boss through business. When, the lord of the second bhava is placed in his **Parama-Ucha** portion (i.e. exaltation point) in the 11th house, the Native will have unlimited profit through trade or royal status. If the lord of the second bhava is in a watery rasi or in a movable rasi in such a yoga, the Native will amass immense wealth through sea-trade;

If, however, the lord of the fifth bhava is in the eighth etc. amsa (i.e. 6th, 8th, 12th amsa Rasi in Navamsa chart w.r.t. lord of tenth Bhava) and is also weak, the effects will be those attributed to weak planets and will be according to the nature of these weak planets as described already.

In the planetary yogas for trade, the commodities of the trade will be in accordance with the nature of the planets, bhavas (i.e. the goods will be such as are ruled over by the bhava of the planets). If the

planets have control over juicy substances, the articles of trade will be sugar etc; if the planets have control over perfumes, the articles will be musk, etc. Thus the articles of trade must be determined with reference to the nature of the planets and the articles that they rule over; in the case of a yoga for appointment or post, the nature of the appointment or post, should be predicted with reference to the nature of the planets involved and of the planets that are in association with them.

If the tenth bhava is strong, the effects must be predicted with reference to four ways of earning livelihood and wealth, i.e. 1) sovereignty; 2) appointment, 3) trade, 4) agriculture. These become varied and multiplied very much according to the position and strength of the planets and the planets that are associated with them.

- 7) If the lord of the fifth bhava is posited in the eleventh bhava in combination with the lord of the eleventh bhava, the Native will acquire wealth through his son or a dignified person or his brother. Here the caste or sex of the dignified person has to be determined from the nature of the planet that is the lord of the eleventh bhava, if this planet i.e. lord of the eleventh house, is Jupiter, the dignified person will be a Brahman; if it is Venus, the dignified person will be a female; if it is the Sun, the dignified person will be a king; if it is Mercury, the dignified person will be a businessman; if it is Mars, the dignified person will be a administrator; if it is the Moon, the dignified person will be a trader; if it is Saturn, the dignified person will be a low caste or a Mlecha or a Chandala, These planets will cause troubles as the result of their being the owners of malefic bhavas.

The learned should take into his consideration the favourable or unfavourable tendencies of the planets and predict their influences and effects. An association of benefic will produce favourable and propitious results and the association of malefic will cause malevolent and unpropitious results.

- 8) If the lord of the fifth bhava is posited in the twelfth bhava in combination with the lord of the twelfth bhava during the time for the fruition of the yoga for diseases, the Native will have old age problems, mental aberration, wanderings of mind etc. During this period, the Native will be afflicted with idiocy, imbecility, jaundice and other diseases which are caused by an excess of bile. His father will become sickly, his children will have trouble and danger to their lives and he (Native) will be mentally worried, unhappy and gloomy and will incur the displeasure of his dignified person. If there is an association of a benefic planet, he will be progressing in his philosophical and metaphysical studies and will display more and more of his renunciation of worldly matters and

affairs and pleasures; he will have the comforts of the bed and will spend his income in good and commendable ways. If there is an association of malefic planets, the expenditure will be in bad and objectionable ways and if there is Mixed (i.e., mixed) association of benefic and malefic planets, the expenditure will be on account of good and bad ways. If, in the above mentioned yoga, the Lord of Ascendant (lord of the Ascendant) is weak, the Native will be poor and will be roaming about in distant places and will be tossed about without corresponding benefit.

- 9) If the lord of the fifth bhava is posited in the first bhava with the Lord of Ascendant and with the association of a benefic planet, the Native will become the leader of men during the period of the lord of the fifth bhava, will become the leading person of his community and in family. He will be blessed with the acquisition of wealth, conveyances, etc., will undergo adoption in his youth and will have a few children. If the lord of the fifth bhava is posited in the Navamsa-Chart in the eighth etc. amsa (in , the sixth, eighth and twelfth amsa -Rasis from the lord of the Lagna in the Navamsa-Chart) and is also weak, the Native will approach a very low status dignified person or government employee, will undergo no adoption and will not himself attain the status of a dignified person; if, however, there is the association of a benefic planet, the Native will make friends with dignified persons, will have the favour of kings, acquisition of wealth, and fruition of witch-crafts, and godly grace; if there is a yoga for asceticism or Sanyasa, the Native will become the head of a mutt with numerous disciples in attendance and persons offering him their presents; if however this planet (i.e., the lord of the fifth bhava) is weak, the Native will have a few and low disciples with small presents from devotees .
- 10) If the lord of the fifth bhava is posited in the second bhava in combination with the lord of the second bhava the members of the Native's family will be happy and comfortable, the Native will enjoy a good and sumptuous meal, his sayings or predictions will be fulfilled by the grace of God and he will some-times acquire wealth; if the lord of the fifth bhava is devoid of strength, these results will be on a very small scale; and these also will be the results if the lord of the fifth bhava is in the eighth etc. amsa (i.e., is in the Navamsa-Chart in the sixth, eighth or twelfth amsa or rasi from the lord of the second bhava in the Navamsa-Chart).
- 11) If the lord of the fifth bhava is posited in the third bhava in combination with the lord of the third bhava, the Native will have a child during the period and sub-period of the lord of the fifth bhava; his brother will become famous and he himself will become a very great man during

the period, if it occurs in the early part of his life; he will have ear-ornaments, will have peace and happiness of mind, courage, and strength of body; if however, the lord of the fifth bhava is weak, the Native will become weak in body, and this also will be the result of the lord of the fifth bhava if situated in the eighth etc. amsa (i.e. in the sixth, eighth and twelfth amsa or Rasis in the Navamsa-Chart from the lord of the third bhava in the Navamsa-Chart).

- 12) If the lord of the fifth bhava is situated in the fourth bhava in combination with its lord, the Native will, always enjoy comforts of conveyances etc., will, enjoy comforts and happiness through a industrialist, will have presents from kings and will be acquiring wealth and Vehicles on an increasing scale. If however, the lord of the fifth bhava is weak, the Native will be afflicted with loss of children. He will be a teacher to a dignified person who will go to his house for instruction, will obtain lands through a dignified person, and will also sometimes get Vehicles. If the lord of the fifth bhava is weak, the results will be on a small scale in general. If however, the lord of the fifth bhava is in the eighth etc. amsa (i.e. in the sixth, eighth and twelfth amsa or Rasis in the Navamsa-Chart from the lord of the fourth bhava in the Navamsa-Chart), the Native will not have even these small beneficial results. If, however, there is an association of benefic planets, the Native will become the king of many countries; will have much benefits through his high education and many Vehicles (conveyances). If, however the lord of the fifth bhava, is weak, these results will be on a very little scale, and the Native will be the king of a small country; and if there is a Raja yoga, the Native will have a very large, spacious and high palace etc. The learned should predict the various events by taking into account the nature, strength etc., of the planets involved and the nature of the sub-periods concerned and also the positions of the planets at birth and at the period covered by the prediction (i.e. during the Transit).

Dasa of the lord of the 6th house

During the progress of the Dasa of the lord of the 6* house, the native could destroy all his enemies, by show of his strength; enjoy perfect wealth, be liberal minded, will be very powerful and be blessed with splendour and affluence.

If the lord of the 6* house is weak, during his Dasa period, the native will suffer at the hands of the thieves, from many reverses, defeat, subjugation and many diseases. He will perform evil deeds and servile duties. He will be despised and defamed and receive wounds.

6th lord. During the periods of the lord of 6* who is strong and well placed, the native will defeat his enemies, succeed in litigation, clear off

debts, will be free from ailments, do daring acts, become liberal, powerful and will live in all splendour and prosperity.

If the lord of 6* is weak, badly placed or afflicted, during his periods, there will be misunderstandings with maternal uncles, Bad health or death to them, Bad health to the native, incurring of debts, litigations and failure in them, loss of property, defeat at the hands of enemies, etc. He will do wicked acts and even suffer imprisonment or punishment, danger from weapons and wounds is also possible.

The Period of the Lord of the Sixth Bhava (from classics)

- 1) If the lord of the sixth bhava is posited in the sixth bhava in combination with benefic planets, the Native will always enjoy comforts and happiness during the period of the lord of the sixth bhava. The effects at the commencement of the period will be in conformity with the nature or attribute of the planets that are in conjunction with the lord of the sixth bhava. The effects will be unfavourable to this bhava during the sub-periods of the planets that are in combination with the lord of the sixth bhava and during the sub-periods of the other planets the period will produce comforts, happiness, acquisition of wealth, accomplishment of purpose or objects, fruition of endeavours and relief from the troubles and annoyances caused by enemies, greater income from lands, crops and Vehicles and also wearing apparels etc.

If the lord of the sixth bhava is weak, the results of the period will be poor or very meagre. If the lord of the sixth bhava is in conjunction with the lord of the eighth or twelfth bhava, the period will yield much wealth throughout its period and will produce happiness. If the Lord of the sixth bhava is in the Kendra or Trikona amsa, the period will produce troubles from enemies etc. If the lord of the sixth bhava is in the sixth, eighth and twelfth amsa, the period will yield mixed results.

- 2) If the lord of the sixth bhava is posited in the seventh bhava in combination with the lord of the seventh bhava, the Native's wife will sometimes have bad health; he will sometimes have happiness, relief from enemies in foreign places, interruption to auspicious ceremonies and realisation of good results. He is likely to have sickness either to himself or his wife and will have estrangement of feelings with his wife. These results will happen during the period and sub-period of these planets. If the Lagna Lord is weak in association with malefic, the Native will be unhealthy, will have troubles from his enemies, will incur displeasure, will receive blows, will contract debts, and will sustain bodily injuries, and loss of women. If the Lord of the sixth bhava is in the eighth etc. (i.e. 8*, 12* and 6th) amsa, the Native will have no misunderstanding with his wife. If the karaka of the seventh bhava is

posited in the Kendra and Trikona amsa in conjunction with Rahu, the Native's wife will be subjected to calumny and slander and will be pointed out by the finger of scorn. If this karaka is weak and is situated in Pisces sign, the Native will certainly marry for the second time due to misunderstanding with the first wife. If Venus, posited in the rasi of Mars or Saturn, is associated with or aspected by these planets, the Native will enjoy many women as the result of his quarrels with his wife. If the lord of the sixth bhava is in combination with the lord of the second house, the period of the lord of the sixth bhava will bring about the death of the Native during its currency.

Thus, the effects of the lord of the sixth bhava should be decided with reference to the house position and planetary association, when the lord of the sixth bhava is situated in other bhavas.

- 3) If the lord of the sixth bhava is posited in the eighth bhava in combination with or aspect of, benefic planets, the lord of the sixth bhava will produce benevolent results during the sub-periods of these benefic. If the lord of the sixth bhava is situated in the Lagna, sixth and eighth houses, he will cause terrible and serious diseases and will also cause poverty and affliction from enemies during the sub-period of the Lord of Ascendant etc.

If he is posited in the sixth, eighth and twelfth amsa and if the Lord of Ascendant occupies benefic amsa, diseases will be cured and troubles from enemies will be obviated. If the lord of the sixth bhava is in combination with the Lord of Ascendant in the rasi Chart or amsa Chart, the Native will certainly never be extricated from the cruel clutches of his enemies and diseases. The planet that is associated with the lord of the sixth bhava in the eighth bhava will cause death or sickness to the Native during its sub-period.

- 4) If the lord of the sixth bhava is posited in the ninth bhava in combination with malefic and if the karaka of the ninth bhava is strong, the father of the Native will have troubles from his enemies and diseases; the Native's enemies will grow in number and strength; his patrimony will deteriorate and his ancestral customs and honours will decline during the period and sub-period. If the lord of the sixth bhava is in conjunction with the karaka of the ninth bhava, his father will die.

If the lord of the ninth bhava is in combination with the karaka of 9th house in the eighth bhava and if the lord of the sixth bhava is associated with or aspected by the lord of the eighth bhava even in the ninth bhava, the Native's father will die before his birth; the death of the father should be determined with reference to such yogas. If the lord of the seventh bhava also is associated in such yoga, the father will meet

with death in a foreign place. If the lord of the ninth bhava is combined with the lord of the sixth bhava only, the Native and his father will not freely associate (be rather inimical) with each other.

- 5) If the lord of the sixth bhava is posited in the tenth bhava in combination with the lord of the tenth bhava, the Native will have to face interruption in his daily duties and will do detestable deeds. His avocation, will be of a disgraceful character; he will have king's or state's displeasure; will run into ignominy and his mother will fall sick during her conception. If the Moon is conjunction with Rahu, his mother will contract disease and if these planets are however in the sixth, eighth and twelfth amsa with benefic, his mother's sickness will be of a moderate degree; good results will ensue during the period of a benefic and bad results will follow during the period of a malefic and all these results will be in accordance with the characteristics of the planets concerned.
- 6) If the lord of the sixth bhava is posited in the eleventh bhava in combination with the lord of the eleventh bhava, the lord of the sixth bhava will prove detrimental to the means of gains during his period and sub-period; if he is in association with a benefic, the Native may have gains sometimes through his maternal uncle and he may sometimes have misunderstandings with his elder brother. If the lord of the sixth bhava is situated in the eighth etc. (i.e., eighth, twelfth and sixth) amsa, the results will be quite contrary to those recited above. If the Lagna Lord is strong, the Native will score victory over his enemies. The result must be inferred always with reference to the nature, house-position and association of the planets.
- 7) If the lord of the sixth bhava is posited in the twelfth house in combination with the lord of the twelfth bhava, the Native's enemy will be ruined and the Native will sometimes commit misdeeds or wickedness during the commencement of the period of the Lord of 6th house. This Lord of 6* house will produce sickness and evil during the sub-period of the planet, with whom he is conjoined in the twelfth bhava.

The period of the lord of the sixth bhava, if he is combined with a benefic, will mostly produce good fortune. If the Lord of 6* house is situated in the eighth etc., (i.e., eighth, twelfth and sixth) amsa, the result will be poor; but the result will be fully favourable, if he is posited in Trikona amsa.

- 8) If the lord of the sixth bhava is posited in Lagna in combination with the Lord of Ascendant, the Native will suffer from diseases during the period of the Lord of 6* house, and he will have deformities, sores in his mouth and also troubles from kings. If Rahu is in conjunction with Lord of 6th house, the Native will be troubled by thieves and will be

handcuffed through thieves. If the Sun and the Moon are devoid of power, the Native will undergo problems as the result of his poverty. If Lord of 6th house is posited in the sixth, eighth and twelfth amsa and if the Lord of Ascendant is situated in his own amsa in combination with benefic, the effects described above will surely be of a moderate degree. If the Lord of Ascendant is in combination with the lords of the sixth, eighth and twelfth bhavas, he will cause leprosy. If the Lord of Ascendant is situated close to the *Lagna-bhava* or *Lagna-amsa*, the period of the Lord of 6th house will cause troubles from foes, disease and, penury in a gradually increasing degree, without causing relief from them or death.

- 9) If the lord of the sixth bhava is posited in the second bhava in combination with the lord of the second bhava, the Native will experience quarrels daily in his house, will have misunderstandings with the members of his family, untimely meals, expenditure through enemies, tooth-ache, sore eye, ulcers, wounds etc. If a benefic planet is combination with the Lord of 6th house, the native will sometimes have happiness and comfort, and will sometimes incur expenditure on account of wounds and ulcers: if the Lord of 6th house is in conjunction with both benefic and malefic planets, these results will be of a mixed nature; if the Lord of 6th house is in combination with malefic, the results will always be good. If the *Lagna* Lord is in conjunction with Lord of 6th house, in second house, the period of the Lord of 6th house will cause death to the Native in the sub-period of the Lord of Ascendant and bad results will be produced during the boyhood of the Native.
- 10) If the lord of the sixth bhava is posited in the third bhava in combination with the lord of third bhava, the Native's brother will become his enemy; the Native will suffer from ear-ache and Ear-disease etc., will incur expenditure on account of his enemies and will sometimes have a terrible hissing or singing sound in his ears and will some-times be dejected or disheartened. If the Lord of 6th house is associated with benefic, the Native will have a mixture of good and bad results. If the Lord of 6th house is posited in the eighth etc. (i.e. eighth, twelfth and sixth) amsa, the results will be of a mixed nature i.e., both good and bad). If 6th lord is in the Kendra and trikona amsa, the results will be of the same nature as described already above (i.e. shall be bad). If the Karaka (i.e., Karaka for the third house i.e., Mars) is weak, the Native's brother will have sickness. If Lord of 6th house is in combination with a Maraka planet (i.e. death-inflicting planet), the lord of the sixth bhava will cause death during his period.
- 11) If the lord of the sixth bhava is posited in the fourth bhava and if the Moon is in combination with Rahu, the Native's mother will be morally

substandard and will become sickly in her old age; if then, Mars is weak, his lands will be misappropriated by his enemies; if then Mercury is weak, his education will have interruptions; if then Venus is devoid of strength, the Native will have troubles from Vehicles (i.e. conveyances).

If the lord of the fourth bhava is strong, the Native, if a woman, will surely have widowhood. If the lord of the sixth bhava and the Lord of Ascendant are inimical to each other or in the 6* & 8th positions from each, the Native's mother will be an abandoned woman. If there is a combination of benefic, the results will be of a mixed nature, if benefices are in combination with the lord of the sixth bhava, the results will be mixed; and if there is a combination of the malefic with the lord of the sixth bhava, the results will be of a different nature and there will be loss of assets and crops and agriculture will be an unprofitable concern.

- 12) If the lord of the sixth bhava is posited in the fifth bhava in combination with the lord of the fifth bhava the Native will make enemies of his dignified persons and either of his sons or father; his sons will either fall ill or meet with impediments in their career; the Native will have interruptions in the performance of Japa and worship of his deity, will get himself entangled in unnecessary and unprofitable controversies or disputations. If the Lord of 6* house is situated in the eighth etc. (i.e. eighth, twelfth and sixth) amsa, the results will be poor; if there is a conjunction of benefic planets with the Lord of 6* house, the results will be of a mixed nature; if there is a conjunction of malefic planets, the Native will either lose children or will sometimes have no children at all.
- 13) If the lord of the sixth bhava is posited in Kendra and Trikona houses and if the Lord of Ascendant is devoid of strength, the Native will have the combination of being imprisoned and handcuffed and will be afraid of Government. The cause for being handcuffed will be determined with reference to the planets that are in conjunction with, or in aspect of, the Lord of 6* house and that are the owners of the house occupied by the Lord of 6th house. If the lord of the sixth bhava and the first bhava are in combination with each other in a house, the nature of the disease, enemy and death that the Native may have, has to be determined with reference to the position of the planet, that owns the house occupied by the Lord of Ascendant and Lord of 6* house together. The Native will experience difficulties during the sub-period of the planets that are in association with the Lord of 6* house.

If malefic are in association with Lord of 6* house and if Lord of 6* house is hemmed in between malefic in Transit, the significations of the bhava, in which the malefic are in Transit, will suffer deterioration

or destruction quickly. If these malefic are in Lagna during Transit, the Native will have illness; similarly other combinations are to be assessed.

Dasa of the lord of the 7th house

In the ripening of the Dasa of the lord of the 7* house, the native acquires new clothes, jewels, new bed etc. He will be happy and enjoy all pleasures in the company of his beloved. He will be very powerful and virile. Will perform many auspicious and benevolent festivities like marriages in the family and undertake many pleasure trips to various places.

During the Dasa period of the lord of the 7* house, if he is weak, the son-in-law of the native will find himself in trouble, the native will suffer separation from his wife, come by something untoward through the opposite sex. He will have unnatural relation with immoral women, and develop infection in his private parts and be a wanderer.

7th lord. If the lord of 7* is powerful and well placed, during his periods the native will marry, go on pleasure trips and journeys, will acquire articles of luxury and comfort, jewels, bedroom requisites etc. He will enjoy pleasures and happiness in the company of beloved ones and will be respected and liked by relatives.

If the lord of 7* is weak, badly placed or afflicted, during his periods there will be quarrels and separation from beloved, Bad health or death of wife, deception through opposite sex and loss thereby, intrigues with wicked women, scandals and disgrace and he may even suffer from venereal diseases, undertake long journeys and suffer financial loss, etc.

The Period of the Lord of the Seventh Bhava (House) (from classics)

- 1) If the lord of the seventh bhava is posited in the seventh bhava in combination with benefic, the Native will be married in youth and his wife will belong to a rich and wealthy family, and will be fair, virtuous, and attached to her husband. The Native's marriage will be performed on a grand scale with much decorum and accompanied with various kinds of music. During the period of the Lord of 7* house, the Native will perform auspicious ceremonies, will receive many friends and relatives, will sometimes live in a foreign land and will acquire wealth through the help of a dignified person and his household will always be graced with auspicious occurrences. If the Lord of 7th house is associated with a malefic, death may be caused.

The effects of the planets, that are associated with the Lord of 7* house should be included when one makes a prediction of the events of a sub-period. If the Lord of 7th house is powerless, the effects will be poor and unfavourable. If the Lord of 7th house is posited in the sixth, eighth and twelfth amsa the Native will be married very late in

life or his wife will die soon. The wife will die in the period or sub-period of the Lord of 7th house or she will become inimical to her husband.

- 2) If the lord of the seventh bhava is posited in the eighth bhava in combination with a malefic and if the karaka planet is weak, the period and sub-period of the Lord of 7* house will produce no good results, will cause the death of the wife of the Native or his own "death, or will cause serious and acute diseases through women. The native will be miserable and in troublesome state in foreign residence through women. If the, Lord of 7* house is situated in the eighth etc. (i.e. sixth, eighth and twelfth) amsa, these bad results will not happen.
- 3) If the lord of the seventh bhava is posited in the ninth bhava in combination with benefic planets, the Native will get his wife's property, will be happy throughout his life time, will acquire the unlimited wealth of his father, who has gone to a foreign place and the Native will some-times may take up a pious and harmless profession in a foreign place. The planets that are associated with the Lord of 7* house should be scrutinized properly and then only predict the events of the Native's life. If the Lord of 7* house is weak, the results will be poor. If the Lord of 7* house is situated in the eighth etc. (i.e. sixth, eighth and twelfth) amsa, auspicious results will not happen.
- 4) If the lord of the seventh bhava is posited in the tenth bhava in combination with the lord of the tenth bhava, the Native will acquire much name and fame in a foreign place, and will perform charitable and religious deeds etc., His wife will be virtuous and his words or orders will be highly respected and obeyed. If the Lord of 10* house is weak, then the results will certainly be poor.

If the Lord of Ascendant is in combination with the benefic and the lord of the sixth bhava, (when 7* lord is placed in 10* house along With 10* lord) the Native will be the commander of an army, a good horse-rider, will travel from place to place, will conquer his enemies and will thereby achieve much reputation. He will die in battle-field, if there is an Mrithyu yoga then (i.e. a death-producing; yoga) during the said Period.

- 5) If the lord of the seventh bhava is posited in the eleventh bhava in combination with benefic and if the Lord of 7* house is in his highest exaltation point, the Native will have much profit in foreign lands; if the Lord of 7* house is weak, the gains will be very meagre; if the Lord of 7* house is combination with malefic, the results will be different.
- 6) If the lord of the seventh bhava is posited in the twelfth bhava in combination with the lord of the twelfth bhava and if Venus is weak,

the Native's wife will have danger to her life and the Native will experience interruptions in sexual felicity. If, in this yoga, malefic are in combination with the Lord of 7th house, these results will certainly follow on a large scale and if benefic are in combination, these results will be in a moderate degree and the Native will sometimes have foreign residence.

- 7) If the lord of the seventh bhava is posited in the Lagna bhava in combination with the lord of the Lagna bhava, the Native will live in a foreign place and will have happiness there. His wife will be the mistress of the household and will run family herself and the Native will be having frequent visits to foreign places. If benefic are in combination in this yoga, the Native will be a sailor or the captain of a crew; if, however, malefic are in combination in this yoga, the Native will be a beggar and will be always begging; if there is a combination of benefice and malefic, the results will be of a Mixed nature. If the Lord of Ascendant is weak, the period of the lord of the seventh bhava will cause death. If the Lord of 7th house is weak or is posited in the eighth etc. (i.e. sixth, eighth or twelfth) amsa, the foreign travel will be in vain or fruitless or the results will be contrary to those mentioned above.
- 8) If the lord of the seventh bhava is posited in the second bhava in combination with the lord of the second bhava, the Native will sometimes have acquisition of wealth through his wife, will get money from a distant place and during the period of the Lord of 7* house, death will happen either to him or to his wife or he will be separated from his wife in a distant place or will acquire a new wife in a distant place. If the Lord of 7* house is in the eighth amsa, his wife will not die and if the period of death runs actually, his sister only will die; you will have to take into account the effects of the planets in association, while making predictions.
- 9) If the lord of the seventh bhava is posited in the third bhava in combination with the lord of the third bhava, the Native's father-in-law and his people will be prosperous during the period of the Lord of 7th house or the Native will have another marriage in the said period, or his brother will die. The Native will reside in a foreign place during the sub-period of the lord of the third bhava. If there is a combination of benefic, the brother will sometimes be happy; if there is a combination of malefic, the brother will die. If the Lord of 7* house is posited in the eighth etc. (i.e. sixth, eighth and twelfth) amsa, these above mentioned results will not occur.
- 10) If the lord of the seventh bhava is posited in the fourth bhava in combination with the lord of the fourth bhava, the Native will enjoy

happiness through his wife's people and will be always moving about in connection with lands. The native will perform marriage in the commencement of the period of the Lord of 7th house, will have conjugal felicity and will acquire wealth or conveyance in a distant place through his learning and his mother will fall ill or die at that time.

If the Lord of 7th house is devoid of strength, then all the results mentioned already will be on a poor scale. If the Lord of 7* house is situated in the eighth etc. (i.e. sixth, eight and twelfth) amsa, these results will not happen.

- 11) If the Lord of 7th house is posited in the fifth bhava in combination with the Lord of 5* house, the Native will bse his wife and children by death during the period of the Lord of 7* house. If there is a combination of benefic, predict good to children and receipt of letters etc, by the Native from his dignified persons who have gone to foreign places and also remittances of money etc. to the Native from his sons or father. If the Lord of 7* house is situated in the eighth etc. (i.e. sixth, eighth and twelfth) amsa, the result will be of a contrary nature. If the Lord of 7* house is weak, the results will be on a poor scale.
- 12) If the Lord of 7th house is posited in the sixth bhava in combination with the Lord of 6* house and malefic, the Native's wife will have fear of death, disease, affliction or some kind of disgrace or flaw, or separation from husband during the period of the Lord of 7* house. The enemy who is living in a far-off place, will pick up a quarrel with the Native in a public meeting or the Native's maternal uncle will certainly die or face some mishap; or a thief who has been to a foreign land, may sometimes commit theft of property from the house of the Native.

If there is a combination of benefic with the Lord of 7* house the results **will** be moderate. If the Lord of 7* house is in the eighth etc, (i.e., sixth, eighth and twelfth) amsa, the results will be of a different character. One should take into account the effects of the planets that are in association with the Lord of 7th house for correct predictive analysis.

Dasa of the lord of the 8th house

If the lord of the 8th house is strong, its Dasa period will bestow upon the native complete freedom from debts, personal elevation, end of disputes and acquisition of cattle wealth like cows and goats and attendants.

When the Dasa of the lord of the 8* house is in progress and if he is weak, the native will develop carnal appetite, suffer from great sorrow and a want of sense, jealousy, epilepsy, poverty, fruitless wanderings, calumny, sickness, humiliation and even death.

8th lord. If the lord of 8* is strong and well placed, during his periods the native will discharge all debts, succeed in litigation, be elevated to high position and gain through cattle and servants.

If the lord of 8* is weak, badly placed and afflicted, during the periods of such planet, the native may fall ill, have serious delays and obstructions in his undertakings, develop immoral tendencies, have intrigues with low and wicked women and widows, suffer much sorrow, poverty, misery and humiliation.

If the affliction is too serious, he may even die.

If the lord of the tenth bhava is weak, the Native will have

much trouble on account of his poverty. The native will lose his mother (the 10th house is a Maraka house for Mother, being the 7th house from the 4th house) and will be maintained by a female stranger. If Mars is weak in combination with the lords of the fourth and fifth bhavas, the Native will lose his landed property as the result of some mandatory or statutory procedure or his creditor will usurp his landed property after persecuting him for the debts due to him. If the Moon is weak the Native's mother will be ruined. If Lord of 8th house is weak or is posited in the eighth etc. (i.e. sixth, eighth and twelfth) amsa, the results described above will happen on a moderate scale or will be of a Mixed nature.

- 4) If the lord of the eighth bhava is situated in the eleventh bhava in combination with the lord of the eleventh bhava, the period of the Lord of 8th house will produce the hatred or displeasure or destruction of the Native's elder brother, loss in trade/ business and augmentation of debt or liabilities. These evil effects will certainly be produced, if Lord of Ascendant is weak. If the Lord of 8th house being weak, is posited in the eighth etc. (sixth, eighth and twelfth). amsa, the results will be moderate.
- 7) If the lord of the eighth bhava is posited in the second bhava in combination with the lord of the second bhava, the period of the lord of the eighth bhava will always produce domestic difficulties, danger to wife, loss of wealth, death to the Native, when the Native has Mrithyu (i.e. death) yoga in the period, misunderstanding with wife, strife's in the family and disrespect and dishonour to his words. If the Lord of 8th house is posited in the eighth etc. (sixth, eighth and twelfth) houses,

the results will be moderate. If the Lord of 8^{*} house is conjoined with the Lord of 6^{*} house and Lord of 12^{*} house, the effects will be good and auspicious and the Native will acquire wealth and enjoy Viprita Raja yoga etc.
- 9) If the lord of the eighth bhava is posited in the fourth bhava in combination with the lord of the fourth bhava, the Native will have happiness for sometime and unhappiness for sometime (i.e. happiness and unhappiness will alternate with each other); there will be loss of assets, lands and conveyances, he will have interruption in education and his mother may sometimes fall sick. If benefic are in combination with Lord of 8^{*} house, the results will be favourable; and if malefic are in combination, the results will be unfavourable and there will be such misfortunes as Kings displeasure, destruction of assets and lands, troubles to his mother, danger from quadrupeds, residence in the lands of strangers, beggars and sufferings.
- 10) If the lord of the eighth bhava is posited in the fifth bhava in combination with the lord of the fifth bhava, the Native will incur the hatred of his father or his son or will commit some crime. The Native may sometimes have to fear some danger or trouble from Government as the result of his misunderstanding with a dignified person; his son will fall sick and his undertakings in witch-craft or black magic will become fruitless. If the lord of the fifth bhava is weak, the Native will surely loose a child or his children will die as soon as they are born. If benefic are in combination with the Lord of 8^{*} house, the effects will be of a Mixed nature.

If malefic are in combination with the Lord of 8^{*} house, the Native will have death or danger of death. If the Lord of 8^{*} house is posited in the eighth etc. amsa, the good effects will be moderate and if he is

situated in Kendra and Trikona positions, the results will be bad. If the Lord of Ascendant has a Roga yoga (i.e. a yoga which produces diseases), the Native will suffer from forgetfulness, loss of memory, sometimes from giddiness, or unconsciousness and coma.

- 11) If the lord of the eighth bhava is posited in the sixth bhava in combination with the lord of the sixth bhava, the Native's enemy will be destroyed, his maternal uncle will have to face some troubles and the Native will experience much worries from thieves. If the Lord of 8* house is a malefic, the Native himself will fall ill or if there is Mrithyu yoga then, the Native will die in a distant place. If the Lord of 7* house and the Lord of Ascendant are both strong, the period of the Lord of 8* house will mostly do good.
- 13) General:-

If the lord of the eighth bhava is posited in the sixth bhava, the Native will be worried by the fear or trouble from his enemies during the period of the Lord of 8* house.

If the Lord of 8* house is in the twelfth bhava, the period will cause much expenditure to the Native in several ways.

If the Lord of 8* house is in the eighth bhava, his period will produce sorrow, misery, poverty, fear and uneasiness of mind.

If he is in combination with benefic, his period will do good. If the Lord of 8* house is a nature benefic planet, he will produce Mixed results.

The Lord of 8* house will similarly yield results in his amsa positions also. If the lord or the rasi occupied by the Lord of 8* house is posited in Kendra and Trikona houses and is also there in association with benefic, he will produce good, but will do harm to the bhava

occupied by him. The same results will follow even with-respect-to amsa Chart.

First the results of a period should be decided in this way and then the results of the sub-period should be determined.

There is something to be specially considered while deciding the effects of the Lord of 8th house. The period and sub-period of the Lord of 8* house, who is in combination with a benefic will do good. The period of a malefic planet that is in combination with the Lord of 8* house will do good. Even a benefic planet that is in Kendra and Trikona houses in combination with the Lord of 8* house, with a malefic planet also there, will produce bad results in his own sub-period in the period of the Lord of 8* house and will cause bad health to the Native and to his relatives, unsteady mind, disease to the Native's mother and disgrace to his wife. If there is the combination of a benefic, the bad results will be reduced. If the Lord of 8* house is a benefic, there is no defect thereby. If the lord of the rasi occupied by the Lord of 8* house, is in combination with the Lord of 8* house, the lord of the period will cause sorrow, misery and poverty and the lord of the sub-period will similarly produce sorrow, misery etc.

Dasa of the lord of the 9th house

During the Dasa period of the lord of the 9* house, the native will be blessed with the company of his wife, sons, grand children and relations, continuous prosperity, happiness and wealth; act in noble ways, enjoy state favour, pay homage to Brahmins and gods.

When the lord of the 9* house is weak and his Dasa period is in operation, the native will have to face the displeasure of the deity who was worshipped formerly -even something untoward may happen to him; his wife and children may too suffer; this native will also indulge in wicked deeds, one of his elders or his father may pass away and may lead a life of penury.

9th lord. When the lord of 9* is strong, and well placed, during his periods the person will enjoy happiness and comforts in the company of his beloved ones. He will do virtuous deeds and will be nobly disposed, faithful and truthful. His wealth will increase and he will receive favours from elders and superiors or from Government. His fame and popularity will increase and he may even become a minister or adviser to the State. The affairs of the father will have a smooth flow.

If the lord of 9* is weak and afflicted, the native will develop materialistic outlook, be impious, hate elders and preceptors, be cruel and wicked. He will bse reputation, and scandals will crop up. Wife and children will suffer

ill health and an elderly person in the family (father?) will die. He will always be in want and unfortunate in all his attempts.

If malefic are conjoined with the Lord of 9* house, his wealth will deteriorate, or his father may die and he will become poor, and unsteady in his mind. He will have gains in the period of the Lord of 9* house through the influence of the planet, that is in combination with him. If the Lord of 9* house is weak, the results will be on a poor scale. If the planet that is in combination with the Lord of 9* house is a malefic, the Native will incur loss.
- 4) If the lord of the ninth bhava is posited in the twelfth bhava in combination with the lord of the twelfth bhava, the wealth of the

Native will decrease, his father will have troubles and he will incur expenditure through charity during his period. If the karaka planet is in conjunction with a benefic, his father will become famous and powerful and if this planet is on the other hand in conjunction with a malefic, either his father or he will undergo troubles. If the Lord of 9th house is in the eighth etc., amsa, the result will be of Mixed nature and the results will be the same, even when the Lord of 9th house is weak.

You will have to take also into account the effects of the planets, that are in conjunction with the Lord of 9th house.
- 7) If the Lord of 9th house is posited in the third bhava in combination with the lord of the third bhava, the period of the Lord of 9th house will increase the wealth and assets belonging to the Native or his father, and will also increase the fortunes of the Native's brother and will sometimes produce gains and happiness to the Native through music and art. If the Lord of 9th house is weak or is posited in the eighth etc., amsa, the results will be poor.

- 8) If the Lord of 9* house is situated in the fourth bhava in combination with the lord of the fourth bhava, and if Mars is powerful, the Native will have increase of wealth through lands. If Venus is powerful in birth chart, the Native gets conveyances and Vehicles etc., and will be honoured by public with garland, sandal paste, fragrant etc. If Mercury is powerful, the Native will get wealth through his learning, and if Jupiter is powerful, he will attain the status of a king or minister. If Saturn and Rahu are powerful, the Native will be honoured and respected by **Mlecha** and industrialist and dignified persons, thus the effects of Dasa of 9* lord should be predicted.
- 9) If the lord of the ninth bhava is posited in the fifth bhava in combination with the lord of the fifth bhava, the Native will enjoy happiness etc., through his father when the combination for realisation occurs or will be patronised by a rich persons. The Native will protect many servants, will be rich, will be possessed of conveyances and wealth, his wealth will go on increasing and he may sometimes inherit the wealth of his grandparents.

If Mars is in his own house, he will acquire wealth through lands. If Jupiter is in combination with them, the Native will have enormous riches. If the Sun is in combination with them, the Native will earn money through his learning or by being a scribe. If Rahu is in combination with them, the Native will be master of wealth belonging to thieves. If Saturn is in combination, the Native will always be an officer-in-charge of punishment or will be the head of officers, provided with Government official seals or of ambassadors. If the Lord of 9* house is weak, the results will be poor and they will be the same, even when the Lord of 9* house is posited in the eighth etc. amsa. If Mars is in combination with them, the Native will acquire lands by living in a foreign place. If there is a combination with Jupiter, the Native will amass money. If Venus is in combination, he will derive happiness and comfort through the help of women.

- 12) If the lord of the ninth bhava is posited in the eighth bhava in combination with the lord of the eighth bhava, there will be destruction of wealth, or certainly the death of the father of the Native, or sorrow and misery due to poverty. If these planets are situated in a movable rasi, the Native will be wandering without any advantage in a foreign place. If there is a benefic yoga, the results will be of a mixed nature.

If the Lord of 9* house is weak, the Native will be afflicted with poverty, his body will become weak, through sorrow and the results should be predicted according to the bad combinations as mentioned already. If the Lord of 9* house is in debilitation or combust or in an inimical rasi, he will always produce sorrow. The results of a planet's period and sub-period should be wisely determined with reference to the nature and significations of the planets involved as per rules already set forth above and also by taking into account the good or bad combinations and the planetary positions.

Dasa of the lord of the 10th house

During the Dasa period of the lord of the 10* house, the native will achieve great success in any undertaking begun by him, lead a happy life, attain great fame, settle himself on a permanent position, will be tactful and of amiable disposition and enjoy great respect.

When the Dasa of the lord of the 10* house, who is weak, is in progress the native may engage himself in fruitless enterprises; may suffer from loss of honour; he may be a crook in his acts; be in exile; pass through a chain of unfortunate happenings; He may lead a miserable life and suffer accordingly.

10th lord. If the lord of 10* be strong and well, placed, during his periods there will be promotion in one's profession or expansion in business. He will accomplish his works and will lead happy and contended life. He will be settled permanently in job and be widely renowned, command respect and occupy high position in society.

If the lord of 10* is weak, badly placed and afflicted during his periods the person may lose his profession or suffer loss in business. He will incur displeasure from superiors or State. He will lose position and status, and professional worries will increase, take to long journeys, lead a wicked life and be miserable.

The Period of the Lord of the Tenth Bhava. (Tenth House) (from classics)

- 1) If the lord of the tenth bhava (i.e. Raajyaathipathi) is posited in the tenth or eleventh bhava in combination with benefic and also the lord of the eleventh bhava (i.e. Lord of 11th house) the Native will surely be blessed with kingly power and status, he will become very famous, will be much honoured every where, will be endowed with competency and numerous armies, will be held in much esteem by all classes of people. He will be interested in charitable undertakings and institutions and will have Raja yoga. If the Lord of 10* house is weak, the results will be poor and the Native will have poor gains in his occupation or business and will get a poor promotion in his appointment.

If the planet concerned (i.e. lord of the tenth bhava-Dasamathipathi) is Mars, the Native will get wealth through taxes or assessments etc. and lands.

If it is Jupiter, the Native will rise in official cadre.

If it is Venus, he will have conveyances and ornaments.

If it is Mercury, he will be successful in his study and examinations, and

thus, the results should be divined with much thought and consideration. These results would be spoiled if there is a malefic combination with the Lord of 10th house or if he is in the eighth etc. amsa.

- 2) If the lord of the tenth bhava is in the twelfth bhava in combination with the lord of the twelfth bhava (i.e. lord of the twelfth bhava-Vayathipathi) and has also a malefic yoga, the Native will have disgrace and ignominy or will be removed from service or occupation or will be reduced in official cadre or will have a set-back in his business or occupation etc.

If there is a benefic yoga, the Native will be employed in connection with chanting of Vedas and religious rites. If there is a malefic yoga, he will follow the occupation of a Menial. If the Lord of 10* house is a malefic planet, the Native will wander to a great distance unprofitably.

- 3) If the lord of the tenth bhava is in the Ascendant-bhava in combination with the lord of the Ascendant and has a benefic yoga, the Native will

have much fame and name, will be the embodiment of kingly power and influence, will certainly become an illustrious minister of a king or a very great official and will be interested in charitable and noble pursuits.

If the Lord of 10* house is weak, the results will be poor and if he is posited in the eighth etc. amsa, even these poor results will not happen (i.e. will be reduced to nothing). If there is a malefic yoga, the results will be spoiled; sometimes the Native will be put to disgrace; he will sometimes receive gifts offered in bad or inauspicious ceremonies; if the planet in the said malefic yoga is Saturn and if he is powerful, the gift will be a buffalo; if the planet concerned is the Sun, the gift will be a cat; if it is Mars, the gift will be a sheep etc. and if there is a benefic yoga, by the association of a benefic planet the gift must be considered to be in the shape of a desirable thing.

- 4) If the lord of the tenth bhava is posited in the second bhava in combination with the lord of the second bhava and has a benefic yoga there will be acquisition of wealth to the Native, he will be known to the public as a rich man, will be the chief and influential member of his family and his word will be honoured and respected. If there is a Raja-yoga, the Native will get wealth through the Government or by means of an appointment; his servants will be ever ready and vigilant to carry out his commands or orders; he will protect many people and he will feed many persons. If the Lord of 10* house is posited in the eighth etc. amsa and is weak, the results mentioned before will be on a moderate scale. If there is a combination of malefic, the results will be bad, his family members will have troubles, he will be afflicted with penury, disrepute, and untimely meals and will achieve notoriety for uttering falsehood. The astrologer should remember the qualities and significations of the planets and include them while reading events that happen in the period and sub-periods of the planets.
- 5) If the lord of the tenth bhava is posited in the third bhava in combination with the lord of the third bhava and benefic, the Native will achieve fame for his deeds, he will rise in his occupation or post will become famous for his artistic talents, or bravery and his brother will be renowned. The strength of the karaka planet should be determined and included in the results also. If the Lord of 10* house is weak, the results will be poor and results will be the-same (i.e. poor), when the Lord of 10* house is posited in the eighth etc. amsa.
- 6) If the lord of the tenth bhava is posited in the fourth bhava, the Native will live with happiness and glory by his lands, which will yield a good produce. If there is a benefic yoga, he will acquire much reputation

through agriculture; will become famous as one born of a good family and his mother would come from a remarkable family.

Thus, the effects must be inferred intelligently. If there is a malefic yoga, it will produce harm and misfortune. If there is a mixture of benefic and malefic yogas, the results will be of a mixed nature. If the Lord of 10th house is weak the effects will be poor.

- 7) If the lord of the tenth bhava is posited in the fifth bhava in combination with the lord of the fifth bhava and has a benefic yoga, the Native will be blessed with a kingdom or minister-ship in the period of the Lord of 10th house. He will achieve his aspirations and will become a famous and wealthy person. If these planets are posited in Rasis which are friendly to each other, the effects described already will mostly occur. If these planets are inimical to each other or in the eighth place (i.e. in amsa chakra) from each other, the effects will be poor. Everything should be well considered and then predicted.
- 8) If the lord of the tenth bhava is posited in the sixth bhava in combination with the lord of the sixth bhava, the Native will become the head of a court of law. He will be employed there for some time or his maternal uncle will be famous and influential. The Native may be employed in army or may follow medical profession. These results may happen if these planets are strong. If there is a malefic yoga, the Native may pursue a mean occupation and may sometimes be an official provided with Government official seal or may sometimes be employed in an embassy and he will sometimes be fed in a Menials house. The occupation that he will follow will be according to the nature of the planets concerned. He will suffer loss in trade or he will be engaged in performing Sradhas-POOJA for departed souls, in which case it may happen sometimes on account of Saturn. The results must be determined in the period with reference to benefic or malefic yoga.
- 9) If the lord of the tenth bhava is posited in the seventh bhava in combination with the lord of the seventh bhava, the Native's wife will be one born in a good family, he will sometimes become renowned in a foreign land or will sometimes earn his livelihood in a foreign place. He may sometimes earn his living through his wife, he will be sometimes interested in pilgrimages or he will be sometimes employed in a transport department. If there is a malefic yoga, he will eke out his livelihood with much difficulty in a foreign place, mostly will eat in funeral ceremonies, and he will be poor, will marry in an ignoble and low family, or his Wife will become separated from him. The results must be predicted in accordance with the nature of the planets concerned in a period or sub-period.

- 10) If the lord of the tenth bhava is posited in the eighth bhava, in combination with the lord of the eighth bhava, the Native will be always interested in wicked and vicious deeds, his occupation will be endangered or lost, but will not be lost, if there is a benefic yoga. His agriculture will be interrupted or spoiled, his lands will be damaged, his education will be interrupted and his conveyances or vehicles will be ruined, if there is a benefic yoga, these effects will be on a moderate scale and if there is a malefic yoga, the effects will be poor. -
- 11) If the lord of the tenth bhava is posited in the ninth bhava in combination with the lord of the ninth bhava and if Jupiter is weak, the Native's daily duties and rites will be interrupted. If Jupiter is strong, the Native will certainly do good deeds, will be a rich person in his own country, will be famous, will be loved and honoured by his emperor and will be happy through his appointment and his father will be an illustrious person.

If Mars is powerful, his father will have enormous lands free from tax.

If Jupiter is powerful, his father will rise in his appointment.

If Venus is powerful, the Native will have jewels and conveyances.

If Mercury is powerful, the Native will be blessed with advantages through his education or learning.

If the Moon is powerful, the Native will be a treasurer or a cultivator of fields or gardens.

If the Sun is powerful, the Native will be a Government servant or a physician.

If Saturn is powerful, the Native will be a government servant.

These results should be predicted according to the strength of the planets.

- 12) One should weigh the strength of the planets skilfully and venture his prediction. Good results will happen when there is a benefic yoga. If there is a malefic yoga, the results will be bad and the native will follow mean and low profession, will approach mean and low class people and will be put to shame. If the Lord of 10th house is strong and if the lord of the rasi occupied by the lord of the tenth bhava is also strong, the results will be good and auspicious; if otherwise, the results will be contrary.

Thus, the results of the periods should be derived with reference to the strength of the planets.

Dasa of the lord of the 11th House

During the Dasa period of the lord of the 11 * House, the native will have a regular flow of wealth, meet his relations, attendants and slaves will serve him. There will be great domestic happiness, affluence and success.

During the Dasa of a planet that is weak and is the lord of the 11 * house, the native will hear sad news. There will be trouble to a brother or sickness to children and pass through misery, deception and ear ailments.

11th lord. If the lord of 11 * is strong and well placed, during his periods there will be uninterrupted flow of wealth and fortune, gain of money from business or from other sources like estates, profession, etc. He will be respected and placed high in life, have good servants, domestic happiness, and prosperity. He will construct good houses and own conveyances.

If the lord of 11th is weak and afflicted, there will be loss of wealth or loss in business, increased expenditure, Bad health to family members, quarrels with brothers and relatives. He will suffer dishonour and associate with wicked people.

Period of the Lord of the Eleventh Bhava (Eleventh House) (from classics)

- 1) If the lord of the eleventh bhava is posited in his exaltation rasi in combination with or in aspect of benefic, the Native will have much gain and his elder brother is a remarkable person.

Mars will give benefits from land, the Sun will produce gain through father, the Moon will make his trade flourish, Mercury will do good sometimes through education or trade in quantity goods, Jupiter will produce benefits through employment or teaching, Venus will produce gains through captivating women and Saturn will produce gain through the selling of fuel or wood or through stones and wood.

The means of obtaining wealth must be determined with reference to the nature of the parental employment of the Native. In the same way the effects of the position of the lord of the eleventh bhava in other bhavas have to be determined intelligently and shrewdly with reference to the significations of the lord of the eleventh bhava, the signification of the bhava occupied and the signification of the lord of the bhava occupied by the Lord of 11th house.

- 2) If the lord of the eleventh bhava is posited in the twelfth bhava in combination with the lord of the twelfth bhava, there will be hindrance or difficulties in the realisation of the objects of the Native and his elder brother will undergo suffering; if there is a benefic yoga, the

results will be on a moderate scale; if there is a malefic yoga, even then the results will be the same (i.e. on a moderate scale).

- 3) If the lord of the eleventh bhava is posited in the Ascendant bhava in combination with the lord of the Ascendant, the Native will always have gains and if the lord of the eleventh bhava is strong, the Native will have promotions in his appointment and also in his business sometimes. The degree of advantage or good during the period or sub-period has to be determined with reference to the degree of the strength and the nature of the planets and Rasis concerned.
- 4) If the lord of the eleventh bhava is posited in the second bhava in combination with the lord of the second bhava, and if the Lord of 11* house is posited in his exaltation rasi in Navamsa chart, the Native will be the master of over a crore of rupees and if there is a malefic yoga; the results will be poor and the Native will have to face difficulties often.
- 5) If the lord of the eleventh bhava is posited in the third bhava in combination with the lord of the third bhava, and benefic planets, the Native will realise much profit throughout the period of the Lord of 11* house, and sometimes he will have gains through his brother at the commencement of the period. If there is a malefic yoga, the good effects will be destroyed and there may be only bad effects; if there is a benefic yoga, the good results will be increased. The nature of the profit or gain should be determined with reference to the character of the planets concerned.
- 6) If the lord of the eleventh bhava is posited in the fourth bhava in combination with the lord of the fourth bhava, the Native will have gains through education, conveyance or vehicle and land, sometimes through mother and sometimes through agriculture. If the planet concerned is Jupiter, the means of gain will be sugarcane etc., it will be agriculture if the planet is Mars; it will be fruit bearing trees for Venus; arrowroot and chestnuts for Saturn and Rahu, and vegetable greens etc. for the Moon. Thus, should fix the means of gain as agriculture etc., in accordance with the character and significations of planets. If benefic yoga are in the chart, the effects should be determined mostly through the Lord of 11th house, i.e. with reference to trade in quantity goods, jewellery etc. If there is a malefic yoga, there will be impediment or ruin in trade during the period,
- 7) If the lord of the eleventh bhava is posited in the fifth bhava in combination with the lord of the fifth bhava, the Native will have gains through a friend, who is a dignified person, through his son and God and also by trade in precious stones, by treasure-trove or by journey through a sea in a ship.

All the results must be inferred through proper analysis and intelligence with reference to the nature or character of the planets and signs. There will be gain through grains and seeds and as the result of his past good karma. If there is a malefic yoga, there will be a set-back or deterioration in fortune through past karma. In a benefic yoga the good results referred to above will mostly follow closely.

- 8) If the lord of the eleventh bhava is posited in the sixth bhava in combination with the lord of the sixth bhava, the Native will have gains through grand-parents, litigations and maternal uncles in the period of the lord of the eleventh bhava, and his competency and courage will increase. If the lord of the eleventh bhava has a malefic yoga, these effects will be of a moderate degree in its period. The results should be divined with reference to the planets that are associated with the lord of the eleventh bhava and their karaka-significations.
- 9) If the lord of the eleventh bhava is posited in the seventh bhava in combination with the lord of the seventh bhava, the Native will sometimes have gains in a foreign land through his wife, through embassy and by the winning over of the people, or women to his side. If the Venus is between Saturn and Mars, the Native will earn money by allowing his wife to please strangers; if there is a malefic yoga, the gains will be poor and the results will be according to the nature of the planets already described.
- 10) If the lord of the eleventh bhava is posited in the eighth bhava in combination with the lord of the eighth bhava, the Native will increase his debts and will obtain some gains by sinful and wicked deeds; sometimes he will be reduced to poverty; he will be wavering and unsteady in mind; he will always approach mean or ignoble people and will have some gains through them. If there is a benefic yoga, the results will be moderate and if the Lord of 11* house is weak, the Native will sustain loss in trade and litigations will increase.
- 11) If the lord of the eleventh bhava is posited in the ninth bhava in combination with the lord of the ninth bhava, the Native will get wealth through his father and also sometimes through a industrialist; if the lord of the tenth bhava is in exaltation, his father will become wealthy by trade, and also by his appointment, which will bring gains to him always according to the nature of the planet associated with the Lord of 11* house. If there is a benefic yoga, it will produce moderate results and set-back or impediments.
- 12) If the lord of the eleventh bhava is posited in the tenth bhava in combination with the lord of the tenth bhava, the Native's trade will

prosper and the nature of the trade will be that which is attributed to the planet. If there is a benefic yoga, it will produce much gain; if Jupiter is posited in the eleventh bhava in combination with the lord of the eleventh bhava, the Native will always have gains through his appointment, and sometimes through yoga and religious rites extra; if the planet is Venus, it will produce gains by means of vehicles or conveyances etc. and if the planet is Mercury, it will cause profits through clothes etc.

One should determine the means of gains according to the nature of the planets involved. The effects described for the twelve bhavas, should be added to the period, thus, the effects of the period should be found out first and then those of its sub-periods.

Dasa of the lord of the 12th house

During the period when the Dasa of the lord of the 12* house is in progress, the native will become a extravagant for any noble cause or for good people. He will perform noble deeds and compensate for all the sins already committed. He will earn state honour too.

During the progress of the Dasa of the lord of the 12* house that happens to be weak, the native suffers from various diseases, dishonour and bondage. His wealth will dwindle away like the waning Moon.

12th lord. If the lord of 12* is strong and well placed, there will be much spending of wealth in a good cause, the native Will get favours from Government, be respected by people and become famous. He will take to a pious life.

If the lord of 12* is weak and afflicted, the native will suffer great loss of money, position and fame. He will be seriously ill and may even die. He will incur displeasure of officials and may even be imprisoned or punished.

The Period of the Lord of the Twelfth Bhava. (Twelfth House) (from classics)

- 1) If the lord of the twelfth bhava is posited in his rasi in combination with benefic, the Native will acquire wealth and will have no expenditure in the period of the Lord of 12* house; and he will have expenditure in the period of the benefic planet that is in combination with the Lord of 12* house, as the effect of this benefic planet. If the Ascendant lord is powerful, the Native's income will be more than his expenditure; the comforts of bed linen will be in proportion to the degree of the yoga. The Native will be happy, will always pursue a good and virtuous profession, will be engaged in metaphysical and Vedanta investigations and will be in the company of yogis and Sadhus. If the Lagna-Lord is weak, when there are malefic in the twelfth bhava, the Native will be

poor and the results will be those of a **Kemadruma-yoga** (i.e. a kind of bad yoga).

- 2) If the lord of the twelfth bhava is posited in the second bhava in combination with the lord of the second bhava and malefic, there will always be dispute or in-harmony in the Native's family, he will have untimely and unpleasant meals and meals served in a Sradhas ceremony or produced by menials, he will indulge in harsh words, will be wicked in nature and will be exposed to the risk of eye diseases. If there is a benefic yoga, the effects will be moderate according to the nature of the planet in combination with the Lord of twelfth bhava.
- 3) If the lord of the twelfth bhava is posited in the third bhava in combination with the lord of the third bhava, the Native will always have an ever-increasing expenditure and his brothers will be ruined. If there is a benefic yoga, the effect will be of a mixed nature and if the Lord of twelfth bhava in a benefic yoga and is in association with the lords of the sixth and eighth bhavas, his Period will produce comforts and conveniences of vehicles or conveyances.
- 4) If the lord of the twelfth bhava is posited in the fourth bhava in combination with the lord of the fourth bhava and in a benefic yoga, the Native will have comforts, lands etc. if there is a malefic yoga, the results will be bad, his mother will have troubles and his lands, agriculture, and vehicles will be damaged. If there is a mixed yoga, the effects will be mixed in character according to the nature of the planets concerned. If the Lord of twelfth bhava is posited in the eighth etc. amsa, the results will be poor and if the planets are malefic, even then the results will be poor.
- 5) If the lord of the twelfth bhava is posited in the fifth bhava in combination with the lord of the fifth bhava, the Period of the Lord of twelfth bhava will cause the birth of a child to the Native and will also produce bad results. The Native will lose the friendship of a dignified person or will lose his senses; if there is a benefic yoga, the effects will be of a mixed nature; if there is a malefic yoga, there will be no child born to the Native or his children will be ruined or he will sometimes have bad or undesirable children, will sometimes incur the displeasure of an entrepreneur, his father will have difficulties or sometimes the Native will have fear of trouble due to political disturbances and his occupation may be spoiled.
- 6) If the lord of the twelfth bhava is posited in the sixth bhava in combination with the lord of the sixth bhava, the Period of the Lord of twelfth bhava will be responsible for good and auspicious ceremonies or occurrences; these results will be augmented if there is a combination

with lord of eighth bhava also and the results will be the same for a benefic yoga or even when the Lord of twelfth bhava is posited in the eighth etc. amsa.

- 7) If the lord of the twelfth bhava is posited in the seventh bhava in combination with the lord of the seventh bhava, there is danger to the Native's wife; if there is a yoga producing death, his wife will die and he will sometimes live in a foreign place. If there is a benefic yoga, there will be acquisition of money and if there is a malefic yoga, the Native will always have sorrow, uneasiness, unprofitable wanderings, sickness and insult his wife.
- 8) If the lord of the twelfth bhava is posited in the eighth bhava in combination with the lord of the eighth bhava, the Native will have pleasure and pain in equal degrees. If there is a benefic yoga, there will be happiness, if there is yoga by the combination of the Lord of sixth house, the Period will produce more good and the results of the Period will be modified according to the nature of the planet in combination with the lord of the twelfth bhava.
- 9) If the lord of the twelfth bhava is posited in the ninth bhava, the Native's occupation will be spoiled; if then the lord of the twelfth bhava is in combination with the lord of the ninth bhava, the results will be moderate, the Native will be interested in good deeds and thereby will incur some expenditure and his appointment will be endangered. If there is a benefic yoga the results will be of a mixed nature. The effects of a particular planet, will be produced when it's Period or sub-Period runs.
- 10) If the lord of the twelfth bhava is posited in the tenth bhava in combination with the lord of the tenth bhava, the Native's patrimony will be ruined and there will sometimes be expenditure through charity; if there is a benefic yoga, the expenditure will be on account of enjoyment and in virtuous ways, such as gifting and construction of watch towers.
- 11) If the lord of the twelfth bhava is posited in the eleventh bhava in combination with the lord of the eleventh bhava there is danger or interruption to gains; if the planet is benefic, the expenditure will be in good ways; and if there is a malefic yoga, the expenditure will be caused by bad deeds and enemies. The loss of wealth will be caused in ways, which are in accordance with the nature of the planet concerned; the wealth will at times get reduced on account of misunderstandings with elder brother or business or on account of the yoga for poverty and sometimes the gain and loss will be equal. Thus, the effects of a Period should be predicted, taking into account the

nature of the lord of the Period, the nature, of karaka and Lordship signification of the planets in association with the lord of the Period. The effects of the Period should also be predicted with reference to the Karaka and Lordship signification of the lord of the sign, occupied by the lord of the Period.

- 12) As regards the other positions also (i.e. the positions in the other bhavas, than the eleventh bhava) the effects should be determined with reference to the position of the lord of the rasi containing the bhava in question. If the lord of the twelfth bhava is posited in a bhava and is a benefic (i.e. by Lordship) he will produce good results; if he is a benefic and also a malefic (i.e. by Lordship) he will produce mixed results; if he is a double malefic (i.e. by Lordship of two bad bhavas), the results will be bad. A planet, whether a benefic or a malefic, will produce good results if he is the lord of Angles and Trine houses at the same time; if he is the lord of a Kendra house only, he will produce moderate results. The lords of the second, third and eleventh bhavas are producers of good and bad effects; the lords of the sixth, eighth and twelfth bhavas are malefic. If out of the two bhavas of a planet, one is good and the other is bad, the results will be of mixed nature. Thus the nature of a planet, whether benefic or malefic, should be determined with reference to the bhava Lordship and also with reference to the eight kinds of planetary strength described earlier. Thus, the nature of benefic yoga, malefic yoga and mixed yoga, should be determined.

A malefic yoga is useless and it will cause always expenditure, debt and entanglement in vices and wicked ways; a Mixed yoga will produce mixed results according to the nature of the planets.

The effects of Rahu and Ketu

- 1) Rahu and Ketu are always the enemies of the Sun and the Moon and are always moving, eagerly expecting opportunities to swallow the Sun and the Moon. The Sun and the Moon become weak when eclipsed at the places of Rahu and Ketu, Rahu and Ketu become weak when in combination with the Sun and the Moon. Rahu and Ketu give their results in their Periods and sub-Periods according to the nature of the planets, that are in combination with them or that aspect them and according to the strength of the planets in whose Rasi or Navamsa, they are posited.

If they are associated with benefic planets they yield benefic results, if they are in association with malefic they produce bad results. They have no effects of their own. As they are the enemies of the Sun and the Moon, who are the only luminaries out of the planets (i.e. they

have no intrinsic or independent effects and their effects are borrowed or usurped from the planets that are in association with them or that are the lords of the Rasis occupied by them in Rasi and Navamsa charts). Learned should infer their effects according to the nature of the lords of the Rasis occupied by them. They will produce good or bad results according to the rasi occupied by them whether it is benefic or malefic of these two. Rahu will produce bad effects when it is in Kendra and Trikona positions; when in the second bhava, it will use expenditure and trouble to members of the family; when in the fourth bhava, it will cause diseases and disgrace to mother; when in the fifth bhava, it will cause danger to children; when in the sixth bhava, it will cause fear through enemies etc. and troubles or dangers from thieves, snakes and wind; when in the seventh bhava, it will produce danger to wife and cause theft while in a foreign place; when in the eighth bhava, it will produce a serious sickness or unnatural death, or sufferings; when in the ninth bhava, it will cause troubles to father and ungratefulness to preceptor etc; when in the tenth bhava, it will cause the Native to follow undesirable occupation and when auspicious in the tenth bhava, it will give him a sacred bath in the Ganges etc; when in the eleventh bhava, it will cause a set-back to gains and when in the twelfth bhava, it will cause all sorts of expenditure. Only a **summary** of effects has been described here. These also are the results of Ketu and Ketu effects will be the effects of the lord of the rasi occupied by him.

The above mentioned are a few of the Effects of the various Major periods when the lords of houses operate in them. Many modifications with respect to individual horoscopes will have to be made before actual events are determined. It is necessary to know when exactly during the Major period some of these Effects will be realised.

All planets except the Sun and Moon own two signs in the zodiac. Therefore, there will be two houses owned by a planet in a horoscope. As such, they should produce the Effects of affairs indicated by two houses. Does the planet operate the results simultaneously? Unless we know the answer to this question, we shall not be able to make correct predictions. Therefore let us examine the sequence of operation of house Effects.

Sequence of Operation of Effects

1. During the periods of a planet's operation, the first half shall produce Effects pertaining to the house it owns which comes first when counted from Lagna. The second half of the Major period shall produce results signified by the house that comes second.

Let us illustrate it by an example. Suppose in a horoscope, Jupiter is the lord of 2nd and 11th houses. During his Major period, he shall produce Effects pertaining to the 2nd house during the first half. During the second half, he shall produce results pertaining to the 11th house.

2. Planets which own two houses do not produce equal amount of results pertaining to both the houses they own. The results pertaining to the houses which happen to be their Moolatrikona signs shall be more predominant than the other. The Moolatrikona signs of planets are Sun-Leo; Moon-Taurus; Mars-Aries; Mercury-Virgo; Jupiter-Sagittarius; Venus-Libra; Saturn-Aquarius; Rahu-Cancer; Ketu-Gemini and Sagittarius.

Modifications of Effects

The Effects produced during the periods of planets, are general in nature, extend of the good, and bad should be determined after careful consideration of the following rules.

A planet benefic by its occupation in a house shall do maximum good effects if the house happens to be its exaltation sign or own sign. If that be a friendly sign, the Effects shall be felt only to moderate intensity.

If it be a neutral sign, the effects shall be only neutral and shall not be much realised. If it be an inimical or depression sign of the planet, the good effects shall not be felt at all.

If the planet be malefic in nature due to occupation in the house, if that house happens to be its exaltation or own sign, the results shall be almost neutral and shall not be felt. If it happens to be a neutral sign, the evil results shall be felt to some extent. If it happens to be an inimical or depression sign, the evil results shall be felt with maximum intensity.

In considering the degree of benefic or malefic results of planets according to their position due care should be taken to see whether the planet is a benefic, neutral or a malefic towards the native due to ownership. A combined study of all these should be made and the results should be modified accordingly.

How the Effects Are Realised

The following rules may be applied in timing the events.-

AS to when the results of planetary periods due to their natural governance over certain affairs, or due to their ownership of certain houses and lastly due to their position in certain houses of the horoscope are to be realised, so that correct inference may be drawn.

1. Planets in their Main periods, sub-periods and inter-periods produce benefic or malefic results pertaining to their natural affairs, according as they are benefic or malefic towards the native.
2. They produce results pertaining to their ownership of houses in the horoscope during their Main periods only.
3. They produce results due to their occupation and aspect towards certain houses during the course of their sub-periods only.
4. They produce results pertaining to the house they occupy reckoned from the sub-lord during their sub-sub-periods.

It will be a period of contentment and happiness in domestic life and affairs.

IF THE SUN BE IN TAURUS AT BIRTH

The Sun Period will be a time of loss; loss of money, property, possessions; loss of wife and children; loss of position and standing in the community. IF THE SUN BE IN CANCER AT BIRTH

The Sun Period will be marked by jealousy and possibly some enmity on the part of people whom he considers to be his friends. This will be caused by his promotion to a position of authority and responsibility, possibly over the heads of friends and associates or in competition with them. He is apt during this period, to become somewhat more nervous and excitable than usual and should strive to overcome this tendency and to remain calm in all situations. If a man, he will have much contact with women at this time, at home, in a social way and in business. If a woman, she may marry during this period or have an affair.

IF THE SUN BE IN LEO AT BIRTH

This is a period of desire for quiet and solitude. An urge to live in the country rather than in the city, will be manifest, a longing for remote places. If the individual purchases a farm or takes up farming as a means of livelihood or as a business during the Sun Period, he will be very successful in this pursuit.

IF THE SUN BE IN VIRGO AT BIRTH

He will make contact with neighbours and friends, and particularly with older people who will like and respect him and be of assistance to him. He will be surrounded by pets and domestic animals.

IF THE SUN BE IN LIBRA AT BIRTH

The reverse of the Virgo Sun is experienced during the Sun Period of those people who had their Sun in Libra at birth. It is a period of loss:- loss of position, loss of wealth, and this loss is experienced through the deceit, and envy of so-called friends. Friends, instead of being helpful and beneficial during this period, will undermine and try to destroy his image. There is also danger from some injury or accident, particularly from burns.

IF THE SUN BE IN SCORPIO AT BIRTH

He may even experience poverty and lack of proper food and the necessities of life. Added to these physical restrictions, his mind is anxious and worried and he is most unhappy and miserable, particularly as he is almost wholly dependent on others during these years.

IF THE SUN BE IN AQUARIUS AT BIRTH

A time of quarrels and disputes, litigation and argument during which, unless helped by other conditions, the individual will seldom be victorious. His enemies will take this opportunity to embarrass him and it would be better if any issues at stake could be postponed rather than joined. Even in his domestic relationships there will be disagreements and misunderstandings, some-times actual opposition and antagonism. As if these conditions were not sufficient, he also will suffer from some heat complaint which will be aggravated by outbursts of temper and the general tension of mind and body produced by the continual bickering which marks this period.

IF THE SUN BE IN PISCES AT BIRTH

The health will be the chief concern of this individual during the Sun period of his life. He will suffer from a general rundown condition due to principally to gastric disorders. These may become as acute as to require a stomach operation or treatment for ulcers. THE MAIN PERIOD OF THE MOON AND ITS SUB-PERIODS

According to the Moon sign occupied at birth, the following conditions and problems will confront the individual at that time of his life, which corresponds with the Main Period of the Moon.

IF THE MOON BE IN ARIES AT BIRTH

A period of journeys and travels, long and short, Visits to foreign countries or many trips within the confines of own country. Also a period of thought along religious paths, with contacts with people connected with some religious movement or activity.

IF THE MOON BE IN TAURUS AT BIRTH

A fortunate period all around, one in which the individual should be active and push forward, since enterprises started or completed during this period will be generally successful. By making the most of opportunities and contacts during this period, the individual could rise in whatever station of life he may be situated, and should reach a position of authority and responsibility. The purchases of automobiles or other vehicles of transportation are likely to be made during this period.

IF THE MOON BE IN GEMINI AT BIRTH

This is a period for making best use of his social contacts, communication skills, and exchange of ideas. If sufficiently educated, the person may write articles, books, or give lectures. He may come in contact with publishers or writers or be instrumental in signing contracts. Generally, this period will be marked by literary and educational activities.

IF THE MOON BE IN CANCER AT BIRTH

If the Moon is in Cancer at birth, the main period of the Moon will be marked by a tendency toward domesticity. The individual will live in a place which is either very rocky or is surrounded by mountains, or high ground and trees. He will have domestic animals around him according to his means and he will spend more money on animals than he will at any other time in his life. There is some danger during this period of contracting a secret disease and every care should be taken to avoid contagion.

IF THE MOON BE IN LEO AT BIRTH

Not a good period for the health of the individual. Sickness is likely to be a serious handicap to general welfare and must be avoided by extra care and precaution if possible, since otherwise this period presents opportunities for progress, especially financially. Business affairs will prosper and promotion in position, increase in trade, or success in a professional career will be found to come easily and with little effort. The individual will receive the respect and admiration of his associates.

IF THE MOON BE IN VIRGO AT BIRTH

If the individual is not yet married, he is very likely to marry during this period. If he is already married, he will be unfaithful to his marriage partner, and be in serious danger of separation from her. His spirits are high during this period, and he chafes at the bonds of domesticity. He will be rather fortunate at this period if his affairs take him to foreign countries, but although he will make money, he is likely not to save it.

IF THE MOON BE IN LIBRA AT BIRTH

He lives in hopes during this period, seeming not to be able to complete anything, or to be continually frustrated in everything he undertakes. Association with the opposite sex may take on the colour of intrigue and unless he is particularly cautious will lead to open scandal. He is liable to find himself the victim of some racket, which uses a woman as a decoy, and may have to pay blackmail in the form of coin or services which are unworthy. Keep to the straight and narrow path is the best advice to those living in this period.

IF THE MOON BE IN SCORPIO AT BIRTH

A particularly unfortunate period, during which the cards seem, stacked against the person with Moon in Scorpio at birth. He will be far from happy during this period. He will be discontented, continually worried over finances, and may become very bitter and disgruntled with the world and the people in it. He will become estranged from his relatives and may be separated entirely from his family. He may experience poverty at certain times during this period. Unless he is particularly careful of his diet for some years prior to the beginning of this period, a functional disorder of the stomach may assert itself at this time, and it may become so aggravated that an operation will be found necessary.

IF THE MOON BE IN SAGITTARIUS AT BIRTH

During this period the individual must not expect to benefit from the voluntary deeds of others. His friends will not help him financially, not because they do not wish to, but rather because they are unable to do so. Expected legacies or bequests from family or relatives will not materialize, in fact may be lost entirely. Moreover, this is a period of vitality and through his determined efforts the individual can and usually will attract for self the good things of life. If he makes a concerted effort, his finances will be considerably improved.

IF THE MOON BE IN CAPRICORN AT BIRTH

A period of growth and productivity, with an overall improvement in all walks of life. If up to this time the individual has no children, he will have an addition to the family of one or more children, either of his own or through adoption. He will add to his wealth. He will purchase real estate and generally accumulate possessions, become a man of substance in relation to his community and environment.

IF THE MOON BE IN AQUARIUS AT BIRTH

This is a period of reckless expenditure. The individual is prone to spend much more than he earns and will have great difficulty in paying his debts. A close curb should be kept on these tendencies and a person entering this period should carefully budget his expenses and live within his income. The urge towards hard reckless living and towards dissipation of his resources, not only his money but his health as well, is strong and can only be held in check by an application of will power.

IF THE MOON BE IN PISCES AT BIRTH

From a health standpoint, this period may be almost tragic. The individual will be a source of worry and anxiety to his family at that time. Many individuals with Moon in Pisces at birth, during the Moon period, contract spinal meningitis or infantile paralysis, and unless great care is taken, there is difficulty in recovering. The chances of contracting this disease and of recovery from it, will depend in large measure, on the aspects which other planets make to the Moon. They may either aggravate or modify what seems to be inherent in the conditions which confront the individual during this period.

Note: The conditions given for each of the planetary main periods are general conditions, prevalent throughout the duration of the period, but that since each period is divided into sub-periods or Sub-period dasa, there will be an ebb and flow to these conditions or a direct contradiction with them for certain shorter intervals during the main period.

These modifications or contradictions will depend for their quality and intensity upon the relationship which exists in the birth chart, between the Planet whose main period is under consideration and the Planet which affects the sub-period.

E.g. for instance, Moon and Mars were in bad aspect (say 6* or 8* aspect) at birth, the Moon being afflicted by Mars, then even though on the whole the Main Period of the Moon was a fortunate one, yet for the duration of the Mars sub-period (which is seven months out of the 10 years of the Moon period in the Vimsottari divisions, there would be present some very

adverse conditions, which might seem to contradict or at least seriously modify the fortunate influences of the Main Period. The reverse would of course, be true if the sub-period under consideration were that of a Planet in good aspect to the Planet of the Main Period.

MARS DASA

Effects during the Major period of Mars:

During the Mahadasa of Mars there will be attempts of money making through lands, litigation and the royal favour, acquisition of more cattle and lands; quarrel, and disputes with brothers and sons; life with wicked women and suffer from diseases caused by disturbances of bile, blood and through fire. He will also suffer loss of wealth.

Mars period- with reference to their natural governance over certain affairs.

1. If Mars be strong, benefic and well placed during his periods there will be success in litigation, defeat of enemies, birth of brothers or prosperity to them, gains from landed estates, minerals, etc. Fame will increase and the native will be raised to a position of command and power.
2. If the planet Mars is weak, malefic and badly placed, there will be failure in litigations, quarrels in the family, ill health to brothers or their death, loss of property, danger from weapon wounds and poison, displeasure from high officials, entanglement in criminal conspiracy and wicked acts, quarrels with wife and children, loss by fire or breakage, etc. He will cause diseases like bilious complaints, impurity of blood, fever, excessive thirst, eye disease, appendicitis, epilepsy, injury to marrow or fracture of bones, psoriasis, tonsils, polypus and diseases of the throat, etc.
3. Now let us list out the auspicious and inauspicious Effects of the Period of Mars consequential to its placement in exaltation or own signs or in debilitated or inimical sign.

IF MERCURY BE IN ARIES AT BIRTH

A unsettled and irresponsible period. There will be many changes of residence and of work. The individual, if an employee, will change his position often; if he has his own business, he will change from one type of business to another. It is a period of speculation and gambling. Everything is a gamble at this. His losses, however, will more than offset his gains. At

times he will need money so badly that he will be tempted to steal it. He is obliged to resort to lying and deceit in order to live.

IF MERCURY BE IN TAURUS AT BIRTH

The period will be of unrestrained behaviour and extravagance. The individual, on account of his utter lack of ideas regarding the value of money, will become a source of worry and anxiety to his family and friends. His parents will help him financially from time to time, but he will waste the money they give him on all sorts of foolish enterprises. His wife and children will suffer privation because of his recklessness.

IF MERCURY BE IN GEMINI AT BIRTH

The Mercury period will be on the whole a very happy one. The only incident of any importance during this period will be caused by a misunderstanding between the individual and his mother. This misunderstanding may develop into a dispute over money matters. If married, his domestic life will be pleasant and happy during this period. He will read a lot and take many short trips.

IF MERCURY BE IN CANCER AT BIRTH

The chief feature of this period will be a change of residence to foreign countries. The entire period will be spent away from the land of birth. Not just a question of travel, but rather of domicile. The native is quite likely to earn his living during this period by writing, more particularly the writing of poetry or of poetical or fanciful prose. known as an author or poet. It is a good period and even his enemies will grudgingly grant him his due.

IF MERCURY BE IN LIBRA AT BIRTH

This will not be a good period on the whole. The health will be poor and there will be a tendency to lose weight. The individual may embark on some sort of designing career either in textiles, decorating or architecture, being drawn to these, however, because of lack of definite purpose or vision of his life's work rather than from any marked aptitude, and as a result he will be unsuccessful.

A marked natural tendency towards extravagance becomes apparently uncontrollable during the Mercury period. Reckless, foolish and selfish expenditures succeed eventually in estranging the individual from his family and relatives.

THE MAIN PERIOD OF RAHU AND ITS SUB-PERIODS

Duration of Period- Vimshotari-18 years.

Unlike the periods of the Planets, the importance of the Zodiacal Sign in which Rahu is found at birth is overshadowed by the importance of the House in which he is placed.

The House positions of Rahu and of Ketu are far more important than the Sign positions, Let us have an outline of the events and conditions peculiar to the Rahu and Ketu periods in terms of House as well as Sign positions.

In Hindu Astrology the beginning of each House is a Mid-point of a house i.e., halfway between the cusp of the House and the cusp of the preceding House as per western method, while the end of each House is a point halfway between the cusp of the House and the cusp of the succeeding House. This is most important when determining the House positions of any planet or the House positions of any significators in the Birth chart, such as Rahu and Ketu.

RAHU IN THE ZODIACAL SIGNS

The period of Rahu is not a fortunate one, unless in the native's birth chart it is extremely well placed. The period is a painful and a troublesome one. It is usually accompanied by poverty and disease. The morals become

loose and this condition may result in actions, which may have serious consequences, even to the extent that the native may commit a crime during this period, if Rahu be badly placed or aspected.

Usually the first part of the period is favourable or at least not as unfortunate as the latter part, in which many tragic events are likely to occur. The native while associating with honourable and respected people, who like him and are very well disposed towards him, still becomes entangled in all sorts of trouble and his high hopes fall to ruin. Imprisonment, poisoning, enforced travel in foreign countries may occur during this period and it is very important to note the position of Rahu in the birth chart as to house, sign and aspect, particularly its relationship with the Sun and the Moon.

Rahu, however, is exalted in the sign Taurus and if he be found there, all the bad effects will be mitigated to a great extent.

If Rahu be in Taurus or Cancer in the life chart, then when the native is going through Rahu period, conditions will be greatly improved-there will be a gain in wealth-opportunities will present themselves through which the education will be broadened-there will be some promotion or honour in the business or profession -if not married, the native will marry-his servants or subordinates will be honest and loyal and the native will enjoy good health throughout this period.

If Rahu be in Pisces, Virgo or Sagittarius in the life chart, that also is good during Rahu period providing it is not placed badly as to house or badly aspected. If it is favourably placed in house position and well aspected, its position in Pisces, Virgo or Sagittarius will give a male child and some rise in position-gain through death of brother.

If, however, Rahu be in Sagittarius or Virgo, badly placed as to house or badly aspected, then conditions will be extremely bad. There will be a loss of health and family; the occupation will be a dangerous one; there will be much deceit and treachery on the part of enemies. The native may suffer injury from gangsters or be one himself; he will have to work very hard to make an honest living, at times not having enough to eat or having to subsist on food of very bad quality, He will of necessity be forced to do menial work; his health will be bad and he will suffer from some venereal disease, asthma, tuberculosis or disorder of the glands. His marriage partner will cause him trouble and he will have wicked children.

If Rahu is found in the Asterisms Krittika, Uttar or Uttarasadha in the birth chart, such position will intensify the bad effects of the Rahu period.

In the following table is shown the relative general effects of the Signs, where Rahu is found:-

Exalted Sign	Good	Bad	Very Bad
Taurus	Scorpio	Aries	Sagittarius
	Pisces	Gemini	
	Capricorn	Virgo

Chapter 03

Assessing the Effects of Sub-Periods of a Planet

Rules for Assessing the Effects of Sub-Periods of a Planet

To Judge the affects of the sub-period of Planets in the major period of a planet the following rules will be helpful.

1. The Dasa of a planet that has achieved the Vargottam amsa will give favourable results. If the said planet is set or is in its fall, the effect will be mixed.
2. When the Period and sub-period belonging to two planets both of which occupy or own the 8th, the 12th or the 6th house are in progress, the effect will be inauspicious.
3. During the Dasa period of an inimical planet and the sub-period of a planet ruling the 3rd, the 5th or the 7th asterism counted from the natal Nakshatra is in progress or the sub-period of the lord owning the Sign occupied by the Moon or the 8th house there from is passing, the native will be troubled by thieves and enemies and pass through much distress.
4. When in the order of main Dasas is:-
 - the 4th Dasa belonging to Saturn, for person born in Mars Dasa
 - the 6th Dasa belonging to Jupiter, for person born in Venus Dasa
 - the 5th Dasa belonging to Mars, for person born in Ketu Dasa
 - the 5th Dasa belonging to Rahu, for person born in Venus Dasa
 - the Dasa period of a planet situated in the end of a sign, or - owning the Dushtana like the 6th, 8th or the 12th
 - every one of these is going to bring misery and prove dangerous.
5. When Mars occupies an Gemini or Pisces sign or his exaltation sign identical with the 10th or the 11th house, his Dasa period will bestow upon the native a kingdom. After defeating his enemies, he is sure to

become a famous king possessing a large number of vehicles and a large army; and feeding many people.

6. When Venus, neither set nor conjunct with a malefic, is in his own or exaltation sign identical with the 12th, 10th or the 11th house, the native during its Dasa period will acquire many gems and precious stones, gain intellectual insight, become greatly effluent and be praised by many people.
7. When the benefic are placed in their depression, inimical, the 6th or the 12th houses, they produce untoward results, whereas malefic placed in similar situation give in their Dasa period incalculable miseries.
8. During the Dasa period of a planet,
 - if the sub-period belongs to an unfriendly planet to the Dasa Lord (main ruling planet) or
 - to a planet occupying the 6th or the Dushtana or
 - to a planet unfriendly to the lord of the Ascendantthe native should expect danger from his enemies and loss or change of position; even the friends should be expected to become hostile to him.
9. Whichever House reckoned from the lord of Major Period is occupied by the lord of the sub-period, it is only the result arising from that House that will come to pass in that sub-period, and if the lord of the sub-period happens to be the 6th, 8th or the 12th from the Main period Lord, the result will be most unpleasant, where as the remaining House Lords will give favourable effects.
10. If a planet is exalted then it shows full benefic result. If a planet is in its 'Moolatrikona', then it shows three fourth good effects.
 - If a planet is in own sign then it shows half benefic results.
 - If a planet is in the sign of a friend then its effects is one fourth.
 - If a benefic planet is in the sign of an enemy then it will show very scanty good effect and
 - If a benefic planet is posited in its sign of debilitation then the good results will be almost nil.
 - If a malefic is debilitated then it will show 100% negative effects.
 - If a malefic is in the sign of an enemy then it will show 75% malefic effect.
 - If a malefic is placed in a friendly house, then gives only half of the bad results. If a malefic is in own sign then gives only 25% bad effects.

If a malefic is in the "Moolatrikona" sign then it will show only one eighth negative results and

If a malefic is exalted then the bad effect will be nil.

If a planet is combust then it shows the effect as if it is posited in its sign of debilitation.

These proportions are related to benefic or lords of the benefic Houses.

So far as the malefic planets or lords of malefic houses are concerned, the result will be just the opposite. When a planet is in combustion or within proximity of the Sun, its result will be identical with the one in its depression.

11. When (a) Jupiter, (b) the lord of the house where the Moon is posited in and (c) the lord of the Ascendant occupy the 4th house from the Ascendant, the middle portion of the life of the native will be good.

Those planets which occupy the Prishthodaya Signs give good results in the end of life; those in Ubhayodaya signs give good results in the middle of life; and those in the Srishodaya Signs, give in the beginning of life.

12. Find out the weakest amongst the planets:-

1. Saturn, 2. Mandi, 3. Rahu, 4. The lord of the 22nd Drekkana, 5. The lord of the 8th house, and 6th house. The lords of the Navamsa signs, occupied by these planets.

It is only the Dasa of that weakest planet, which is going to prove fatal and the native will die when Saturn during his transit passes through a Dushhana i.e. the 6th, 8th or the 12th house with respect to it.

13. Out of the two sets of planets, viz.:-

- 1) The lord of the house where in the lord of the 8th is posited, and
- 2) The lord of the Navamsa occupied by the lord of the 8th house and
- 3) The lords of the 22nd Drekkana and the Lord of the rising Drekkana,

Ascertain which planet in each pair is stronger. When the Dasa period of this stronger planet is ripening, and when Jupiter is traversing through the sign and Navamsa occupied by the lord of the 8th house or its trine position, the death of the native may take place.

14. When a planet, whose Major period is running, that planet at the same time, transits over his Own-house, exaltation or a friendly house, he promotes the prosperity of the house, it represents when reckoned from the Ascendant provided the said planet possesses full strength at the birth time as well.

15. If a planet, whose Major period is running, happens to be weak, eclipsed by the Sun, in its depression or inimical house in a nativity, that planet during his transit over any house, causes total destruction of that House.
16. When the Moon transits over a sign which happens to be the exaltation sign of the lord of the Dasa, or a friendly house, the 3rd, the 6th, the 10th, the 11th, a Trine or the 7th house with respect to the lord of the Major period, the result will be happy. Should the position of the Moon during her transit is different from what has been stated above the result is most unpleasant.
17. Should a planet, whose sub-period is running, during the course of his transit at the time pass over his depression or inimical house or become eclipsed, the native will suffer greatly. Should this planet pass through his own house, exaltation house or be retrograde, the result will be good.
18. The good effects of a planet, whose sub-period is auspicious, will be manifested when the Sun in his transit traverses over the exaltation sign of the said planet. Similar result will be experienced by the native if Jupiter transits the place. Further, the planet whose sub-period is inauspicious causing bad or evil effects the result will be felt when the Sun transits over the depression or inimical sign of the sub-period lord.
19. Rahu gives good or bad effects depending upon the nature of the planet he associates with. That planet, though good and benefic by himself, will, due to his association with Rahu, especially cause evil effects during the concluding period of his Dasa.
20. The 2nd and the 7th houses are said to be two Maraka Houses i.e. death inflicting places in any birth chart. When the lord of these or the planets occupying them are powerful they inflict death during their Dasas. If the lord of the 8th or that of the 12th house is weak death of the native may be expected during the sub-period of either of them.
21. The Dasa of the planet owning an Angle will be unfavourable if he is auspicious and it will be favourable if he happens to be inauspicious.
The Dasa of all the planets who own the Trines (1,5,9) is auspicious. The lord of the 3rd, the 6th and the 11th houses even if they are auspicious will cause evil only. The lord of the 8th house, should he also own the Ascendant will prove auspicious. The Sun or the Moon, even when they own the 8th house, gives only good effects.
22. When the lord of the Trine occupies an Angle and that of the Angle, a Trine House it will be very auspicious for the native. These two planets

during their sub-period in each other's Dasas will enrich the effects of each other and so co-operate to make the period auspicious.

23. All the planets do not give good or bad effects to the native, according to the Houses they own, during the progress of their own sub-periods in their respective Major Period.

Find out all those planets, which are related to the particular planet, whose Dasa is under examination. Also note the planets, if any, who are similarly situated (whether for good or bad) i.e. holding a position co-ordinate to the one under consideration.

It is only in the Sub-period Dasas or sub-periods of these planets that this original planet is related will show his effect in his main Dasa.

24. The lords of an Angular house and a Trine house should they be by themselves capable of causing evil, by being owners of other bad house, become powerful by their mere relationship in the Chart, to produce Yoga and they make the person concerned prosperous.
25. When out of the lords of the 5th and 9th, one of them is related to a powerful planet owning an Angle, he becomes a Yogkaraka and powerful enough to promote the prosperity and well-being of the native.
- 593 When the lord of an Angle is in conjunction with the lord of the Trine both of them become powerful enough to promote the prosperity of the man concerned. Should the lord of another Trine House also be related, the native's prosperity shall be never-ending.
27. When planets, even if by themselves they are malefic, if related to a Yoga karaka planet capable of producing prosperity, they produce good effects promoting affluence and happiness during their sub-period.
28. The lord of a Trine house gives, during his Major period and the sub-period of the lord of an Angular house, good effects. Even if these two planets are not in any way related, they will not cause any harm.
29. Should Jupiter and Venus happen to own Angular Houses, they become powerful to cause harm. Should they also occupy the Maraka places (2nd & 7th houses) they become powerful and cause death of the native during their Dasa & Sub-period.
30. Should Mercury own an Angular house, he becomes less powerful than Jupiter or Venus in doing harm. The Moon, in such a condition, comes nextto Mercury. Evil planets when owning Angles become more and more auspicious in their effects.
31. Should Rahu or Ketu occupy an Angular or Trine House, they become Yoga karakas and instrumental to cause good to the man concerned

provided they are related to the lord of either the Angular or Trine house.

32. Should Rahu or Ketu occupy a house belonging to benefic and is not connected with any planet, he becomes good and produces auspicious results in his sub-period in the Major period of the said planet. It may also be said that when Rahu or Ketu has no connection but occupy an auspicious house (Angle-Trine), he gives good effects when the sub-period of the Yogkaraka planet is ripening in his Major period.
33. During the Major period of a Yoga karaka planet, the Rajyoga operates when the sub-period of the Maraka planet is progressing. The sub-period of inauspicious planets which succeeds those in their turn add to the same.
34. The following planetary positions in a birth chart cause greatest misery to the person **concerned** :-
 - a) The planet posited in the 8th house;
 - b) The planet aspecting it;
 - c) The lord of the 8th house;
 - d) The lord of the 22nd Drekkana from the Ascendant and
 - e) The planet owning the sign occupied by Mandi.But the weakest of these is responsible for causing the demise of the native and this may happen in his Dasa or Sub-period.
35. The Dasa of a planet is said to be Avarohini (descending) when the said planet begins to descend from his exaltation sign; while that of a planet in friend or exaltation house is called Madhya or middling. The Dasa of a planet proceeding from his debilitation is termed Arohini or ascending. The Dasa of a planet that is actually in his depression or when he is moving from this point of full inimical sign or in his depression or inimical Amsa proves to be worst.
36. Even when a planet is eclipsed or is placed in its depression or inimical house but occupies a benefic sign or Amsa, its Dasa can safely be said to give mixed effects and is certainly capable of giving good results in the last half of the Dasa period.
37. Demise of the relative indicated by the House under reference may be said to take place in the Major period of the planet in the 12th house counted from that house or of the planet owning it, which ever is weaker.

For instance, a weak lord of the 2nd house is posited in the 9th. The 2nd house is the 12th (Vyayesh) to the 3rd. This 3rd house stands for the

younger brother or the sister. Again the 9th is the 12th (Vyayesh) to the 10th house representing the father of the native. This weak lord of the 2nd may cause the demise of the brother or that of the father in his main ruling or sub-period. Thus a weak planet in his Dasa or Sub-period causes destruction of both the houses which happen to be the 12th by ownership or by placement.

38. Should the lord of the Dasa in his transit pass through the Ascendant, the 3rd, the 6th, the 10th or the 11th house from it (Ascendant) or if the lord of the Dasa comes in the 7th place of the Ascendant i.e., the 7th house, or when a friendly or an auspicious planet comes to the • Ascendant the Dasa proves beneficial at that time.
39. During the several periods over which a Dasa may continue, the good or bad effect is to be ascertained after referring to the particular house reckoned from the Moon, which the lord of the Dasa may occupy during the course of its progress through its orbit.

The Moon gives auspicious results when in transit:-

Moon is in the house of a friend of the lord of the Dasa; or

In the exaltation house of the latter or in the 7th houses, Trine or

In any one of the Upachaya (3, 5, 6, 7, 9, 10, 11) houses with reference to the lord of the Dasa.

The favourable positions of Moon are referred above, in other houses Moon shows evil results.

The positive sign occupied by the Moon also represent Ascendant, 2nd, 11th house etc., in the nativity. Then Moon in anyone of these auspicious positions should promote prosperity with reference to the House indicated by the sign occupied. So far as the inauspicious positions (6, 8, 12) are concerned, the House represented by the negative sign occupied by the Moon suffers loss.

Some more rules given by another authority

If a planet is strong by virtue of being in its own Navamsa sign, it makes the native influential, very rich, possessor of lasting wealth, gainer Of wealth from the government and famous.

If a planet is aspected by benefic planets, it makes the native famous, Wealthy, exerting to earn good wealth, or pure mind, of good complexion, and gentle.

When the main Period lord and the sub Period lord are located in the 6th, 8th position mutually, the native gets trouble from the government,

opposition from subordinates and wife, loss of son or wife, trouble from thieves, Fire, Relatives, affliction of mind.

When there is the sub period of a planet located in the 12th house from the planet having its main period, the native loses his position in life, gets opposition from his relatives, has to go abroad, gets opposition from friends and gets trouble in the feet, eyes or heart.

During the sub period of a planet located with the planet having its main period there is the destruction of wife, son, servant, wealth & agriculture, frustration in efforts, opposition from dear ones, and unexpected blame.

During the sub period of a planet located in the 2nd house from the planet having its main ruling period, the native gets gentleness, good food, drinks, and clothes as also scents and flowers. The native does acts of helping others, gets friendship of his own people, and gets wife, Son, relatives and a happy mind.

During the sub ruling period of a planet located in the 3rd house from the planet having its main ruling period the native gets wealth from the government and gets friendship from others. He also gets good scents, flowers, good clothes and ornaments. He gets good food & happiness from friends.

During the sub period of the planet located in the 4th house from the planet having its main ruling period, the native gets wife, son, wealth, house, morality, conveyance, sweets, good food and drinks, good clothes & ornaments.

If the planet having its sub period is a malefic the results are in the opposite direction. Even a malefic planet situated 4th from the planet having its main ruling period will give good results, if it occupies a position of strength such as being in its own sign or in its sign of exaltation.

On the other hand even a benefic planet located in 4th from the planet having its main ruling period, will give bad results, if it is not located in a position of strength, such as its own sign or its sign of exaltation.

During the sub period of a planet located in the 5th house, from that of the planet having its main period the native acquires son etc. if the planet in the sub period is natural benefic. If otherwise in the sub period of a natural malefic there is loss of son.

During the sub period of a malefic planet located in 6th house to that occupied by the main Period lord, the native suffers through thieves, debts, & bodily troubles, and gets shaky in the position he holds.

younger brother or the sister. Again the 9th is the 12th (Vyayesh) to the 10th house representing the father of the native. This weak lord of the 2nd may cause the demise of the brother or that of the father in his main ruling or sub-period. Thus a weak planet in his Dasa or Sub-period causes destruction of both the houses which happen to be the 12th by ownership or by placement.

38. Should the lord of the Dasa in his transit pass through the Ascendant, the 3rd, the 6th, the 10th or the 11th house from it (Ascendant) or if the lord of the Dasa comes in the 7th place of the Ascendant i.e., the 7th house, or when a friendly or an auspicious planet comes to the • Ascendant the Dasa proves beneficial at that time.
39. During the several periods over which a Dasa may continue, the good or bad effect is to be ascertained after referring to the particular house reckoned from the Moon, which the lord of the Dasa may occupy during the course of its progress through its orbit.

The Moon gives auspicious results when in transit:-

Moon is in the house of a friend of the lord of the Dasa; or

In the exaltation house of the latter or in the 7th houses, Trine or

In any one of the Upachaya (3, 5, 6, 7, 9, 10, 11) houses with reference to the lord of the Dasa.

The favourable positions of Moon are referred above, in other houses Moon shows evil results.

The positive sign occupied by the Moon also represent Ascendant, 2nd, 11th house etc., in the nativity. Then Moon in anyone of these auspicious positions should promote prosperity with reference to the House indicated by the sign occupied. So far as the inauspicious positions (6, 8, 12) are concerned, the House represented by the negative sign occupied by the Moon suffers loss.

Sub-Divisions of Dasas and Their Effects

Now let us know how to reduce a Dasa period into its sub-periods (Sub-periods) and their further sub-sub-divisions (Sub-periods) along with their respective effects. All that has been stated as effects, with respect to any planet, should be expected to occur in the Planet's Dasa, in his sub-period and in his sub-sub-period (Sub-period).

Multiply the years of a planet's Mahadasa by the years of the planet that's Sub-period is sought. Divide this product by 120. The quotient will denote the years of the Sub-period. Multiply the remainder by 12 and divide the result by 120. The quotient obtained now will stand for months, further multiply the remainder by 30 and divide it by 120. This quotient will give the days, and so on.

This very procedure has to be adopted for calculating the sub-periods in an Sub-period, or their further sub-divisions. In any Dasa, the order or the sub-periods (Sub-periods) is similar to that in the Dasa and the first sub-period (Sub-period) will commence with that of its lord.

Note: Bhukti or Sub-period is the sub-period of a Mahadasa or Main or Major period and sub-Sub-period is the sub-period of a Sub-period. A Major period consists of 9 (nine) sub-periods ruled by the nine planets and each sub-period is similarly covered by nine Sub-sub-periods and each sub-Sub-period by nine Sukshma-Dasa and each Sukshma by nine Prana-Dasa. Each Major period begins with the sub-period ruled by the same planet ruling the Dasa. This rule also applies to Sub-period, Sukshma and

Prana. The sequence of Sub-period and up to Prana, etc., is the same order as that of the Mahadasa.

The method of finding out the sub-period in any Major period is very simple. Multiply the figures of the Mahadasa with that of the planet whose sub-period is to be found out. The last figure in the product always stands for the decimal of the month and the rest represents the total number of the months. Suppose we want to know the Sun Bhukti in Jupiter Mahadasa. The year for the Sun is 6 and for that of Jupiter is 16. The product is 96'. Hence the Sun sub-period in Jupiter Mahadasa is 9.6 months, which is equivalent to 9 months and 18 days.

SUN DASA

Sub Periods in Main Period of Sun (w.r.t. House Positions)

During the main ruling period of the Sun located in the Ascendant and the sub periods of Mars, Saturn, Ketu and Rahu the native gets sorrow & loss of ruling powers, wealth and property.

(This would be the result when the planets Mars, etc., are in "Agochar" position i.e. are ill placed from the Sun & weak. If however they are in "Gochar" they give good results.

A planet in its own sign, in its sign of exaltation, in its friends sign, not eclipsed by the Sun, not situated in the 6th, 8th or 12th house is technically called in Gochar.

If it is eclipsed in debilitation sign, and in sign otherthan its Mooltrikona sign or other than a friends sign and when located in 6*, 8th, or 12* house is bad and is technically called "Yam Gochar".)

(The academic education & its extent and quality have to be determined from the 2nd house of the horoscope i.e. through the nature of influence falling on the second house & its lord and its signifier -Mercury).

In that event, the sub period of Mars located anywhere will harm the right eye, if sun in the 2nd house is having its main ruling period. In case, where Mars is strong and aspecting also the Sun in the 2nd house, injury to the right eye is a certainty. The reason is that Mars in such a case will have double malefic influence on the factors representing the right eye viz the 2nd house and the planet Sun.

As regards the "Gochar place" position of the planets having their sub period, we are of the opinion that the benefit or harm to the house occupied by the main Period lord would be much when the planets having their sub periods are strong, for then their influence, good or bad, will be more effective.)

If the Sun having its main Period is located in the 9th house and the sub period is of benefic planets one engages himself in good moral deeds, charity, religious sacrifices, & great enjoyments.

During the main ruling period of Sun located in the 9^{*} house and in the sub periods of malefic planets, the native gets much sorrow and trouble from elders and friends.

During the main Period of Sun located in the 10^{*} house, and the sub period of malefic planets, the native gets frustration in his actions and suffers at the hands of thieves, fire and government.

With Sun as before and the sub periods of benefic planets, one gets much ruling powers, and everlasting fame.

(The 12^{*} house being the 3rd house, from that of the government (10^{*}) stands for the arms of the govt i.e. its deliberate self through which it functions. Where the 12^{*} house and the signifier of government i.e. the Sun suffer, trouble comes through the adverse orders of the government.)

Avasthas (State) of Planets & Their Effects

A. VARIOUS TYPE OF AVASTHAS (STATE) OF PLANETS AND THEIR EFFECTS ON THE NATIVE

In the Vedic or Hindu Astrology the ancient Seers have mentioned, various type of Avasthas or state, of the nine planets including Nodes (i.e. Rahu and Ketu), to determine quantitatively the nature of auspicious or inauspicious effects which a planet will be capable of conferring on a Native, not only during native's life span but also in their period or sub-periods etc. Each of these Avasthas has a name, which is broadly symbolic of the type of effects expected from the respective planet (which is in that state). The method of finding out the state of a planet differs in each type of grouping of state or Avastha.

THE SHAYANAADI etc. TWELVE AVASTHAS

Shayana (Repose, laying down), **Upavesha** (Worshiping or sitting), **Netrapani** (Washing eyes/ face), **Prakasa** (radiating), **Gamana** (going), **Agamana** (Coming), **Sabhagatha** (In assembly), **Agama** (homeward bound), **Bhojana** (Taking food), **Nrityalipsa** (Engrossed in dancing), **Kauthuka** (Amusement) and **Nidra** (Sleep), these are the names of the twelve Avasthas of the Planets.

To find out the particular Avastha of a planet we have to proceed as follows:

The serial number of the Nakshatra in which the Planet is situated is to be multiplied by the serial number of the respective Planet, (Sun-1, Moon-2, Mars-3, Mercury-4, Jupiter-5, Venus-6, Saturn-7, Rahu-8, Ketu-9) then the product is to be multiplied by the Navamsa serial number in which the Planet is posited. To this resultant figure is added the serial number of the present Moon Nakshatra, the Ishta Ghati and the serial number of the Ascendant sign. After this the resultant is to be divided by 12, and then the remainder will tell the SHAYANAADI Avasthas:

Notes: Suppose the native was born in the Hasta Nakshatra 5 Ghatis 0 Pala after the sunrise in the Cancer Ascendant. At this Ishta Kala or time, the Sun's longitude was 2/5/10/15 and the moon's longitude) was 5/9/14/27.

Due to the Sun's longitude to be 2/5/10/15 Sun will be in the Mrigasiras Nakshatra. Therefore the serial no. of Mrigasiras is to be multiplied by that of the Sun. The product of these will be $5 \times 1 = 5$.

This product is to be multiplied by the serial no. of Navamsa in which the Sun is situated. The product will be $5 \times 8 = 40$. To this figure (40) is to be added the serial no. of the birth Nakshatra which is 13 and the birth Lagna (the serial no. of the natal Ascendant which is 4). The summation will be $40 + 13 + 4 = 57$. It is divided by 12, then the remainder comes to nine. The 9th is the Bhojana Avastha. There fore it is the Bhojana Avastha of the Sun.

In order to know the Chesta of the Avastha:

4. The remainder which came by the above method should be multiplied by this very figure (the remainder). The product is to be added the number of the first letter of the name and the resultant should be multiplied by 12. In the remainder are to be added the Kshepakanka of the Planets for the Sun etc. Su (5), Mo (2), Ma (2), Me (3), Ju (5), Ve (3), Sa (3), Ra (4), Ke (4) and this is to be multiplied by 3. If the remainder is 1 then it is Drishti, if 2 it is Cheshta, if 0 it is Vicheshta. These Kshepakankas of the Planets have been stated by the ancient Acharyas Yawan etc.

The speculum of SWARANKAS is as follows.

(Letter (Consonant or Vowel) numbers)

NO. 1	No. 2	No. 3	No. 4	No. 5
A (Rama) आ	E	U (Uma) 3	AI	OU ओ
K क	KH ख	G ग	GHA	CH
CHH	J ज	JH	T	TTA 75
D ड	DDA ढ	T थ cf (Soft)	TH থ	D ঢ (Soft)
DH ঢ (Soft)	N ন	P	PH	B
BH ଭ	M	Y	R	L
W ବ	SH	SHH	S	HA ହ
	ST			

In the notes of the 3rd shloka we arrived at the Bhojana Avastha of the Sun. There the remainder was 9. Therefore multiplying the remainder 9 by 9 we get 81. To 81 is added the SWARANKAS of the first letter of the native's name (popular) Hari Om 'Ha' and thus we get 81 +5=86. It is divided by 12. The remainder comes to be 2. To it is added the Kshepakanka of the Sun 5 and the figure comes to be 2+5 =7. Dividing it by 3 we get the remainder 1. Therefore, it is the Drishti Chesta.

In the given example. We should say that there was the Sun's Drishti Chesta which was in his Bhojana Avastha.

The effects of the various Chesta are:

- Drishti Chesta (1st) will give moderate effects.
- Chesta (2nd) will give complete effects.
- Vicheshta (3rd) will give negligible effects.

Thease effects are according to the strength of planets for auspicious Avasthas and for inauspicious avasthas the reduction in evil effects will also be in the same proportion, i.e. in Chesta (2nd) the evil effects will be fully controled.

1. Planets have nine states:-

1 Deeptha, 2 Swastha, 3 Munditha, 4 Santha, 5 Hinsa, 6 Dukha, 7 Vikala, 8 **Khala**, 9 Kopa.

That which occupies deep exaltation is Deeptha,
 In his own house Swastha,
 In a very friendly house Munditha,
 In a friendly house Santha,
 In a neutral's house Hinsa,
 In an unfriendly house Dukha,
 With a malefic Vikala,
 A defeated planet Khala,
 In combustion, with the Sun Kopa.

Authors **have** given results in accordance with the names **given**
In all sciences there are differences in system and explanation of facts.

2. I have learnt the following as the Avasthas and they seem to be more **reasonable** :-
